ASKS PERMIT TO MOVE A HOUSE

Moving of Building Said to Have Sold for \$50 Over Cost Western Union Would \$300.

As the city required by its ordinances to issue a permit to move a house that was sold to have been sold for \$50 when that moving would result in hundreds of dollars expense to companies having transmission lines in the route of moving? This is a question that was passed to City Attorney R. J. Green last evening at the city commission.

The house in question was described as having been gutted by fire, the roof largely burnt away, rafters in bad shape and in many other ways decrepit. It was said to have been offered for sale at \$50 if the buyer would move it. The purchaser wants to move it to another lot and in so doing would necessitate cutting the wires of the telephone company, the light company and the Western Union cables, unless the remains of the roof are removed.

The damage that would be sustained by the Western Union alone was declared to be over \$200, as its transcontinental wire traffic would be interrupted if the cables are cut and a man would have to be sent from the coast to do the work.

To Our Customers;

After June 1st, we request that our customers please save their sales slips, as we do not again itemize. This machine is similar to that used in the banks. We believe this machine will expedite our accounting and make it possible for us to give you the best service in your accounts with absolute accuracy.

However, should you have any missing slips we will gladly furnish you duplicates, as we retain all original sales slips in our files.
