CONDUCT IS TO BE REGULATED

(By Associated Press)

SPOKANE, Wash., July 3.—A student conduct board has been authorized at North Central high school here to regulate student activities. The board will be composed of student representatives and will pass upon all questions regarding students' welfare and conduct. It will consist of five members appointed by the associated student council, which is made up of representatives of the boys' federation and the girls' league. Officers of the new board will be president, secretary, library commissioner, convocation commissioner and traffic commissioner. A final appeal committee of three faculty members and two students will be appointed to sit as an appeal board on all cases in which an appeal may be taken from decisions of the conduct board.

The conduct board president will oversee work of the board and

BY WILLIAMS

CUT OUT THAT YELLIN' AN' HOLD STILL! YOU'VE STARTED TO COMPETE WITH THE MEN NOW AND YOU'LL HAFTA SLEEP WITH 'EM.

OW-OO-OO-OO I CAN'T STAND THAT! YOU'RE TAKING ALL THE SHIN OFF MY NECK!

LIBRARY WORK IS RECOMMENDED

(By Associated Press)
DETROIT, Mich., July 3.—Library work as a profession is but of recent growth. George H. Locke, of Toronto, Can., told the American Library association here today. "We are still in the missionary stage where conversion of the heathen unbeliever is necessary. He or it (individual, corporation or government) needs complete change of heart. They are beyond yonis," Mr. Locke continued.

"In Canada I have been a prophet, preaching the possibilities of library work as a help towards intelligent citizenship and social well-being.

"The establishment of a well-ordered training school by the inspector of public libraries of our province has given standing to the profession. An intelligent test was set up for entrance. It took the form of a course of intensive study, through three months, of the ideals and practices of work in a public library, with daily practice, much after the same plan as made our officers' training course so successful during the recent great struggle. We have a continuous emergency in the necessity among our people for a better understanding of the problems of life in all its national manifestations, and the place to get that understanding is in the people's national educational institution. To bring these two important phases together we must have an army of interpreters who by intensive training are fitted to help the ambitious and attract the indifferent.

"This is what we are trying to do in Canada. We haven't got very far, but we haven't lost my ground.

There is Beauty.

Wherever snow falls or water flows or birds fly, wherever day and night meet in twilight, wherever the blue heaven is hung by clouds or sown with stars, wherever are outlets into celestial space, wherever is . . . awe, and love—there is Beauty, plentiful as rain, shed for thee, and though thou shouldst walk the world over, thou shalt not be able to find a condition inopportune or ignoble.—Emerson.

For Sale

5-room modern bungalow, full basement, garage, large lot, house faces east. The owner of this place is a non-resident and the price is reduced to sell the place immediately. If you are looking for a good modern home it will pay you to investigate this. Price \$2800.00. Terms, \$1000 cash and the balance like rent.

5-room modern furnished bungalow, 3 lots, excellent garage, fine location. This place is completely furnished and must be seen to be appreciated as to location, condition and the furnishings.

One excellent lot located on First street between Sprigg and Penn.

Two 4-room plastered houses near Palmer mill that can be purchased for \$200 down and \$25.00 per month.

I have several good modern homes on paved streets.

The next time that you insure your home come in and let me explain what \$2.00 or less will do for you as to real insurance.

GIRL SECURES A MAN'S JOB

(By Associated Press)

DULUTH, Minn., July 3.—Three and one-half years in an office earned Miss Helen Carroll, 21-year-old Minneapolis girl that a position perfectly at home in the great outdoors had no business doing stenographic work for a living, so she applied for a position doing patrol work in the Superior National Forest. She impressed Supervisor Calvin A. Dahl and now she is a full-fledged patrolwoman, the first to be permanently stationed in the north woods.

Miss Carroll plans to continue in forestry work the year around. She said she wasn't afraid of bears, as the forest service promptly gave her the acid test and assigned her to a post deep into the forest. Here she was virtually lost for three weeks. Finally she received a letter asking for an interview. Apologizing for the delay in answering she explained that "a lookout's hours are rather long—I haven't had time to answer yours."

