LARGEST CHERRY TREE.
(By Associated Press.)
TACOMA, Wash., July 25.—A fair crop of cherries has just been harvested from what is said to be the largest cherry tree in the land on the Webb homestead on Hood Canal, near Hoodport. The tree is more than six feet in diameter and 20 feet in circumference. It has a spread of 75 feet and its branches cover approximately 5,000 square feet. The tree is visited by many tourists to the Hood Canal region.

UNKNOWN DRIVER RUNS OVER DOG

An Airedale dog, belonging to Ralph Winters, was run over by some unknown man driving a car this morning at about 8:30 o'clock in front of the New Fidelity Building. The dog was crossing the street and the wheels of the car went over his back, not breaking any bones apparently, but paralyzing the animal. The man did not stop but drove on down the street. The dog left home early this morning and when Mr. Winters went to work he saw the dog just after it had been run over. Mrs. Claude Cooper took the dog to the Winters home, where it is now.

ROAD TO DAM BEING BUILT

SOUTH POWDER, July 25.—Work has been in progress the past couple of weeks building a road to the proposed damsite, in Thief Valley. The road goes out from North Powder, which is certainly gratifying. There will be about two miles of road to grade from the main road to the site, and there are twelve men and two teams doing the work. Most of the men working on the road are North Powder people.

According to C. C. Fisher, engineer in charge of the project, drilling at the damsite will be started shortly after the road is completed. The purpose of the drilling is to determine the character of the bedrock to find whether or not it will be fit for the purpose. The lower damsite is favored by the engineers for the reason that a greater storage capacity will be had, and the canal will be greatly shortened.

OPEN CUT OUTS DISAPPEARING

So far as the police have been able to learn practically every automobile operating in the city of La Grande is now equipped with a proper muffler. When several weeks ago the police department started rigid enforcement of the section of the motor vehicle laws making closed cut-outs compulsory, every owner of a car that was not properly equipped was notified to immediately put his car in proper condition. As a result of the notification practically every car owner has complied without having to be brought into court for a violation. The police department is also concentrating much of its time on seeing that the headlights on all cars are properly equipped with dimmers or with flashlights properly adjusted where cars have no dimmers.

MUCH INTEREST IN CONVENTION

The coming D. O. K. K. convention in La Grande is bringing forth a great deal of publicity throughout Canada and the northwest. The Cranbrook Courier, published at Cranbrook, British Columbia, has arrived in La Grande with a fine bit of publicity about the convention, which states that many Dokes Kootenays will be in attendance. Throughout Idaho, Montana, Washington and Oregon stories are being published about the convention in La Grande and it is very evident that La Grande has a job on its hands to live up to what is being expected of it. Other Canadian papers than that mentioned above tell of how La Grande is providing two days of entertainment that will surely please Canadians. All the ladies and societies of Eastern Oregon are responding with a column each week about the details and boasting about the show.

BOY RUN OVER BY AUTOMOBILE

And Helm, Jr., seven years of age, was run over by a car belonging to E. L. Lave, of this city last evening in front of the Blue Mountain Creamery as he was attempting to cross the road returning to his home. The little boy was rushed to the hospital where it was found that his legs were broken, the boy suffering bad bruises only. The little boy had been sent over to the veterinary by some purchases and was going back home when the accident occurred. According to reports, the car was being driven at a normal speed and the driver attempted to stop the car.

BISHOP SEES A BIG CHANGE

CHICAGO, Ill., July 25.—John I. O'Leary was assigned to the deepest seat at the recent Des Plaines came meeting in a session of Bishop W. O. Shepard, resident of Chicago, for many years a member of the Oaklawn and other Methodist Episcopal churches, and district superintendent of the Chicago district. "The tax dodger will have to be branded as an ordinary thief," added

JESS WILLARD IN LA GRANDE

Jess Willard, the former heavyweight champion of the world, passed through La Grande yesterday afternoon on No. 17 bound for Portland. Jess got off the train for a five-minute glance at as much of La Grande as he could see from the platform and as soon as it was discovered who he was, several La Grandians talked to him on several subjects, although he remained rather non-committal. To the casual onlooker, it appears that Jess has seen his fighting days pass for good. He has far too much stomach to get back into the ring without much hard training. He seems to have put on about thirty pounds about the stomach.

HORSE IS AN ANCIENT ANIMAL

DETROIT, July 25.—Resolved: That the horse is a pre-historic animal, that his functions have been taken over by the motor truck and that civilization has no further need for him in the cities. (By Associated Press.)

