BIBLE THOUGHT FOR TODAY
GOD IS GRACIOUS—Then art thou ready to receive, merciful and unfeignedly show to us, and of great judgment.—Hebrews 4:17

THE OFFICE CAT

PRESCRIPTION.
If you're feeling pretty rotten and you don't care what you do—Monkey glands.
If you haven't any ambition and you're feeling rather blue—Monkey glands.
If you've got your old desire for the woman and the wife, and your thoughts of entertainment run to movies through it—Monkey glands.
If you'd rather eat a bachelor meal than help a chicken dine—Monkey glands.

THOUGHTS OF MIDDLE-AGE.
Young ideas are well enough! Mine is middle-aged stuff.

People frequently stand on a street or have a little party and get them a seat at a table. It's the same way with life.

Love is the matter that holds civilization together.

It is hard for a man to live with his "business" days. It has gotten so a fellow has to go out and borrow his "dollars" every time he wants to stretch.

THE UNUSUAL.
Twenty-five men on this street the other day. They were lined up to hold "Ben" in. He came for help and the sergeant brought out a platoon.

Some men. Two women pointed, they looked a lot, then had his hat, clothing torn. So much excitement was in his or twenty years. Terrible!

Finally the police got the sense of it all separated from a tangle and took her to the station, where she was fined \$10 and cost for disturbing the peace.

"And the next time you go on the street," said the judge, "see that your face is painted, eyebrows penciled, skirts are short, hair false and every thing, 'n' so on." It's all right for you to be old-fashioned, but the public has a right to see that you look like the rest of 'em or stay home!"

TURN HERE.
Turn backward, turn backward, oh time in the flesh.
And make the old folks more youths for tonight.
Enjoying one dance, short skirts and your style. So much excitement was in his or twenty years. Terrible!

Johnnie: "Any more, paper, old man or sell?"
Head of House: "No, no away, my wife is away for the summer."
Johnnie: "Any empty bottles?"
Head of House: "None."

ODD FEEL AND BARY NOTES.
Chubb Creek Correspondence in the West Union, O., People's Defender.
O. H. Wilson was a "liver" "book" call on Monday.

The thought of his last days always comes back to the late of the party, "Rich" Hughes—also in the "bookkeeper."

CATFISH.
"Catties"—That's the 1000 time you're asked me if I want the venison dinner for home cooking."
"Government Store, Clark"—I'm sure, making, but last week I sold you a mess who thought it was a snake, or something. And he made me nearly lose my job because he couldn't play "Old Mack Joe" on the rebounded line."

ODD AND INTERESTING.
The first glass railroad was made in Venice in 1309.
London's death rate last year was the lowest on record.
Smoking is absolutely prohibited in the London Stock Exchange.
There is no such thing as a free lunch, while it is still so frequently.

The wasp in flight often pierces its wings at the rate of 119 beats a second.
Emotions such as sudden fright, act on the human stomach, causing it to alter in shape.
Among railroad workers it is a popular superstition that one disaster will shortly be followed by two others.
The whitest teeth in the world are said to be found among the men working on sugar plantations, who are always chewing sugar cane.
Throwing confetti at weddings in one London church now costs an additional 10 shillings to pay for the trouble of clearing it away.
Eight tons of dead mice were recently collected near one huge store of wheat, belonging to the British Government, in Australia.
One Australian clergyman has officiated at eleven thousand marriages, which works out one a day for thirty years, including Sundays.
At the foot of Niagara Falls, the surface of the water is 29 feet higher in mid-stream than at the sides, owing to the pressure of water.
A Stirling boy aged eleven, who gave an exhibition of his powers before the Paris Academy of Science, was able to solve off-hand the most difficult mathematical problems, though he could neither read nor write.
Sir Ernest Rutherford estimates that the output in date of radium in the United States is only 40 and 120 grammes, respectively, giving a total world output up to the present time of about 170 grammes, or approximately five and one-half ounces.
With the five million odd printed volumes, the British Museum Library can claim the distinction of being the largest in the world so far as the quantity of that kind of literature is concerned. More than sixty miles of shelves have been called into requisition to accommodate them.
At Buckingham Palace there is a wonderful clock made by Laine, who established a watch factory at Geneva under the direction of Voltaire himself. This clock takes the form of a "negress" head and the four animals are shown in one of her eyes, which in the other are the minute divisions. The clock measures nearly three feet in height, and is magnificently ornamented.

Wasting Energies

The vigorous fight starting over an initiative measure on the ballot pertaining to private and parochial schools is entirely out of place in Oregon's state affairs. At least that is the way it seems to a large number of voters who have been raised along broad lines, and who believe in recognizing merit and worth in any school whether it be public, private or parochial.

The statement that the passing of such a bill will increase the tax burden because additional school houses will have to be erected to house the children now attending private schools, is quite true. But, were it necessary to have such an expenditure in order to educate children, it would be money well spent.

However, it is not. The editor of the Evening Observer attended public schools and a Presbyterian Sunday school in early life, but we never denied others their rights to attend a private school if they desired and could afford to do so. Neither did we ever find fault with anyone who attended either Sunday schools or other churches that we attended.

Somehow, we cannot help thinking the big deciding vote of Oregon has been retained much as we have in that respect, and we cannot think it's state will register a vote causing every private school in the state. It would be about as consistent to close all higher institutions of learning except those supported by public money. In fact, were this school program once started there is no end to it.

