---and for the Tea-Party---Bread

The little folks' appetite for supper is never dulled by the doll's tea-party of Bread-and-Milk at 4 p. m.

Children should never be forced to wait for meals. Their ravenous hunger between-times is nature's clamor for more bread-and-milk—nature's perfect growing food.

One loaf of bread and one quart of milk per day is only a normal allowance for each shooting-up youngster. Cut a big slice off the loaf every time they're "so hungry."

Superfine Bread

—the loaf of which they want twice as many slices, because it's twice as delicious. Kept fresh and tempting in its waxed paper wrapper. ASK YOUR GROCER.
