Local News In Brief

days in the city visiting at the home of Dick Melville.

Northwest convention of O. K. K. at La Grande.

for Pleasant Valley— Knight left this morning for Pleasant Valley, where removal is advocated by the college officials in the interest of more adequate training for missionaries.

Conservative and progressive forces within the denomination will come into conflict during the convention, it also is believed. The ultra-conservative movements which has become active in several Protestant denominations, and whose members call themselves "fundamentalists" has many adherents among the Disciples of Christ.

Getting well goes faster by far with a Brunswick to help pass the tedious hours. And while it amuses it trains the ear to an appreciation of true tones. Musicians recommend The Brunswick to aid in the musical education of children.

Brunswick Records are also unique in the artistic beauty of their interpretation. A Brunswick, on a Brunswick—this is the height of musical achievement.

**Brunswick Eastern Oregon Music Co.**

81 acres on Catherine creek. Part of the Old Sugar farm. All in cultivation, 40 acres well adapted for grain or alfalfa and the balance natural hay land, will grow the finest kind of Timothy hay, and a natural feeding ground along the river, where the willow grow. Price \$25.00 per acre, on good terms. There is also 80 acres adjoining this land can be bought on same terms.

**Efficient Vision Your Greatest Asset**

THE strenuous demands of this age require the possession of every physical faculty in its most efficient state, that we may be enabled to wage our contest of life at the greatest possible advantage. But nothing puts a man or woman at such a great disadvantage as a partial or total loss of visual powers.

There is, perhaps, no catastrophe which evokes more pity, or is looked upon with more dread than blindness, yet people give less attention to the care of their eyes than to the care of their teeth. The least ache in a tooth will make most of us scurry to a dentist, but we will suffer headaches for months and allow our working efficiency to become linear and lower because of defective vision without attempting to seek relief.

Few eyes are absolutely normal and the majority of people, regardless of age, actually need glasses. The need of glasses is many times multiplied because of the character of employment. The day of that old idea that age alone brings a need for spectacles or, eyeglasses has long ago vanished, with other errors of like nature. Glasses are needed the moment the natural powers of the eye do not permit it to function properly at all distances.

Our equipment and methods are the most modern.

**A Triumph for Value**

IN the past two months Firestone has built and marketed more tires than in any similar period in its history.

This steadily increasing public preference is proof of the recognition by car owners of the greater values offered by Firestone. It is a tribute to Firestone men—all stockholders in the company—all actuated by the operating principle of Most Miles per Dollar.

The high average performance of Firestone Cords is without equal in the annals of tire making and is reflected by the general tendency to specify Firestone for hard service. Taxicab and bus lines, buying tires by the mile, are universally equipping with Firestone Cords.

There are many reasons for the high quality of Firestone tires but chief among the special manufacturing processes are double gum-flipping, thus eliminating internal friction by insulating each cord strand, and air-bag cure, insuring a well-balanced and perfectly shaped product.

Don't speculate in tires—you will find the right combination of price and quality in Firestone. Come in and let us tell you about the service these Cords are giving other car-owners whom you know.