Oregon needs all the energy of her people on economic questions at the present time, and certainly it is a waste of energy to fight a school fight like the one that is sponsored in the ballot measure.

England is like a broke man—easy to compromise. The Turks bargain with England shows that.

Railroad traffic is almost back to normal, according to the news dispatches. But what is normal?

Walter and Ben have not met yet at any of county fairs, but there is plenty of time.

Editorials From Over the Nation

PHILIP GIBBS RESENTS SCORING

New York Times: Moved, evidently, by recent comment in this country on the Britons who came here to deliver lectures, one of them, Sir Philip Gibbs, contributes to the Landmark, the little magazine which speaks for the English-Speaking Union, an article in which, not unskillfully, or ineffectively, he defends this much-criticized practice. He admits that most of these lecturers, if not all of them, were quite unversed in platform arts, and that many of them had nothing in particular to say, or nothing that they had not really said in their books. He insists, however, that these are not sufficient reasons either for scolding or for deciding such visitors who thought they got little or nothing for the American dollars put through the box-office windows were themselves to blame for their disappointment. They had an unreasonable expectation of getting more than they did, and, if they were not willing to pay for the satisfaction of their curiosity as to the appearance of people about whom they had read or heard, they should have stayed at home.

THE EXTINCTION OF THE SALMON

Minneapolis Dispatch: From the Columbia to the Fraser mountains of the Pacific coast are being killed the fishes of the great salmon family that were once a prominent feature of the Pacific coast. Reports that the fish are being killed at a rate that will soon wipe out the species are being made in the Pacific Northwest. The fish are being killed at a rate that will soon wipe out the species are being made in the Pacific Northwest.

THE DEPENDABLE FILM IN THE YELLOW BOX

Dependable because uniform to a marked degree. Dependable because its latitude permits a considerable variation in exposure. Load with Kodak film—and let us do your developing and printing. Then you're sure. Kodak Film on our shelves in your size. Red Cross Drug Store.

IN THE DAY'S NEWS

Henry Cabot Lodge of Massachusetts, who is to open his campaign today for re-election to the United States Senate, is the Republican floor leader in the upper house and the oldest member of that body in point of service. Senator Lodge is a Harvard graduate, an author of eminence, with high academic honors as his reward. For many years he has stood high in the inner councils of the Republican party, drafting its platform and presiding over some of its historic national gatherings. Long service on the foreign relations committee of the Senate has made him especially well versed in things pertaining to the diplomatic career of the United States and to its more or less clearly defined national policies; so that, whether of power, he has been called in to advise the executive in times of unusual stress and difficulty in connection with foreign affairs.

TODAY'S ANNIVERSARIES
1810—Guinevere Morris, one of the greatest of tenor singers, born in Bardonia, died in Rome, December 11, 1882.
1822—The first church in Indianapolis was organized by the Baptists.
1845—Oliver P. Morton, the war governor of Indiana, was stricken with paralysis.
1872—William H. Seward, President Lincoln's secretary of state, died at Auburn, N. Y. Born at Florida, N. Y., May 15, 1801.
1881—A concession was granted for a railway to connect the City of Mexico with the Pacific coast.
1887—Yellow fever appeared at Galveston.
1889—The Transvaal Republic sent an ultimatum to Great Britain and two days later declared Natal, which became the South African war.
1911—In California amendments to the constitution, including one for woman suffrage, were adopted by popular vote.

TODAY'S BIRTHDAYS
Lord Brougham, former Lord Chief Justice of England and now Viscount of India, born in London, 42 years ago today.
Sir Gen. George B. Stewart, U. S. A. The first American general to command a sector on the battlefront north of Tenth horn at Lexington, Ky., 61 years ago today.
Dr. Fridtjof Nansen, celebrated Arctic explorer, born near Christiansia, 61 years ago today.
Prince Charles, second son of the King of the Belgians, born in Brussels, 19 years ago today.
Walter H. Newton, representative in Congress of the Fifth Minnesota district, born in Minneapolis, 42 years ago today.
William Kullifer, manager and catcher of the Chicago National league baseball team, born at Bloomingdale, Mich., 24 years ago today.

ONE YEAR AGO TODAY
Central American Federation came into existence.
New York Americans beat New York Nationals in fifth game of world's series.

46 SACKS OF CEMENT TAKEN FROM HIGHWAY
Portland may have by expert check artists. Prices may have a wonderful crop of pickpockets and New York may have a "master criminal" but Calumet county has the best staler of cement in seven states.
Saturday afternoon eleven and one-half barrels of cement, at the estimate of 45 sacks, was piled on the highway two miles west of Perry, in its usual place. Next morning the tarpaulin that had been covering the sacks looked slightly suspicious and the highway workers investigated it and found that the cement had been stolen and that above bolts had been erected beneath the tarpaulin to give it a natural appearance.
Then, adding insult to injury, the two tarpaulins were stolen Sunday night.
The sheriff and his deputies investi-

Nearing the Noon of Life
With advancing years, the activities of daily life become less strenuous. As a result some of the bodily organs must call on Nature for aid.
OUR MINERAL OIL is especially valuable in promoting regular action of the bowels.
This valuable remedy is superior to the so-called cathartics and purgatives which form habits. Especially valuable during the months of indoor living.
