### LOST IN STORM BUT NOW SAFE

Andy Mulvehill of North Powder Caused Wide Excitement by Disappearance in the Mountains.

(Special to The Observer)

NORTH POWDER, Aug. 17.—Some excitement was caused in North Powder on Tuesday morning when the news was phoned into town that Andy Mulvehill was lost in the mountains. He had left his camp on Monday evening to go catch some fish. A electric storm came up and he did not come back. His wife became alarmed and began to hunt for him. Relatives and friends went to the mountains to hunt for the lost man. To the great relief and joy of everyone he came into camp about four o'clock in the afternoon on Tuesday. He had got lost and could not find his way back to camp. It puts it mildly to say that everyone is rejoicing at the safe return of Mr. Mulvehill. It was thought he had been seriously hurt or killed as he was well acquainted with the mountains. That he returned unhurt is a matter of congratulation to all.

Everyone who can be going to the mountains after buckshot. The hills are full of people picking the fruit and still others are going after berries. Reports have it that there is still plenty left for all who care.

C. J. Forsstrom and family will leave for their home in Portland this week. Mr. Forsstrom has completed his business here and will now get home so that the young people can get ready for their entry into the high school.

Mrs. Jim Hand had a run from the east visiting at her home. This lady has visited some days at the Hand home and left for her home in the east on Tuesday evening.

Farmers are relaxing over the first rains we have been having the past few weeks. Pastures were drying up and feeding would soon have been necessary for the dairy cows.

Back Horger has returned to North Powder for a while. Mr. Horger is in possession of his ranch last spring to Mr. Burdette. He took a trip, spending some time looking for a new location and finally returned to his starting point. There seems to be something about North Powder that always brings people back when they leave.

George Chaignon returned to North Powder last Friday evening and will make his home here for the coming year. Mr. Chaignon has traveled over lots of country and has not found any better place to live than North Powder.

A bad hail storm visited the foothills in some of the recent storms. We have been very fortunate in this vicinity to escape the hail so far. A frost visited this section on the night of August 16. It is hoped that it did not hurt the late grain and gardens.

Preliminary work on the Thiel Valley dam is going on so as to choose the site for the dam. Some of the North Powder business firms have had work done on the road and it is being put into fair shape. Several men from town are working about the

dam site. This will mean a great deal to North Powder.

We see a write-up from a prominent man in Baker about the dry farming situation. This gentleman is not acquainted with the dry farming in Baker county adjacent to North Powder. There is more land sown fall-plow than there has been for years before and there are several places where the spring and fall grain on the dry land will yield from ten to twenty bushels of grain per acre and that of a fair quality. This gentleman had better talk to some of the progressive farmers who own dry ranches and not jump at conclusions without more investigation. We feel sure that when dry farming is followed up as it should be the dry land will equal the irrigated Empire in the production of grain. Give them a chance to prove what it will do and do not "knock" it. We know that dry farming has given good yields in other sections and will do the same here if followed in the right manner.

The superintendent of the North Powder schools Mr. Buchanan and wife will be in North Powder on September 1st. The city schools open on September 11.

### SWEDES SOLVING LABOR PROBLEM

(By Associated Press)  
STOCKHOLM, July 24. (By Mail)—Sweden seems to be approaching a successful solution of her unemployment problem. It has been one of the most difficult that the country had to deal with of late years, and only recently has the government clearly seen light ahead in this troublesome situation.

According to the latest official report of the government unemployment

NOTICE  
TO THE PEOPLE OF UNION COUNTY.

Your County and State tax burdens have become almost unbearable. They have increased over five hundred per cent in the last five or six years. A like increase of the burdens of taxation for the next five or six years, or even the continuation of the same rate of taxation, means confiscation and to many of you bankruptcy. You want the burdens of taxation equalized so that all classes of property will pay its proper share of taxes.

Walter M. Pierce is making his campaign for Governor of this State upon these issues, and these taxes alone. His election means lower taxes, and an equalization of the burdens of taxation. He is a farmer and stockman of Union county, your neighbor, and everything that makes for your success makes for his success. You should be proud of his candidacy, enthusiastic for his election, which will bring honor to your county. A UNION COUNTY, PIERCE FOR GOVERNOR CLUB will be organized in La Grande Saturday, August 19th, 1922. Every man and woman voter, irrespective of politics, race or religion, who desires his election, should be present at this meeting, and aid in this organization. Remember the time and the place and don't fail to be present. At Six City Hall, La Grande, Saturday, August 19th, 1922.  
T. H. CRAWFORD,  
State Central Committeeman.

ment commission, the total number of unemployed in Sweden is now under 37,000 which is less than one-half of the figure recorded at the beginning of the year. About one hundred individual provincial communities have reported a complete cessation of unemployment while the general demand for labor shows a decided increase. The government expenses for relief work during the first five months of this year amount to about 21,000,000 kronor, but owing to the rapid reduction in number of men without work, considerable savings are expected.

The unemployment situation will be further relieved in the near future by the placing of government contracts for 27,000,000 kronor with large orders for rolling stock, signaling apparatus, structural steel work for bridges and other reconstruction work. The Waterfalls board will apply several millions of kronor toward continued electrification, the construction of power stations, and canal repair work, while the department of communications will order new telegraph cables and construct new lines.

Minister of Finance Thorsen in a recent speech, said that even when Swedish industries reach the 1914 level of activity there will be about 40,000 superfluous workers for whom employment must be found, chiefly in agriculture. To meet this situation preliminary work is now being done for establishing agricultural colonies for the unemployed, and the back-to-the-soil project, the minister said, will be one of the main questions for next year's Riksdag to settle.

A Thought for the Day.  
Truth is the real food, but most of us starve in the midst of abundance, for want of appetite.

Getting well goes faster by far with a Brunswick to help pass the tedious hours. And while it amuses it trains the ear to an appreciation of true tones. Musicians recommend The Brunswick to aid in the musical education of children. Brunswick Records are also unique in the artistic beauty of their interpretation. A Brunswick, on a Brunswick—this is the height of musical achievement.
