TELOCASET HAS A BIG PICNIC (Special to The Observer) TELOCASET, May 27.—All the pupils from the sixth grade that took state examinations in physiology passed with fair grades. George Hill is one of the high school graduates from the North Powder high school this year. Mr. and Mrs. Briggs and family have moved into the residence recently vacated by George Hilyard and family. Miss Eunice Parks is keeping house and cooking for her brother, Lee Parks, and the men who are making the big fill at the viaduct. Mrs. Ackley is at home again after a short stay in La Grande with her mother. School closed on Friday with an all-day picnic for the school. It was held at the school house owing to the cold and cloudy weather. Mrs. John Spain is at Hot Lake taking medical treatments. Mr. and Mrs. Reed will leave in a few days for Portland on a visit. Mr. Reed is recovering from an attack of ptomaine poisoning and will take his vacation while recovering from it. One half of the eighth grade pupils successfully passed the examinations. This is about the same per cent of graduates from other schools in the county. The questions in history and civics were considered so much a matter of individual opinion that it is hard for children in the eighth grade to give answers to suit the examiners. It is discouraging to the young people to fail on a matter of opinion. Mrs. L. B. Hlatt who has been at Hot Lake for several days after undergoing an operation is getting along nicely and will soon be at home again. A branch library has been opened in Telocaset at the home of Mrs. Harvey Starr. This will give books to people in this section and they are gladly availing themselves of the privilege. Mr. Lowe, who lives in Thief River valley had the misfortune to lose his home by fire some days ago. He was gone from the house for a short time and found the house in flames on his return. He did not save anything not even his hat it is reported. Whether Mr. Lowe had any insurance is not known. Farmers are busy finishing the putting in of their crops. The season has been late but it gives promise of a quick growing season and lots of rain. Just the year for good crops. L. B. Hlatt will soon have his windmill in running order and plenty of good water for his tenants. The water from the railroad tank has a taste of oil that makes it unpleasant to use. Mr. and Mrs. Wilson will leave in a short time for a visit to Mr. Wilson's relatives who live in Missouri. They will be gone for a month. The Soya Bean. The soya bean is largely used by the Chinese. The white cheeses you see at Chinese stores are made of soya bean curd. In France, a liquid made from the soya bean has been used as a milk substitute. It is not good for that purpose, because, like all beans, it is largely starch. The soya bean is a valuable food, but it is inferior to peanuts. They contain much fat, which beans lack.

These resolutions will be sent to the state grange by the delegates who will be Mr. and Mrs. Will Sherwood with Mr. and Mrs. C. D. Huffman as alternates. Mr. and Mrs. C. D. Huffman and Hon. Baby Boy Born with Full Set of Upper Teeth This is clipped from an Ohio newspaper: A seven and one-half pound son, with a full set of upper teeth, was born to Mrs. Stephen Moy at her home at 520 North Fifth St. yesterday. Dr. D. W. Medill, who vouches for the truth of the story, says Moy will have to walk the floor at nights only half as much as do other babies by reason of his new son having only half as many teeth to eat. (These teeth were probably inherited from grandmother who had several extra sets.—Editor Oral Hygiene.) Dr. RUCKMANS Dental Office is Located in The Palmer Roesch Corner Adams and Depot Sts.