AGRONOMISTS TO MEET IN IDAHO

MOSCOW, Idaho, July 3.—Agronomists from colleges in the states west of the Rocky mountains and those connected with the United States department of agriculture will meet at the University of Idaho and Washington State college this summer for their annual convention.

July 21 to 23 have been selected as tentative dates for the convention by R. K. Bonnett, professor of agronomy at the University of Idaho, and E. G. Shaffer, head of the department of agronomy at Washington State college.

Tentative convention plans provide for the first half of the gathering being held at Pullman, Wash., and the closing half at Moscow. The visiting agronomists will be taken on tours over the Palouse country and down to the Lewiston, Idaho, orchards. Inspection trips will be made to the experiment station farms and places where pilot work is being done.

TRANSLATING MANY BOOKS

(By Associated Press)

DETROIT, Mich., July 3.—The New York committee with the cooperation of the American Library association committee on work with the foreign born has been interested in securing the translation of American books into the foreign languages most in use among the immigrants of today. Miss Esther Johnston of the New York Public Library said in an address at the convention of the American Library association here today.

"During 1921 with the help of many librarians a list was made up of about fifty titles considered desirable for translation," said Miss Johnston.

"During 1922 the committee has tried to encourage the translation of books into Yiddish, hoping to have better results by concentrating upon one language.

Do Not Reach for the Moon.

Psychological science apparently has exploded the good old notion that babies will reach for the moon. Dr. John R. Watson states in the Scientific Monthly that when actually put to the test they will watch attentively anything they see moving in nature what its distance, but that they will not reach for it until it is within 20 inches of them.

Keystone Jumper

Catherine Davis, exceptional high jumper of Saratoga, Pa., practicing for an athletic meet to be held July 11 at Brighton Beach, N. Y.

will pronounce sentence against an accused student, unless objection is made. The entire board will be held. The secretary will issue all notices, keep board records and receive reports. The library commissioner will be in charge of student library work, will appoint and supervise library deputies and receive reports of violations of library rules.

The convocation commissioner will suggest rules for student convocations and will have control over admission of students in these gatherings. The traffic commissioner will be in charge of students in the halls and will appoint deputies to assist him in directing movements of students between classes.

DEMPSEY WANTS LOTS OF FIGHTS

(By Associated Press)

OAKLAND, Cal., July 3.—Jack Dempsey, world's heavyweight champion, said here recently that he would like to engage in a battle every week.

"I'd like nothing better," Dempsey added, "than to take in a number of fighters, on right after another. If possible I'd like to meet most of the men I boxed with on my way to the top. It would be the best kind of training for me."

Dempsey, during his recent visit to California, worked out daily. "I'm still a little overweight," he apologized when here. "But I plan to come down shortly. Being heavy gives me something to train off."

Vandell's work does not suit Dempsey. "It was a tiresome grind and I'm glad to get away from it," he said. "Five shows a day, no fresh air, and the old grease paint and everything. It sure got my coat and I wouldn't go back to it for anything."

"A lot of people told me I was a good actor. I'm here to that I'm out and I know it. Fighting is my business and I'm willing to box 'em as fast as the promoters set them up."

POLICE SHATTER SUPERSTITION

(By Associated Press)

TOKIO, July 3.—The police of Japan with their modern ideas have shattered another very convenient "superstition" of those who wish to wreak vengeance on their enemies. It has been the custom when a person did not do as his neighbors wished him, for a crowd of youths with a milksh or shrine, to parade the streets and when the shrine struck a house it was taken as an indication that the occupant had displeased the gods.

Invariably it was found that the house struck was that of somebody who had displeased the crowd. Recently the residence of a man who had failed to contribute to a fund for a festival, was struck at the shrine festival, was struck at the shrine festival by the shrine.

Sanitary Inspection Report

Office of the
OREGON DAIRY AND FOOD
COMMISSIONER
Portland, Oregon
C. L. HAWLEY, Commissioner.

Name of place—Grocery
