WANTS PEOPLE TO BE RULERS

(By Associated Press)

SOFIA, Bulgaria, July 7.—"The people of Bulgaria do as the work and therefore they should have the dominant voice in the government," Premier Alexander Stambouliesky said today in the correspondence of The Associated Press who questioned him as to Bulgaria's future. The session followed the recent Peasants' congress, when Stambouliesky warned King Boris he could retain but not govern, and that if the intellectuals secured control of the government a republic would be declared.

"The present tendency of the world," continued the leader of the Agrarian party, "is toward democracy and rule by the people, as you have it in America. Old Bulgaria with its tyrants and oppressors is dead. The people now rule. It may be that Bulgaria one day will be a republic, and if so we shall make King Boris its first president. He is a very democratic, modest and earnest young man, and I think he would like the job. He is held in great affection and esteem by the people and would have their entire support."

Stambouliesky is a man of massive frame and tremendous energy. He has a large round face, ruddy complexion, an unburned mustache, a great shock of uncombed, curly black hair, and small dark eyes that expand only when his sensibilities are aroused. His critics say that in his formidable physique and thundering voice lies his strength rather than in his brain. However, he must have a great fund of native commonsense, practical vision and unusual constructive ability, for he has ruled his country for three years through the most precarious period in its history.

On the question of foreign relations, the peasant premier said Bulgaria was sincerely anxious to have a closer understanding with Jugoslavia and more intimate contact with her other neighbors, Rumania and Greece. Referring to the rapid recovery of his country from the war he declared Bulgaria had no unemployment problem. Indeed, he said, Bulgaria lacked sufficient labor and gave work to thousands of fugitive refugees. Asked whether there was any danger of these Russian immigrants seeding the seeds of bolshevism, Stambouliesky said the proletariat would find little fertile soil in Bulgaria to cultivate their extreme doctrines. "The Bolsheviki," he explained, "are strongly opposed by our practical and commonsense peasants who have little sympathy for any policy except that of labor and peace. It is true some Communists have gotten into the country, but they have been converted to the common principles of everyday life by contact with our sober, industrious and hard-working peasants."

The premier revived the report that King Boris might soon visit the United States, and said if this came about he would accompany him.

In the meantime, King Boris, 32 years old and with the appearance of an American college student, lives a life marked by almost monastic severity and simplicity. He has no relatives and few friends in Sofia to give him advice or make his social life happier. He spends much time in working out plans for the rehabilitation of his country, advising with ministers and counseling his people to a policy of peace and labor.

DIAMONDS HAVE BEEN EXPORTED

(By Associated Press)

REVAL, Esthonia, July 7.—Diamonds have been pouring out of Russia during the last two years in such quantities that individuals interested in jewel transactions assert that the load of the Soviets has been pretty well drained of the sparkling gems. Most of them have found their way to London, Paris and Berlin.

The underground diamond trade has been carried on in a most mysterious manner, ever since Russia's troubles began, the transactions baffling even the famous Cheka, or secret political police. Strenuous efforts on behalf of the Soviet authorities to break up the

UNEMPLOYMENT IS COSTLY

(By Associated Press)

STOCKHOLM, July 7.—Sweden's total appropriation for unemployment during 1922 will reach 45,000,000 kronor, or about $12,000,000. Government aid will be confined to those who, through no fault of their own, are without work. Persons unwilling to work will not be helped.

The government will continue its efforts to send superfluous industrial workers back to the soil, the head of each family being given a good sized plot of ground.

STUNT FLYER KILLED

JOPLIN, Mo., July 7.—A broken parachute fell Wednesday cold the story of the crash of the death of William Spain, a "stunt" flyer who fell 2000 feet when he leaped from a plane watched by 5000 spectators at Seneca, 20 miles from here Thursday. Nearly every bone in Spain's body was broken. M. V. Smoot of Joplin, was pilot of the plane from which Spain leaped to his death.

