## IDAHOANS SEE BIG METEOR

The meteor which passed over La Grande at about 5:30 p. m. on June 22, is believed to have fallen into Lake Coeur d'Alene, according to a story in the Coeur d'Alene Evening Press. It was also reported seen in Spokane. The article in the Idaho paper is as follows: Last evening at 5:30 a group of men were standing on the corner of Third and Sherman streets when they noticed the heavens become alight with light, and passing over their heads was a large meteor which fell to the ground about a mile west of the city. The main body being of white with blue and red flames streaming from it. The meteor passed through the air and in the time the party had reached the center of the street, it had passed beyond vision, leaving a trail of light in the sky. The meteor was a large, bright, fiery ball, similar to a large dynamite explosion. It passed over the city, leaving a trail of light in the sky. The meteor was a large, bright, fiery ball, similar to a large dynamite explosion. It passed over the city, leaving a trail of light in the sky.

ROSE ON APPLE TREE  
KALISPELL, Mont., June 28.—A white dove, seen on an apple tree was the peculiar phenomenon recently noticed on a crab apple tree in the yard of Alfred Jensen, a local resident. The dove was described by Jensen as being white, with a large red patch on its breast. It was perched on the top of the tree and looked at the bird as if it were a friend. The dove was seen at about 11 a. m. and was seen by Jensen and his wife. The dove was seen at about 11 a. m. and was seen by Jensen and his wife.

If, out of every one hundred people in civilized lands, seventy-five were blind, you could not see the eye of one eye, or even the hand of one hand.

## SWIMMING TANK AT CLUB OPEN

Sunday marked the opening of the swimming tank at the Comets Club. Owing to trouble with the pumping plant it was impossible to get the tank completely filled for the opening but this difficulty has now been remedied and from now on the tank will be kept full all the time. A new pump has been ordered, which will fill the tank in about a third the time that the old one required. Many of the members have already been out and from present indications record crowds will be in each day. An amateur pool has been constructed for the children and is being much enjoyed. The water is already warm to the touch. Plans are under way to build a new clubhouse and it is hoped to have it installed soon. A regular program of instruction, under the direction of Mr. Pryke will soon be announced and all members can take lessons in both swimming and diving without any cost to themselves. The committee in charge of the tank is working hard to keep it in the best of shape and hope to see many members as possible out each day. Evening swimming from 5:00 to 7:00 o'clock is the most popular hour to go.

## El Sidelo CIGAR

THE old saying about "eternal vigilance" applies to the cigar business. Rest assured that the makers of El Sidelo Cigar exercise eternal vigilance in all processes of El Sidelo manufacture. High grade Havana filler tobaccos and choice shade wrappers deserve A-1 workmanship—and get it in El Sidelo.
