railroads running through the city. Mr. Hughes was in the Grande Ronde valley eight years ago and was so impressed with the country that he is now back and is looking around now to find a location to make his home.

PIG TEST IS OF INTEREST

PORTLAND, Aug. 26.—Mr. Geo. W. Platt of Springfield, in Lane county, co-operated with the O. A. C. Extension Service in showing the cost of raising pigs to the weaner stage. The farrow of one Hampshire sow, consisting of 19 pigs, was used in the demonstration. They were weaned when 66 days old. The average weight at that time was 50.2 pounds. Mr. Platt is a dairy farmer and had a quantity of skim milk. The ration fed consisted of purchased grain and skim milk.

Feed Costs. Grain ..... \$25.80 Milk, 2960 lbs., 35¢ per cwt. 13.65 Labor, 33 hours, 25¢ ..... 8.25 Interest on feed and stock ..... 3.60 Total cost ..... \$51.30 Cost per pig ..... \$ 5.12 Cost per pound ..... .102 The contention among many farmers is that weaner pigs can be purchased cheaper than they can be raised. The prevailing price at the present time on weaner pigs is \$6.00 to \$7.00 per head. It required an extra amount of feed to build her up. Sows suckling pigs will utilize skim milk to a good advantage and will most always produce weaners cheaper than they can be purchased elsewhere.
