NEW BILLS TO BE BUILT

BAKER, July 27. — Approximately \$10,000 will be expended by the Baker White Pine Lumber company in doubling the capacity of their mills, construction work on the newest addition now being well under way. Terwilliger & Murphy, Seattle contractors are in charge of the work, and it is expected that the mills will be ready for use by September 1st. The new building will cover 100,000 feet and when completed will give the company a total dry kiln capacity of 80,000 feet per day.

STRIKERS REPLY DAMAGES ASKED TO INJUNCTION BY L. STAPAC

Heads of La Grande Railroad Orders Will Report to Federal Court as Ordered by Judge Wolverton.

(Strikers' Bulletin.)
The temporary injunction issued by Federal Judge Wolverton which cites five local men to appear in Federal court at Portland next Monday will be answered by the men. They are D. L. McKay of the machinists, G. H. Ferguson of the blacksmiths, Otto G. Goff of the sheet metal workers, L. P. Gant of the toolmakers, and G. S. McMillan of the carpenters. One of the men will leave tomorrow night for Portland and attorneys will handle the case for all the men at the different division points.

Things at Huntington were reported quiet as only two strike breakers were at work yesterday morning. The officials here have donned overalls after a few days' rest and are back attending to trains.

General Chairman Barnhart, of the Brotherhood of Locomotive Engineers, was here from Spokane yesterday on business.

Fern Hobbs, general chairman for the R. R. with headquarters in Portland is here for a few days on official business. Mr. Hobbs formerly lived in La Grande. After he went to Portland everything was running good and he had cleaned a fine piece of land, Washington, showing his inward tendency to get back to the soil. Late trains continue, according to the strike committee, which indicates that the boys who are out protesting recent rulings are needed in the railroad work. While the strike committee admits that there are quite a few men working, they claim it takes three men now to do the work one regular shopman used to do. They cite Kamela as one place the railroad company is full handed. Before the strike, four engineers had three wipers at the crew there. Last night a check was made on conditions and Kamela has three engines with nine wipers and three guards and two cooks with meals, lodging, recreation, gloves and slippers furnished free.

BEAVERS RUIN GRAIN FIELD

THESTON, Ore., July 27.—Tom W. Carney, farmer, reported that he had found three big beavers in his wheat field and that they had been damaging the grain for a number of days. He first thought that it was his boys that caused the damage, but he suddenly came upon the beavers yesterday and they made their tracks for the nearby water.

Mr. Carney will apply to the state game department to have the animals trapped, as he believes that if left alone they will cause a great deal of damage.

OPPOSE PROPOSED LAW
SALLEM, Ore., July 27.—A terrible blow to personal liberty, serious curtailment of religious liberty and unconstitutional are professions to be seen by the Evangelical Lutheran church of Oregon in the compulsory public school bill which is to be voted on by the people in November, according to a negative argument on the bill filed today with the secretary of state.

THESTON, Wyo., July 27.—A new world's record for cupping and hog-tying was set today at the second day's training day camp at the camp of the Evangelical Lutheran church of Oregon, an Oklahoma woman, Julia, accomplished the feat in 20 1/2 seconds, one-fourth of a second faster than the former record set here by Pr. Lewis, also of Oklahoma, in 1912.

Private Litigation Started Following Accident Here Last Saturday.

Private litigation between the two participants in the automobile collision at Fourth and O streets last week, between H. Knudson, driving a Dodge car, and Louis Stapac, driving a Hudson car, has commenced.

The city authorities charged both drivers with speeding. Wednesday morning H. Knudson was found not guilty in the municipal court, Stapac having been previously freed on the speeding charge, when the city attorney dropped the charge against him after part of the witnesses had been heard.

Stapac yesterday filed in the Circuit Court an action against Knudson, reciting alleged damages to the Hudson car, and claiming that, in settlement of the damages, Knudson had promised and agreed to pay him \$200, which remained unpaid.

In this action Stapac attached the Dodge roadster belonging to Knudson. Last evening Attorney R. J. Kitchen filed with the sheriff, G. Knudson, a written claim of exemption, stating that the vehicle was necessary to him in carrying out his business and trade and occupation, that it was a bridge between him and the highway of the state of Oregon. This morning the car had not been turned back.