This will might be the subject of a debate on which the horse is expected to stand or fall and that will be one of the highlights of the annual convention of the National Team and Motor Truck Owners' association to be held at Cedar Point, Ohio, August 7, 8 and 9. F. L. Henk, of Detroit, secretary of the national organization, is authority for the statement that the question of bringing the horse back into popularity for the short haul of freight and express in the cities is likely to be decided at the convention. Lawyers of the horse will be lined up with proponents of "horseless" driven vehicles in the debate.

Wayne Dinmore of Chicago, secretary of the Horse Association of America and an ardent champion of the animal, is to take the opposite side of the debate, while F. W. Fenn, of New York, secretary of the motor truck division of the National Association of Commercial Clubs has been invited to cite figures intended to show that the horse is losing popularity in the cities. According to Mr. Henk some experts on the future course of truck operators in the cities may be expected following the recent tariff.

Among other subjects to be discussed at the convention will be the proposal, amounting to it is said, from Baltimore, that railroad driver freight directly to department stores. Mr. Henk said his organization would oppose the plan.

SHOOTING NOT SO GOOD

BANKER, July 25.—The sage hen season opened July 15th and the first ten days a number of hunters reported limit kills. The birds were numerous in many sections at the opening of the season. Being shot at has made them wild and sage hen shooting is not as good as it was at the opening of the season. Sportsmen agree that the automobile which makes it possible to reach distant hunting grounds with little loss of time has increased the number of kills until the birds have small chance of surviving an open season.

NEW SOCIETY FORMED

By Associated Press.
TOKIO, July 25.—The recent business mission to America and Europe led by Dr. Dan, has been transformed into a permanent association under the name of "1922 Society." The new organization has in view the exchange of opinions among the members of the mission by meeting from time to time for the discussion at the country's business policy.

JESS WILLARD IN LA GRANDE

Jess Willard, the former heavyweight champion of the world, passed through La Grande yesterday afternoon on No. 17 bound for Portland. Jess got off the train for a five-minute glance at as much of La Grande as he could see from the platform and as soon as it was discovered who he was, several La Grandians talked to him on several subjects, although he remained rather non-committal. To the casual onlooker, it appears that Jess has seen his fighting days pass for good. He has far too much stomach to get back into the ring without much hard training. He seems to have put on about thirty pounds about the stomach.

EARLY LAYERS

PENDLETON, July 25.—From five to six eggs are being gathered every day by the White Lohorn ranch west of Pendleton, according to Robert Stinson, one of the owners of the poultry ranch. These eggs are from the pullets which were hatched this spring. The feed ration of the pullets has been cut in an effort to discourage the laying habit in the pullets until later. Early laying is likely to cause an early winter moult when eggs are highest in price, according to Stinson, and poultrymen should avoid getting early eggs.

HOOVER DRAFTS PLAN TO HELP CONSERVE COAL

(Continued from Page One.)
The execution of such of these measures as may be necessary from time to time.

An administrative committee, comprising representatives of the presidential committee together with representative operators and representatives of the larger consuming groups. The presidential committee will establish a representative in each coal producing district. The presidential committee will appoint a committee of operators in each district, to be nominated or independent operators. In case of failure of the operators to take such action, the presidential committee may appoint such operators as they see fit on such committees. The members of these district committees may be changed as determined upon by the presidential committee.

Co-operate With I. C. C. The presidential committee will co-operate with the interstate commerce commission in carrying out "preferential orders" issued by the commission. The governmental representatives in the districts, with the co-operation of the district committees, shall advise the agencies of the interstate commerce commission as to local conditions to effect the purposes of the plan.

The operators will proceed with their usual business until they are notified by preference orders. It is expected that the district committees under the authority of the presidential committee will recommend the allotment of cars on the basis of those who conform to the fair prices to be agreed upon by the presidential committee. When the operators demand them, suitable guarantees shall be given for payment of persons buying under priority orders.

The roads will be requested to appoint a representative to deal with purchases of railway fuel. Apply June 1 Prices. The basis of prices agreed upon between the operators and the secretary of commerce on June 1 are to be maintained, except where varied by the presidential committee and this same basis of price determination shall be applied to all districts which are so far not co-operating.

The whole of the above is tentative, pending further consideration by the interstate commerce commission, the department of justice, the department of the interior and the department of commerce. An evening of genuine and refreshing entertainment at Chautauqua to night when the "Vivian Players" present "Camp Ricks." 7:25-11
