THEATRES

STAMPEDE SHOWN IN 'MAN TO MAN'

A real thrill in the form of a stampede of five thousand head of cattle on a great ranch near Universal City, California, is promised in the Universal-Jewel attraction, 'Man to Man,' coming to the Star Theatre Friday.

'Man to Man' is based on Jackson Gregory's novel of that name and which has been read by thousands. It is a virile story of a man who went down till he couldn't find another halfway step, and then climbed back with a little girl's hand in his and a woman's smile waiting to greet him.

George C. Hill prepared the scenario for the screen version and Stuart Paton directed it. In the pictureization none of the thrill elements of the book was discarded.

Harry Carey is the star of the picture, and something worth seeing may be expected of him, remembering his 'outcast' roles in 'Overland Red' and 'Sundown Slim.'

Lillian Rich, who has the principal feminine role, used to be a musical comedy star and has appeared with Harry Lauder in long London engagements.

Alfred Allen, of 'Hell Morgan's Girl' fame, is said to have another Hell Morgan role as 'Hellfire' Packard in 'Man to Man.' Willis Roberts finished a sympathetic characterization in the picture the day before his death.

Others in the cast are Harold Goodwin, May Grace and Charles LeMoine.

WOMEN NOMINATE GIRL CANDIDATE FOR MAYOR

Constance Talmadge for Mayor! The popular motion picture star has announced her candidacy for the mayoralty and has plunged into the midst of a strenuous campaign which has created considerable talk.

Her opponent is Freddy Bleeker, and the town has been separated on sex lines. Man against woman—that is the political situation.

Determined to win, the beautiful woman candidate is working hourly; the women are conducting daily parades down the main streets of the city and are arousing such a pitch of enthusiasm for their cause that the camp of the opposition is becoming fearful. The men are putting their heads together in an attempt to stem the tide that is setting in favor of their enemy. But the task seems hopeless, for the platform of Constance has appeared to the public.

Here's Connie's platform: 'Chase the glooms that exist in this man-governed city and cast your votes for the joys that will make it a heaven.'

'Give the women a chance to show up the men. They have been governing this city for many years—and it isn't getting any better.'

'Abolish the wash tubs—or make the men do the work.'

'Give us maids—or we won't give you meals.'

It will be a great day for the women if Constance Talmadge is elected in 'Woman's Place,' a First National attraction which will be exhibited at the Arcade Theatre commencing Thursday. The picture is one of the most amusing things this talented star has done, and the story is the work of John Emerson and Anita Loos.

AT SHERRYS—LAST DAY

A bright, sparkling comedy with tense situations relieved by mirth-provoking humor, is the attraction which has its first showing at the Sherry Theatre yesterday. It is 'Seeing's Believing,' and in it Viola Dana, the popular screen actress, is starred. There is never a dull moment in this new photoplay, and it is one of the best that the captivating star has done.

Miss Dana appears in the picture as Diana Webster, a millionaire orphan. 'Don't believe all that you see,' is her slogan. She is innocently involved in a situation which, from outward appearances is damaging, and it is misinterpreted by a friend of her brother. She attempts to prove to him that one can be brought into a compromising predicament guiltlessly, and she makes elaborate plans for involving him in just such a situation. The agents she employs, however, prove to be professional blackmailers, and not only is she prevented from demonstrating to her brother's chum the fallacy of 'seeing's believing,' but she herself becomes involved in a predicament which for a time threatens to cause the arrest of her self and her friends.

Of course the crooks are apprehended, and Diana is released, but she has the satisfaction of knowing that her brother's friend will no longer make hasty and unwarranted conclusions based merely on what he sees.

'Seeing's Believing' is a Harry Beaumont production, adapted by Edith Kennedy from a story by Rex Taylor.

Also showing a comedy.

ENGINEER KIRBY MAKES BIG GAIN IN SHORT TIME

'Tanlac Is the Greatest Builder I have ever Seen' He States. Is Now 25 Pounds Heavier and is Feeling Better Than in Years.

'I have gained twenty-five pounds since taking Tanlac and for the first time over a year I can eat whatever I want without suffering afterwards,' declared C. R. Kirby, 294 Salton St., Portland, Oregon, a popular locomotive engineer.

'My stomach went back on me and I fell off in weight until I hardly had strength enough to work. Sourness and gas on my stomach made it impossible for me to get a long breath and I would often have bilious attacks lasting several days and I would get so nauseated that I became deathly sick. Constipation bothered me and at times I had terrible headaches.'

'Tanlac did more for me than I thought any medicine could possibly do. My stomach never bothers me, the other troubles have gone and I'm feeling and working better than in years. Tanlac is the greatest builder I've ever seen.'

Tanlac is sold by all good druggists.—Adv.

THE SAME EVERYWHERE.

The editor of Pains Akbar, a native newspaper of Lahore, India, says: 'I have used Chamberlain's Colic and Diarrhoea Remedy many times among my children and servants, for colic and diarrhoea and always found it effective.'—Adv.

WHO ARE YOU?

NINETY-NINE chances out of a hundred you are the man whose second finger on the right hand is expert in pressing electric buttons.

An electric button is a pretty small thing. By it we make elevators rise and fall for us, we give orders, we summon employees, we start big machinery whirling, we turn the light on and off, we could go on indefinitely. But remember, it is not the half-inch button that does all this.

These is the tremendous power behind the button; the huge dams and water turbines (in case of water power) or the enormous boilers, turbines, engines and generators (in steam plants); the wires of high tension transmission lines, and the innumerable smaller wires stretching like a web from your very bedside out over the whole country.

1,400,000 people have invested their earnings in the securities of the electric light and power industry. Behind these foresighted citizens there are the investments of insurance companies and the loans made by banks.

They make possible 'the button' that your finger presses morning, noon and night. Thirty-five million others enjoy the same instantaneous service.

There are still 14,000,000 homes in the United States remaining to be wired. 14,000,000 unwired homes mean that millions of people are without the benefit of electric light and power in their residences.

Gradually most of these residents will demand electric service, and the electrical industry with the support of the public, will find the means to extend this service to these prospective patrons, so they, too, will be able to press that half-inch button.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he can not be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic and Diarrhoea Remedy. It costs but a few cents and a bottle of it in the house often saves a doctor's bill of several dollars.—Adv.

Here She Is—Good As New

'With cylinders REGROUND, AND FITTED WITH McQuay-Norris Piston Rings, Pistons and Pins, your motor is practically as good as new,' says the cylinder regrinder.

Motorists are just beginning to realize how much added life, and mileage, can be given their cars by having cylinders reground, and new rings, pistons and pins installed. When these three vital units are renewed by a reground cylinder block, the result is practically a new motor.

In every section of the country are shops which specialize in regrinding—equipped with special tools and machinery for this work.

Your repairman can tell you whether new piston rings alone are all your motor needs to bring back its lost power, or whether the cylinders of your motor need regrinding and complete new ring, piston and pin equipment.

There is a McQuay-Norris Ring—made from Electric Iron—for every purpose and price; specially designed and manufactured for replacement purposes—each type designed for the particular motor it fits. All standard sizes and over-sizes.—An extract from McQuay-Norris, Saturday Evening Post.

You can get quick service from us.