PLAYERS TAKE OVER TENT SHOW

Two dramatic companies, the Tri-City Revue and the Broadway Players, are now sole owners of The Gardens, according to an announcement made by Phil Berg, of the Tri-City Revue that is playing at The Gardens this week, last evening at the first showing of Hiram, the Country Boy. A new manager, Mr. Harsted, has been appointed to this charge of the open air theater here.

When the theater was first built a number of prominent local people bought stock in the company, but in the past few weeks, they have disposed of their stock until the two companies, formerly with Kelly's Comedians, are now in full possession of The Gardens.

PORTLAND KNOWS OF NO REMOVAL

In an article in the Portland Telegram yesterday pertaining to the removal of shops from La Grande, a paragraph appeared relative to the talk about removal of shops from La Grande to Albion.

Portland officials of the O-W announced that they had had no word of the removal of shops of the La Grande shops, with a shift of the repair work to Albion. At its present strength, they said, the Albion yard could not well care for added repairing. The six tracks are now well filled, due to preparation for movement of wheat.

"JUST AROUND THE CORNER" IS GOOD

Those who enjoyed the great film, "Humoresque," when it appeared here some time ago will be pleased to know that "Just Around the Corner," written by the same author, Francis Hurst, and said to be the grand of "Humoresque," is now playing at the Arcade. It will be shown three nights beginning this evening and is one of the very excellent late pictures offered to the country by producers.

COMMISSION NEUTRAL ON RAIL STRIKE

(Continued from Page One.)

er the incident and from the reports made at the meeting last night it appeared that the uncalculated pranks of some boys led her to the belief that strikers were attempting to attack her home.

The incident regarding an alleged attack on a lone guard by from 15 to 20 strikers was explained by Mr. Flexer. He said that the patrolman who investigated reported that a drunken man had taken a badge away from a guard.

Information Refused.
It was also reported by the police department that yesterday morning some trouble was supposed to have taken place at the depot between a railroad guard and a woman. The officer sent to investigate the matter was told, Mr. Flexer declared, that the railroad would take the matter up with the federal authorities and refused to give any information as to just what happened.

The members of the city commission all expressed themselves as not wanting to favor either side in this strike but giving both sides the protection needed. Commissioner Stadman called attention to the insignificance of the incidents the railroad authorities have used in making their charges of inefficiency on the part of the police force, saying that all such incidents happen when no strike is on.

"There has been nothing but boy's play yet," he said. "The city cannot afford to hire officers to be stationed everywhere so they can overhear everything that is said when men meet and discuss the strike," he added in referring to alleged threats to have been made in conversation at one time.

Ice Analysis Presented.
An analysis of samples of ice from the ice dealers and manufacturers in La Grande was presented to the commission by City Manager Kratz. Accompanying the analysis was a copy of a letter signed by the manager and the city health officer notifying all dealers and manufacturers that their ice should not be used for preparing uncooked food or drinking purposes.

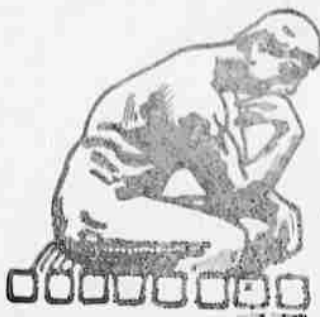

The analysis showed the following results, the dates being those on which the analysis was received: May 23, M. A. Stillwell Meat company, 1150 bacteria per 100 cubic centimeters, source, well water; Henry Young & Sons, 175 bacteria per 100 c. c., source, river.

June 4, Henry Young & Sons, 4,260 bacteria per 100 c. c., source, river.

All Have Bacteria.
July 21, Grande Grande Meat company, 1270 bacteria per 100 c. c., source, well; M. A. Stillwell Meat company, 25 bacteria per 100 c. c., source, well; Blue Mountain Creamery, 150 bacteria and 100 color bacilli per 100 c. c., source, well. Young, 1375 bacteria per 100 c. c., source, river.

According to the state health laws ice and water containing 100 bacteria or 2 color bacilli per 100 c. c. is declared unfit for use unless first boiled.
