FOUR-DAY WEEK INAUGURATED

(By Associated Press)

LONDON, May 30.—Lord Northcliffe has announced that hereafter the editors of the Evening News, which include the members of the staff who would be termed "copy readers" on an American newspaper, will work only four days a week instead of five as heretofore.

"Since 1894," said Lord Northcliffe when making the announcement, the "pace in evening newspaper production has been intensified and is going to increase still further. Wireless telephony is beginning and is going to affect the publication of news."

The occasion was the retirement of W. H. Evans, the editor-in-chief of The Evening News, who has been for 28 years on one or another of Lord Northcliffe's papers. Lord Northcliffe gave him a banquet, presented him with a cheque for £10,000 and awarded him a pension of £2,500 a year for the next ten years and afterwards, for the remainder of his life, a pension of £1,000 a year.

According to the testimony of newspaper men who have worked on both New York and London afternoon newspapers, the work on the latter is much the easier. The New York afternoon papers use on an average thrice as much news as do their London contemporaries and so much harder hustling to get it.

OVERHEAD IS AUTHORIZED

SALEM, May 30.—Authority for the construction of an overhead crossing over the tracks of the Oregon-Washington railroad at the Grande Ronde river, near Rinehart in Union county, is granted to the state highway commission in an order issued by the public service commission here. The cost of the proposed structure is estimate at $51,700, of which the railroad is to bear 20 per cent, the state 40 per cent and Union county 40 per cent. The expense of maintaining the structure is to be borne equally between the state and county.

The proposed new structure is to be 335 feet long over all, with two 30-foot, one 35-foot and two 40-foot steel spans, together with one 140-foot steel span on concrete piers, and involves a crossing of both the railroad tracks and the Grande Ronde river. Several existing grade crossing are to be eliminated by reason of the new routing of the La Grande-Joseph highway, of which the new crossing will be a part, the cost of these eliminations being assessed against the railroad company.

Fishing Rights of Aliens Restricted

(By Associated Press)

WASHINGTON, May 30.—Aliens enjoying fishing rights in the Columbia river before 1919 claimed under provisions of a compact between Oregon and Washington, are not exempt from the Oregon 1919 law providing that only citizens should be licensed to fish for salmon with fixed appliances, the supreme court held today. The statutes had been sustained by the United States district court and the circuit court of appeal.
