

MAN'S HOME IS HIS CASTLE

Federal Judge Decries Promiscuous Search and Seizure in the Homes.

PORTLAND, Aug. 7.—A man's home is still his castle, search warrants are not mere formalities and the protection of the rights of the people is more important than the conviction of a few individuals for breaking the prohibition law, contended Judge Robert S. Bean in the federal court recently when he set aside the conviction of C. G. Alderice, alleged bootlegger, and ordered a new trial.

Irregularities in connection with the issuance of the search warrant, which was used by prohibition agents in a raid on Alderice's home, was the cause of the court's decision.

That the decision will be felt throughout the entire country in connection with the enforcement of the prohibition law is the declaration of lawyers familiar with the case.

Coincident with Judge Bean's attack on illegal search warrants was the appearance before Assistant United States Attorney Baldwin of E. Schubert, pioneer Oak Grove farmer whose home has been raided three times within the last year. Malicious persecution by a neighbor, who swore in the three search warrants used in the raids, was charged by Schubert. Federal officials, after looking into the case, advised civil action in state courts as a remedy.

Judge Bean's action, while in keeping with the policy of various federal courts toward making sacred the inviolability of the home, goes a bit farther in restricting the issuance of search warrants. By his ruling, the issuance of such a warrant is not a mere perfunctory or formal act of a judge of United States commissioner, but is a matter of importance in which the jurist must satisfy himself that there are just grounds for the issuance.

RELICS GIVEN TO COLLEGE

(By Associated Press.)

PULLMAN, Wn., Aug. 7.—Three interesting relics of pioneer days in the northwest have been assigned for safe-keeping to the museum of Washington State College here by the officers of the Timothy Memorial association, which has just been organized. The relics include the old bell with which preacher Timothy, an Indian convert, used to call his followers together for morning and evening prayer and special Sunday services; a cannon digger, an instrument pointed at both ends, which was used by Tim, Timothy's wife, in digging roots and herbs; and a branding iron which, it is claimed, was the property of Timothy's daughter.

The relics will be placed in the museum subject to the call of the memorial association. The authenticity of the ownership of all the articles is vouched for by old Indians who were on intimate terms with the owners. The relics were found in the graves of Timothy and Tim, and, according to the old Indians, were buried with the latter.

According to the old Indians, Timothy was 108 years old at the time of his death in 1889 and was a boy in his teens when Lewis and Clark crossed the river in 1805.

RUSSIAN WILL ENTER WHITMAN

WALLA WALLA, Aug. 7.—Vladimir Rodjansky, war veteran and refugee, has arrived here to enter Whitman college this fall. He is only 22 years of age but he has had more experiences than commonly fall to the lot of a man of 32.

A native of Russia, Rodjansky was educated there before the bolshevik uprising. He enlisted in General Kolchak's army and rode three thousand miles in winter. The army went into China, where it was disbanded, leaving Rodjansky stranded and forced to accept the lowest kind of work in competition with Chinese coolies. In Manchuria Rodjansky encountered

This Smile Was Made in America

ed an American Y. M. C. A. secretary and learned of the educational possibilities in America. Through the Russian Relief association at Seattle, he found a way of getting here, in nine months he has learned to speak precise and perfect English. While waiting for Whitman to open he has gone to work in the harvest fields. When he completes his education, he says, he intends to go back to Russia to help his people.

CANAL ZONERS OFF TO MEET

(By Associated Press.)

CHRISTORAL, Canal Zone, July 19.—(By Mail)—A group of girl athletes from the Canal Zone is now on its way to Paris for the International Women's Games which open in that city August 20. The young women are giving exhibition hurdles and javelin and the standing broad jump. Miss Greene has a record of 12.2 seconds for the 100-yard dash; 45 seconds for the 300-meter run and 4 ft. 7 in. in the running high jump. Mrs. Bath's best performance for the shot was 8 pounds with right and left hand, in 55 feet, 3 inches. She is incidentally the bowling champion and champion sharpshooter of the Isthmus.

The Canal Zone team consists of Lona Rathbone, Esther Greene and Mrs. C. H. Bath. Mrs. J. L. Greene accompanies the team as chaperone, and Homer Baker, physical director in the Canal Zone, will manage and coach the team.

