HORTICULTURAL SCHOOL IS HELD

The third horticultural school was held at Imbler, Thursday, June 29, in charge of C. L. Long, field horticulturist from the college. The first school in February was a pruning demonstration and was attended by practically all of the fruit growers in the district and the second school on fertilizers and pest control was well attended. The last week's school brought out 24 growers out of a total of approximately 30 in the district. Mr. Long showed the results of thinning in the other districts as a means of increasing the size and market value of apples. Several charts were given showing that larger and more valuable fruit can be secured where the fruit is heavily thinned. It was recommended that apples be thinned to an average distance of seven inches apart on the tree. The method of thinning was demonstrated in the orchard and several growers will thin this year, leaving some trees unthinned so that the results may be observed. The party visited the Wm. Miller ranch to see the fertilizer test plots being conducted by Mr. Swain, manager. The matter of a fruit growers' excursion was discussed and it is planned to hold such an excursion this fall when the fertilized plots, thinning plots and other things of interest to the growers will be studied.

A similar meeting was planned at Cove, but was not held as only a few growers came out and they stated that Cove would have a short apple crop this year except on a few varieties so that it would not be necessary to thin. Mr. Long devoted his time at Cove to visiting growers who had pest problems and advising them how to control them.

July 10th last day to pay water rent without a penalty. 7-6-3t

Railroad Labor Board must return to duty or register for their regular shifts not later than 3 o'clock p. m. Saturday, July 8, 1922, in order to regain their pension and seniority rights.

J. P. O'BRIEN, General Manager. A memorandum sent out by the company holds out optimistic hopes regarding the number of men who will return to work. It reads as follows:

"It is believed by the Oregon, Washington Railroad and Navigation company's management, that every right thinking man will return to the service inside of the next forty eight hours as at the end of that period he will have had time to think and to reason out with himself and family just what this strike means to them, this flouting of governmental authority, that this strike is not against the railroads but against the very foundations upon which our nation stands, namely, observance of law."

ROAD CONTRACT IS AUTHORIZED

The county court, which held its regular monthly session yesterday and today, authorized the letting of a Wallawa hill contract to the Sienar Construction Co., which made the most favorable bid. The bid for 2.25 miles of road, amounted to \$28,275, part of which will be paid by Union county and part by Wallawa county. The section in question lies in the two counties, about four miles in Union and the remainder in Wallawa.

Outside of the above matter nothing but the regular business, such as auditing bills, was handled yesterday.

F. S. Ballie Laid To Rest In Portland

PORTLAND, July 6.—Final services for Frank S. Ballie, of notable achievement, were held at the Portland Crematorium Wednesday, following funeral services from the family residence, No. 929 East Taylor street, at 2 o'clock. Ballie was father of Frank S. Ballie, manager of Grant Smith & Co. and brother-in-law of S. C. Pier, city commissioner. He died at 11:15 o'clock Monday morning. He was one of the locators of Oil City, Pa., and established the first refinery in that city. He later quit the oil business and moved to Flint, Mich., where he married a sister of Commissioner

Pier. The widow survives. Frank S. Ballie, the son, induced his parents to come to Oregon when he was manager of the Columbia mine in the Siskiyou district. The family moved to Portland from eastern Oregon in 1912.

Grange Income Tax Measure To Be Filed

PORTLAND, July 6.—Signatures of more than 14,000 accredited persons have been obtained on the petitions being circulated to get the Grange graduated income tax on the ballot this fall, according to announcement of C. E. Spence, master of the state grange, who said he would take the petitions to Salem today for filing.

The proposed measure differs from the other measure being agitated in that it provides for a graduated tax instead of a flat tax and would be a law, whereas the other is a constitutional amendment. Spence said the measure provides that the proceeds from the income tax are not to be considered added revenue, but a redistribution of the tax burden which would reduce taxes now borne exclusively by the property in the state.

HALL FILES PETITION FOR A RECOUNT

(Continued From Page One.)

backed Hall. In case this plan should fail, it is freely talked that the support of Hall will go to Walter M. Pierce the democratic nominee in an endeavor to beat Olcott for the governor ship.

Cutting some figure in state politics the Tax Reduction League is having its inning and it is whispered that a full state ticket will be put in the field, very much like the old populist party used to do. That Walter M. Pierce will get some of the support of the league no one doubts for he has always trained with them. But it seems that the heads of that body are not inclined to favor him and therefore are concocting a new deal entirely.

(By Associated Press) PORTLAND, July 6.—Livestock and eggs were steady today. Butter was firm. Extra cubes sold for 38 cents. Wheat was \$1.11 to \$1.16.