Pigeons Use Mats.

Pigeons seem to be a preservative of rubber and makers among the fancy are dismayed at the discovery that their favorite is subject to attack by the rubber solvents and even the best parts if they are allowed to remain in them. The birds should be wiped quickly and must be provided with "clean-cut" floors and racks that do not retain the oil out of the rubber.

CANADA IS HARVESTING NOW

EDMONTON, July 7.—The work of the combine harvester calling wheat fields of Lacombe county to begin and from now until the close of the harvest season a stream of golden wheat will be traveling through the regular channels into the flour mills to feed the world. The crop will be about normal, grain men and farmers predict, but not up to last year's bumper crop.

Charles Lalla, of near Nolin, is reported to be the first man to start harvesting operations this year. He has a crop of between 2000 and 3000 acres to harvest this year, and all of the work will be done with one machine. That is one reason why he got a early start. He operates on land owned by the Hudson's Bay Nolin.

The hot winds of the past few days, unfortunately, those that fanned over the front Monday, have done quite a bit of damage to the crop, farmers say. The extent of the loss is hard to estimate, they declare. In the west end of the county in the lighter soils where Turkey Red wheat is the chief crop, the wheat was nearly ready to cut before the extremely hot winds came. The chief damage will be confined to the Hybrid and Red Chaff and other variety sections which are a few days later.

RHEUMATISM

CASSITY EAST

In the future look if you will use Frank's Prescription for Rheumatism and then, if it is ridiculous, absurd and preposterous, in fact, it is a pity and a shame to talk about Rheumatism and Gout, much less to suffer with it, either inflammatory, muscular, sciatic or any other form of Rheumatism.

Frank's Prescription for Rheumatism and Gout sells for $4.50. This Prescription DOES NOT ruin the stomach, it DOES NOT destroy the heart. But all the pain and mood you wish while using Frank's Prescription. IT DOES NOT contain any Mercury, Salicylate of Soda, Oil of Wintergreen, or narcotics of any kind, but it absolutely and positively overcomes any kind of Rheumatism or Gout on earth. WHAT MORE DO YOU WANT? There is nothing just as good, and it is impossible to get something better. It is also an excellent Liver Medicine. For sale at the L. & L. Drug Co., La Grande, Oregon.—Adv.—July 1-6-11-18

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That means the case he can not be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic and Diarrhoea Remedy. It costs but a few cents and a bottle of it in the house often saves a doctor's bill of several dollars.—Adv.

SHOPMEN WANTED

FOR RAILROAD SERVICE AND AT WAGES AS FOLLOWS:

Machinists	70 cents per hour
Boilermakers	71 cents per hour
Blacksmiths	70 cents per hour
Electricians	70 cents per hour
Sheet metal and other workers in this line	70 cents per hour
Freight car repairers	63 cents per hour
Car inspectors	63 cents per hour
Painters, freight cars	63 cents per hour
Helpers, all crafts	47 cents per hour

These men are wanted to take the place of men who are striking against the decision of the United States Railroad Labor Board, and their status, and the **FULL PROTECTION GUARANTEED**, are explained by Mr. Ben W. Hooper, Chairman, in his statement of July 1:

"In this case the conflict is not between the employer and the employee. The people of this country, through an act of congress, signed by President Wilson, established a tribunal to decide such disputes over wages and working conditions, which are submitted to it in a proper manner. It is the decision of this tribunal against which the shop crafts are striking."

"Regardless of any question of the right of the men to strike, the men who take the strikers' places are merely accepting the wages and working conditions prescribed by a government tribunal and are performing a public service. They are not accepting the wages and working conditions which an employer is trying to impose. FOR THIS REASON PUBLIC SENTIMENT AND FULL GOVERNMENT POWER WILL PROTECT THE MEN WHO REMAIN IN THEIR POSITIONS AND THE NEW MEN WHO MAY COME IN."
