

LOTS OF STYLE AND WEAR
IN OUR SHOES FOR

BOYS and GIRLS

They have to stand a lot of wear—walking to school—running and playing—up and down stairs.

With these demands in view we offer shoes of extra long service at low moderate prices.

We shoe the entire family.

HILL'S DEPARTMENT STORE

Symbol of Wedding Cake.
The wedding cake, with cut by the bride, is one of the oldest marriage customs. The taking of food or drink together by the bridegroom and bride was always the traditional and sometimes the only, necessary among primitive people, and this is still the case in many parts of the world.

Philadelphia Hoopery Center.
Philadelphia leads the world in the manufacture of hosiery and underwear.

Precaution.
In choosing shoes the stepholder is in constant use. Make it safe by walking some pieces of rubber on the lower parts of the hosiery.

CHINA BOY TAKES JOURNALISM

(Special to The Observer)
UNIVERSITY OF OREGON, EUGENE, Oct. 7.—Because he desires to obtain a thorough education in journalism in order that he may later establish a newspaper in his native land, Chi Sung Pi, whose home is Seoul, Korea, has enrolled in the University of Oregon school of journalism.

Pi came to the university with junior standing as he was a student for three years at Pacific college, Newberg, Ore. There he played baseball for three years and was captain and pitcher of the side last year.

"Korea needs well-trained journalists and strong newspapers," said Pi today. "Korea does not exercise the influence on the Pacific world she should because her voice is not heard. An efficient national press is needed."

Still, we can't see that long skirts in combination with hosiery are any more incongruous than a ball of wool in your pants.

"Correct this sentence: 'I want your support,' said the candidate, 'but I tell you frankly that the common people give me a pain.'"

DODGE BROTHERS BUSINESS SEDAN

With this car, Dodge Brothers have literally created a new type of sedan.

They have combined open car ruggedness with closed car protection and smartness.

They have demonstrated, once for all, that a sedan can be as practical and almost as inexpensive as an open touring car.

The body is built of hand-welded steel because steel is sturdy, and will take a permanent, oven-baked finish, eliminating forever the cost of repainting.

The seats are upholstered in attractive, genuine Spanish blue leather, because leather will wash and wear.

To further enlarge the car's usefulness, the rear seat, back and side cushions, seat frame and foot rest are quickly removable, giving sixty-four cubic feet of flat loading space in the rear compartment. The manifold uses made possible by this unique feature are readily imagined.

The top and rear quarters are of non-rumble, fabric construction, conforming with the present attractive vogue. From door hinges to curtain cords, the fittings, inside and out, are distinctive and complete.

In fact, every detail of the car emphasizes its striking adaptability to business as well as social use.