Miss Rathbone has a record of 15.4 seconds for the 100-yard hurdles, and also does exceptionally well with the javelin and the standing broad jump. Mrs. Bath's best performance for the shot was 8 pounds with right and left hand, in 55 feet, 3 inches. She is incidentally the bowling champion and champion sharpshooter of the Isthmus.

Intermountain Champs to Battle Boise Mountaineers

BAKER, Aug. 7.—The arrangements for the playing of a series of four games with the Western Idaho champions have been completed and the first two games will be played at Boise on August 19-20. The final two will be at Baker on August 26-27. The Boise Mountaineers are reported to be a very strong aggregation and a hard fought game is looked forward to by the Colts. Both sides will use the same team that went through the season's play.

MAKE NEW GOLD FIND AT BAKER

BAKER, Aug. 7.—A most encouraging discovery of high grade free gold ore has been made on the "Captain Jack" ledge of the Baisley-Eldhorn property, according to information brought to Baker today. The discovery was made by P. J. Jennings, manager of the property, and was found from tracing some very rich float. The vein has been uncovered and the indications are that an unusually rich ore shoot has been discovered. Estimates made of the ore give values of several hundred dollars to the ton. Tests are being made of the ore. The discovery was made about 800 feet south on the "Captain Jack" ledge from a point on the vein where it was worked during previous operation of the mine.

J. D. Creary who is interested in the reopening of the Baisley-Eldhorn in the city today stated there are about 50 men working at the property at present and this number will be considerably increased next week. Two creeks are working on the electric power line being built from the Highland mine, three miles away, a large crew is working on the road and with 10 days the road will be opened so autos can be driven to the mine. Men are also working on the camp.

Mr. Jennings was in the city today from the Baisley placing an order for 50,000 feet of lumber to be used in the building of the new camp and to get everything housed in before winter weather sets in. The work at the mine is now being centered on getting ready for winter, cutting wood and timbers, preparing for carrying on the work of the 6,000 foot tunnel during the winter.

GWINN GOES TO LODGE

ington Pythian home. — Pendleton San Francisco where he will attend the supreme lodge meeting of the Knights of Pythias which convenes August 8 to 14. Mr. Gwinn is master at arms in the national organization. The delegates from the state are Frank Grant, city attorney of Portland, Leslie E. Crouch of Portland and Willard L. Marks of Albany. Following the meeting in San Francisco, the supreme officers will go to Vancouver, Wash., where they will participate in a cornerstone laying exercise which will mark the beginning of the construction work of the Oregon-Washington.

City Almost Has Monopoly. About 90 per cent of the diamond cutting establishments in the United States are located in New York.

Paint With Air

Consider the importance of painting your farm buildings—sprayed under high pressure—air digs deeper than hair, and is cheaper.

UNDERGROUND RIVER FOUND

(By Associated Press.)

GENEVA, July 17.—(By Mail)—A great subterranean river, with an outflow of 67,000 gallons of water a minute, has been discovered in the Mont Blanc region. Known as Eaux Belles, this river has three or four underground tributaries, which have formed small lakes and wells of extremely pure and cold water in the southern districts of France and in some of the southern cantons of Switzerland.

The origin of the river is the ancient lower glaciers of Mont Blanc, which it has been proved flow from the bottom as well as the top, the latter supplying indirectly the Rhone and the Rhine.

The waters of Eaux Belles at a depth of 25 to 50 yards beneath the mountains have carved out wonderful and beautiful caverns, grottoes and canyons full of stalactites and stalagmites.

WILL INSPECT NEW ROAD

An inspection of the Weston-Eldhorn road will be made within the near future, according to the plans of Col. Paul Weyrauch of Walla Walla, of the Blue Mountain Highway association. Information of the trip has been received by County Judge E. M. Shanney, in a letter from E. M. Smith, secretary-treasurer of the association. Col. Weyrauch plans to have as his guest Dr. Summers, representative in congress of Washington's fourth district. The members of the county court of Unadilla county, together with others interested, have been invited to compose the party for the trip from Weston to Elgin.—Pendleton East Oregonian.

No Eyes for Them. The golfer must keep his eye on the ball. Perhaps that is why pretty girls don't go in much for golf.—Boston Transcript.
