## SHAW OFFERED HUGE SALARY

(By Associated Press) LONDON, June 21.—George Bernard Shaw has been offered \$100,000 a year for five years by an American syndicate to produce two motion picture films each year. The author made this announcement himself at a dinner of the Society of Authors in London. Declaring that the cinema rights of a single story might be worth \$50,000, he urged young authors not to be too ready to give concessions to cinema producers or literary promoters, among whom, he said, there was unfortunately no absolute standard of honesty. "A man who sells a table or a chair charges no more than the cost of the article plus a reasonable percentage of profit," he said, "but nothing of the kind applies to the publishing, theatrical or cinema business. The truth is the

whole thing is a gamble, and producers who make perhaps one success in 10 or 20 ventures want to make that success pay for all failures."

## ANTIQUITIES MANUFACTURED

LONDON, June 21.—The manufacture of antiquities is carried forward on such an extensive scale in Egypt, particularly at Cairo that it now has a place in reports on the industries of the country, says Professor Flinders Petrie, the famous Egyptian archaeologist in an interview in the Daily Chronicle. The forgeries of Egyptian antiquities are often so well executed, he states, that even the most experienced collectors are deceived by them. Large sums of money have been paid for articles that were considered genuine treasures but have now been pronounced spurious or of doubtful origin. So strong is the suspicion concerning the authenticity of scarabs and various bronze and gold ornaments and other articles alleged to have been found in Egypt that many collectors are afraid to risk buying them, and in an excess of caution often turn down antiquities that are undoubtedly genuine. Thus the forgeries have largely ruined the market for Egyptian historical treasures.

## WHO ARE YOU?

NINETY-NINE chances out of a hundred you are the man whose second finger on the right hand is expert in pressing electric buttons.

An electric button is a pretty small thing. By it we make elevators rise and fall for us, we give orders, we summon employees, we start big machinery whirring, we turn the light on and off, we could go on indefinitely. But remember, it is not the half-inch button that does all this.

There is the tremendous power behind the button; the huge dams and water turbines (in case of water power) or the enormous boilers, turbines, engines and generators (in steam plants); the wires of high tension transmission lines, and the innumerable smaller wires stretching like a web from your very bedside out over the whole country.

1,400,000 people have invested their savings in the securities of the electric light and power industry. Besides these foresighted citizens there are the investments of insurance companies and the loans made by banks.

They make possible "the button" that your finger presses morning, noon and night. Thirty-five million others enjoy the same instantaneous service.

There are still 14,000,000 homes in the United States remaining to be wired. 14,000,000 unwired homes mean that millions of people are without the benefit of electric light and power in their residences.

Gradually most of these residents will demand electric service, and the electrical industry with the support of the public, will find the means to extend this service to these prospective patrons, so they, too, will be able to press that half-inch button.

## Here She Is—Good As New

"With cylinders REGROUND, AND FITTED WITH McQuay-Norris Piston Rings, Pistons and Pins, your motor is practically as good as new," says the cylinder regrinder.

Motorists are just beginning to realize how much added life, and mileage, can be given their cars by having cylinders reground, and new rings, pistons and pins installed. When these three vital units are renewed in a reground cylinder block, the result is practically a new motor.

In every section of the country are shops which specialize in regrinding—equipped with special tools and machinery for this work.

Your repairman can tell you whether new piston rings alone are all your motor needs to bring back its lost power, or whether the cylinders of your motor need regrinding and complete new ring, piston and pin equipment.

There is a McQuay-Norris Ring—made from Electric Iron—for every purpose and price; specially designed and manufactured for replacement purposes—such type designed for the particular motor it fits. All standard sizes and over-sizes.—An extract from McQuay-Norris, Saturday Evening Post.

You can get quick service from us.

## THEATRES

AT SHERRY'S LAST DAY, "AT THE STAGE DOOR."

Still another Ziegfeld beauty has climbed the heights of stardom on the screen. She is Billie Dove, whose great beauty formerly was a decorative feature of the Ziegfeld Follies and who is now dividing her time between appearing in films and playing in the big Ziegfeld musical hit, "Sally," in which this newest of Ziegfeld stars has an important role. Miss Dove's first appearance in R-C pictures occurs in the William Christy Cabanne production of "At the Stage Door," a photoplay of show life, comes to the Sherry Theatre for the last times today. Also showing a comedy.

"MUSS LULU BETT" A TRIUMPH

William de Mille's Paramount production of "Miss Lulu Bett," a superb dramatization of Zona Gale's novel and play, triumphed at the Arcade Theatre yesterday. The picture is one of the best with which Mr. de Mille's name has been associated this season and presents a splendid cast of players who are most artistic in their portrayals. They include Lois Wilson, Milton Sills, Theodore Roberts, Helen Ferguson, Mabe Van Buren and others.

"Miss Lulu Bett" and a Harold Lloyd comedy will finish their run at the Arcade tonight.

REID, SWANSON AND DEXTER IN LEADING ROLES IN PARAMOUNT PRODUCTION.

It is the policy of Paramount whenever possible to combine its notable stars and players in single productions and in the case of "Don't Tell Everything," which will be the attraction at the Arcade Theatre Thursday, Friday and Saturday, there is a notable galaxy of screen favorites with Wallace Reid, Gloria Swanson and Elliot Dexter in the leading roles.

## MEXICO WILL PARTICIPATE

(By Associated Press) MEXICO CITY, June 21.—Much is being made here of Mexico's participation in the centennial celebration of Brazil's independence next fall. A committee headed by Jose Vasconcelos, minister of education, will leave in August on the Mexican submarine "Coahuila" for Rio de Janeiro. Work has already been started on the Mexican exhibit, which is to be extensive. The police band, the best in the republic, will attend and selected units from the military and naval academies will spend a month in the Brazilian capital.
