CONWAY TEARLE IN STORY OF THE PRIZE RING.

Prize-fighting is a dangerous but romantic business, and the man who reigns supreme today is a "has-been" or forgotten tomorrow. It wasn't so very long ago that five out of every six prize-fights were "crooked," framed by dishonest promoters or mercenary referees. But nowadays, thanks to a campaign on the part of a number of fight lovers, the "game" is as clean as one could wish.

"Honest John McArdle," the hero of "The Referee," the Conway Tearle picture presented by Seisnick, is one of the heroes of clean boxing for its own sake. The feminine portion of the audience will delight in seeing a man who follows the most manly of all the arts, standing up for all that is cleanest and most decent in prize-fighting. They will not be able to withhold their sympathy for a man who will take such chances in the fine endeavor of trying to place the fighting sport on the highest plane.

Conway Tearle plays the part of "The Referee" and none in the motion picture ranks is better fitted for the role. Mr. Tearle loans us on the horizon well over five feet ten and strips at 150. He is as hard as nails and you may believe that he is a rocky, stocky battler.

Not even the Dempsey-Carpenter fight of recent thrilling memory is more exciting than the ring drama that unfolds itself in "The Referee." You will see the muscles of the fighters rippling beautifully under their skins; you will see the blows pop and shoot out from every angle. And you will clench your fists with the sheer thrill of it all.

Conway Tearle in "The Referee" will be the attraction at the Arcade Theatre Wednesday and Thursday.

FILM CENSORS LAX IN CUBA

(By Associated Press) HAVANA, Cuba, Aug. 2.—(By Mail)—Fadeouts of loving clinches, one-minute kisses and kindred screen scenes that skirt the bounds of moral decency will not be passed on by the newly created Cuban Board of Moving Picture Censorship.

Only those films which might turn movie palaces into Fagin's schools of crime are to be banned by the censors, according to an order signed by Ricardo Llaneza, secretary of government, creating a censorship board of five—each within the limits of its authority. The committee will accept from any source filed with it; serve without pay; have authority to compel exhibitors to display any film it may have reason to believe may lead youthful Cubans into the paths of crime, and bar those which show an adroit criminal successfully evading the law.

Here She Is—Good As New

"With cylinders REGROUND, AND FITTED WITH McQuay-Norris Piston Rings, Pistons and Pins, your motor is practically as good as new," says the cylinder reground.

Motorists are just beginning to realize how much added life, and mileage, can be given their cars by having cylinders reground, and new rings, pistons and pins installed. When these three vital units are renewed in a reground cylinder block, the result is practically a new motor.

In every section of the country are shops which specialize in regrounding—equipped with special tools and machinery for this work.

Your repairman can tell you whether new piston rings alone are all your motor needs, to bring back its lost power, or whether the cylinders of your motor need regrounding and complete new ring, piston and pin equipment.

There is a McQuay-Norris Ring—made from Electric Iron—for every purpose and price; specially designed and manufactured for replacement purposes—each type designed for the particular motor it fits. All standard sizes and over-sizes.—An extract from McQuay-Norris, Saturday Evening Post.

Powerful Lighthouse Beacon. The Langarra lighthouse has one of the most powerful beacons on the Pacific ocean. So bright is the illumination from the lighthouse that the halibut fishermen twenty-five miles distant can operate in the night without difficulty. A stranger entering the lens room would soon find himself ablaze unless made aware of his danger. So great is the concentration of sun's rays through the huge reflectors that in less than a minute's time a person's clothes become ignited. Heavy blinds have to be kept down during the day to prevent fire.—Vancouver (B. C.) Tribune.
