You are Captain of an Army

—an army of dollars that you recruit during your working hours.

Your generalship is revealed in the purchases you make. These are the "hills" your force "capture" at your command.

Pershing will tell you that it is poor strategy when you advance to a position that you must continually recapture.

"Cheap" goods are such "hills"—always in doubt. "Cheap" merchandise that looks like a saving now, is really a mortgage on your income. All of a sudden you have to do it over again.

Buy clothes that are backed by the merchant, who sells them. You run no risk on our selling plan because we guarantee satisfaction on every article that leaves our store.

UNIQUE TRAVEL FEAT REPORTED

City Associated Press
WASHINGTON, July 22.—Fifty hundred miles of hard overland travel for \$1.25 is a record that speaks of the fisher, but is the actual feat accomplished by five intrepid college boys seeking adventures in foreign lands.

They are W. J. Ash, Russell Ragan, F. J. Seivice and R. P. Chaska, of Indianapolis, and G. W. Starnod, of Harvey, Illinois, all students of Walsh College, Crawfordsville, Indiana, who are intent on showing how far resourceful young Americans can travel without money.

Their arrival in Washington recently after about eight hundred miles in what they called "an antiquated model of popular automobile" was at the expense of just \$1.25 apiece. Of that, they bought

12 cents was expended in a tip to a garage hand who allowed them to sleep overnight in the back seats of cars stored there. They were on their way to Newport News, there to ship an "steamboat" south to the creek, on a cattle boat bound for Liverpool.

The trip to Washington took five days, during which they slept only one night in beds, spending what is believed to be a brand new wrinkle in hoboism.

Following out their plan of economy, two of them went to a hotel, engaged a room with two beds. Later the other three, "dropped in" usually for a visit, stayed the rest of the night, and to all five enjoyed the room and hotel bills for three had been saved.

They are going to stay in Europe as long as their slim funds hold out, they say, and also going to tour as much of the world as they can. If they spring more plans like the hotel one, they are sure to be successful.

But ordinarily people conduct accounts in what they called "an antiquated model of popular automobile" was at the expense of just \$1.25 apiece. Of that, they bought

More than ordinary mortals could in much longer. At any rate, there are brains enough in the party to come out right side up, for they include the editor of the college paper, the captain of the baseball team, and the captain of the football team, which journeyed east this year to give the army team a hard struggle.

The Question of "Sales" and Consistency

Our mission is to serve. And in this service we strive to be consistent.

You recognize the fact that we cannot be consistent in our dealings with you unless we treat everybody alike every day in the year.

That's one reason we never have a "sale."

Of course you are entitled to lowest prices always and particularly when you need the goods.

Regardless of the day or month, our prices are at the bottom notch of economy.

You always pay less and get more here.
