FREE LOVE IS BEING FOUGHT

(By Associated Press)

LONDON, July 10.—The movement in England to protect the family from the menace of the "affinity" and the "canker of free love" will find expression next October in an international conference which will seek to re-establish the family and the home as the sole basis of national welfare. WORLD'S BEST RIDER IS FOUND

(By Associated Press)

BELGRADE, Jugo Slavia, July 10.—The world's best horseback rider is said in Belgrade to be Lt. Pietro Hudenko, once of the Imperial Russian hussars and now a waiter at the Anglo-American Club.

He claims never to have failed to break and tame the wildest horse. He says he does not use strength and agility, but mesmerism. He takes a wild horse, slips a halter on its head, passes a rope twice through its mouth, jumps on its back without a saddle, gets a knee grip, and lets the horse rear, buck, or run at will. After the horse is tired he pets it, whispers strange words into its ears, words known to a few Cossacks of the Caspian steppes, and then, never again will that horse bite or kick or disobey man.

Pietro soon is to become trainer and horse breaker for King Alexander.

They Couldn't Know

BACK in 1818 the greatest newspaper of the day declared that the world had reached the limit of human expansion. It even went further, saying that there were not enough supplies in the world to support further growth of population.

The mind of 1818 couldn't conceive of the miracles that human ingenuity would perform during the twentieth century. It couldn't imagine the wonders that would be wrought by new agricultural methods and modern manufacturing genius. It was ignorant of transportation as we know it, or the progressive sales methods of today. It could not see the vital part that would be played by advertising.

Even today there are some who fail to realize what an important factor advertising has become. Advertising is as much a part of today's life as electricity, antiseptic surgery or automobiles. It keeps us up-to-date on the many things we need in order to live profitable, happy and useful lives. It presents for our approval articles of all kinds and for all purposes. The requirements of each member of the family are met by advertised offers of good merchandise of proved value.

The advertisements save time, money and effort for those who read them and follow their guidance. They are practical guarantees of satisfaction.

WHO ARE YOU?

NINETY-NINE chances out of a hundred you are the man whose second finger on the right hand is expert in pressing electric buttons.

An electric button is a pretty small thing. By it we make elevators rise and fall for us, we give orders, we summon employes, we start big machinery whirring, we turn the light on and off, we could go on indefinitely. But remember, it is not the half-inch button that does all this.

There is the tremendous power behind the button; the huge dams and water turbines (in case of water power) or the normous boilers, turbines, engines and generators (in steam plants); the wires of high tension transmission lines, and the innumerable smaller wires stretching like a web from your very bedside out over the whole country.

1,400,000 people have invested their earnings in the securities of the electric light and power industry. Beides these foresighted citizens there are the investments of insurance companies and the loans made by banks.

They make possible "the button" that your finger presses morning, noon and night. Thirty-five million others enjoy the same instantaneous service.

There are still 14,000,000 homes in the United States remaining to be wired. 14,000,000 unwired homes mean that millions of people are without the benefit of electric light and power in their residences.

Gradually most of these residents will demand electric service, and the electrical industry with the support of the public, will find the means to extend this service to these prospective patrons, so they, too, will be able to press that half-inch button.
