Postal officials have no complete statistics showing to what extent the two-cent rate has stimulated foreign correspondence. Some slight indication is given in figures relating to letters mailed to Bermuda, to which British colony the two-cent rate was extended March 1. During that month 2,416 pounds of American letters were sent forward to Bermuda. Assuming, for purposes of comparison, they each weigh one ounce that quantity would represent 38,656 letters. At the two-cent rate they cost \$777.12 in postage, while at the five-cent rate they would have cost \$1,932.80. There was a saving of \$1,155.68 in postage, therefore. In March last year 1,892 pounds of American letters went to Bermuda. They would represent 29,272, on the same basis, of 8,382 fewer letters than sent in March this year, when the two-cent rate was in effect.

**Protest To Be Heard**—The matter of the protested La Grande letter game of baseball in the intercontinental League schedule, played on June 25 at La Grande, will be definitely decided this evening, when the baseball commission, composed of Judge T. H. Crawford, of La Grande, Guy Patten, of Elkin and Tuck Conroy, newly appointed member of Cape, will meet in an executive session which will not be open to the public.

**Goes to Baker**—Mrs. Chet Thompson, of Baker, who has been visiting in La Grande at the home of her sister, Mrs. H. W. Thompson, terminated her visit today when she left on No. 24, bound for her home. Their brother, Lewis Samuelsen, from Oakley, Ida., is visiting at Mrs. Thompson's home also.

**Returns Home**—Mrs. and Mrs. W. N. Fisher, who have been visiting in La Grande for the past six weeks, returned to their home in Council Bluffs, Iowa, this noon on No. 24. They will stop at Payette, Idaho, Greeley and Denver, Colorado, before returning to Council Bluffs. "We are very well pleased with the Grande home valley and only wish that we could stay longer," was their remark upon leaving.

**Pity the Poor Auto**—Jay Jasper bought a runabout, repleated, fresh and new; went in the hole five hundred plunks—so has to fret and stew. Not having wherewithal to build a cover for his car, it's standing out in rain and snow and wheezing with catarrh. Yet Jay, he loves his gas machine, and boasts of it with joy; he'd no more think of selling it than parting with his boy. His nover, which he's had four years, is sheltered with a shed, while auto stands in all outdoors, with naught about its head.—Exchange.
