ARABIC PRESS DISSATISFIED

(By Associated Press)
JERUSALEM, July 17.—The endeavor of Great Britain to secure confirmation of the League of Nations mandate by the League of Nations is bringing out pointed comment in the Arabic press.

Emboldened by the stand taken by the Vatican in its opposition to the mandate on the ground that it does not provide sufficient guarantees to the Christian minorities, the native papers are devoting many columns of strongly worded articles to the subject.

The Beit Ul Maqdes a Jerusalem newspaper, threatens the government and the Zionist organization with an Arab revolt in Palestine if the British mandate is approved by the League of Nations in its present form.

El Sabah, another daily, declares: "England asked the League of Nations to confirm the mandate at once thereby believing that the national spirit in us would be crushed, and telling us nothing could be altered since it was a 'fait accompli'."

Let England beware, the revolution now going on in Syria will not take long to spread and penetrate also in Palestine."

Nationalist fires already are raging in the breast of every Palestine, according to well informed observers here, who are of the opinion also that it would take only a little spark to start a general conflagration.

existing of men to replace the strikers, at least to a large extent.

On the other questions at issue—outside contracting for shop work modification of certain rules and working agreement, the establishment of conciliation boards and wages—it was declared that most of the roads already had agreed to abolish outside contracting as ordered by the labor board and also had agreed to the early establishment of the conciliation boards under the federal transportation act. Thus but two questions, it was asserted, both of which might again be brought before the labor board for disposition on the demand of the men for a rehearing.

But while Sabbath calm enveloped the headquarters of the contending forces in Chicago, reports of the cancellation of trains because of the coal shortage or the growing lack of equipment, and of strike outbreaks continued.

Union leaders also predicted some concessions to their ranks Monday from the stationary firemen and oilers and the clerks.

In Texas, Gov. Pat Neff was still refusing to order state troops to Denison where outbreaks were threatened at Cleveland, Ohio, the second outbreak of the strike Saturday night resulted in the killing of a striking shop worker near the spot where a first striker was slain a week ago.

(By Associated Press.)
DETROIT, July 17.—Railroads must cease their reported efforts to compel maintenance of way workers to perform duties of striking shopmen or the maintenance of way men will be called out on strike, E. F. Grable, international president of the maintenance of way brotherhood, declared here Sunday night.
