City of Storks.

In Angora, the capital of Nationalist Turkey, storks may be seen everywhere. One pair nest on the top of the column reared by the Romans in honor of Augustus. Anatolia is a birds' paradise, for the Turks never shoot them.

Shedding Weight by Work.

On the track, a loss of eight pounds in an hour is very common, even when men are in the pink of condition. So in the sea, where the best trained swimmers lose weight rapidly. One of them, in attempting to swim the Channel, is reported to have left the water ten pounds lighter than when he entered it, notwithstanding that he took a good deal of food, liquid and other, meanwhile. It is really absurd, therefore, to become apprehensive because of a slight loss of bodily weight. Of course, a continuous loss over a reasonable period should be attended to. But small variations, being natural and consistent with perfect health, need not worry anybody.

KATO URGES ECONOMY NOW

Admiral Baron Kato Urges Economical Recovery and Asks Co-operation of Individuals.

(By Associated Press.)

TOKIO, Aug. 13.—(By Mail)—Speaking at the first conference of local governors since his assumption of the premiership Admiral Baron Kato, explained the steps taken by the Cabinet to bring about economical recovery and urged local authorities and individuals to practice economy. He said:

"The Washington conference has created an epoch in the world situation. The power in Europe and America at present are making strenuous efforts for the recovery of their economic stability and particular efforts are centered upon the development of industries and further advancement of civilization and culture I think the empire at this critical moment must readjust her economic condition and strive for the consolidation and replenishment of her national strength, meanwhile taking measures for promoting national education and enhancing the further development of national industry.

The government has decided to carry out an administrative and financial adjustment to economize and curtail the state expenditure, apart from effecting the reduction of navy armament and also of land forces abiding by the spirit of the Washington conference. It is very important that each individual strictly refrain from the habit of luxury and exercise action of individual economy. This principle should be particularly borne in mind by those in the government service, who are required to make efforts for the spread of the thought of economy and thrift among people."

The premier regretted that the condition of the thinking world in this country still was in an unsettled state for which the premier recognized the necessity of taking proper measures for guiding the thoughts of the people in a right course. The government also was deliberating the question of relations between capital and labor.

The Premier said that the government was fully aware of the necessity of the adoption of general manhood franchise and was making an elaborate study with a view to adopting that system though at present he was unable to state anything definite about the date of its execution and the particulars of the plan.

HARVESTING AT STARKEY

(Special to The Observer)

STARKEY, Sept. 7.—The weather is ideal for harvesting in Starkey and it appears that no change will be experienced within the next few days.

Sol Twidwell has his wheat cut. Harvesting is nearly completed on many other farms and Jack Starrio has also completed his cutting. John Wells has moved his combine back to his own ranch, where it will be used to harvest a crop of spring wheat.

Jesse Plunkett has been stacking hay with the aid of Alvin Thornburg and Everett Clark.

R. L. Sullivan is helping Len Ingham cut his spring crop of wheat.

Mr. and Mrs. A. B. Burnett and family, who formerly lived here but now make their home in La Grande, were visiting her brother, R. L. Sullivan, Sunday.

Bert Rose returned from the Gibbon country, where he has been putting up hay.

Mr. and Mrs. David Bonifer, of Gibbon, spent three days with the J. S. Rose family. Mr. Bonifer and Bert Rose went deer hunting during the visit.

Mr. Baker, of Meacham, and a party of hunters are going to Fly Valley for a deer hunt Sunday.

Hurts Finger.

Raymond Strack hurt his finger quite painfully last Tuesday when shoeing a pack mule. The mule jerked his foot just as Strack bent the nail and the result was that his finger was caught and the nail pierced the finger to the bone.

Mr. and Mrs. John Scott and children were out to Starkey Sunday.

W. E. Jones, camp tender and teamster, returned Sunday from trailing out the lambs to Meacham.

Range Is Short.

The range in this section is becoming short and herders of sheep and cattle are all having trouble trying to hold their bands together. Deer are scarce in the hills and hunters are getting fewer in number. "No luck" is the usual reply when asked how they fared.

Alvin Thornburg and wife have left for a few weeks' visit in Granite.

NEXT THURSDAY IS SATURDAY NIGHT. 9-2-5t

Return your used school books to Newlin's before the rush. 9-5-3t

EVERETT TRUE —by Condo

According to the Governor General of the Bahama Islands, wealthy Americans are leasing islands where they can store liquor and drink without interference. That is one sort of isolation which should be encouraged.

It is reported that in one of the six largest cities that 70 per cent of the population still ride on the street cars. Can it be that Henry is slipping?

A River of Mystery.

From its source to its mouth the Colorado river drops almost two miles. At some points along its course, particularly in the Grand Canyon, it has cut its channel more than one mile below the level of the surrounding plateaus. The Colorado is the best known stream in the western hemisphere. It is the tomb of civilizations that flourished in ages past. The stark cliffs, chiseled by the river, are furrowed with the deserted dwellings of peoples of mystery. Centuries ago these early races constructed irrigation systems which are still visible in part and which command the respect of engineers even today.

September 10th is the last day to pay your water rent without a penalty. 9-7-3t

NEXT THURSDAY IS SATURDAY NIGHT. 9-2-5t

Bring your used school books to Newlin's for cash or exchange. 9-5-3t

This Bird Is Fat.

Young albatrosses are so laden with their own fat that one of them may go five months without taking any nourishment, says the American Forestry Magazine. This is likewise true of young pigeons and of other sea fowl.

NOTICE TO CREDITORS.

Notice is hereby given to all concerned that letters testamentary have been issued by the County Court of Union County, State of Oregon, to Hazel Jones, upon the Last Will and Testament of Joseph Jones, deceased, and she has qualified as such executrix, and all persons having claims against the estate of said decedent are hereby notified to present the same, with proper vouchers, to the said Hazel Jones at her residence in La Grande, Oregon, or to J. D. Slater, her attorney, at his office in La Grande, Oregon, within six (6) months from the date of this notice.

Dated this 31st day of August, 1922.
