AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.

May Lose Throne

King Alexander of Yugoslavia who recently wed Princess Marie of Romania may lose his throne as the result of a revolution engineered by those who support the crown claims of his brother.

One and Same Stone.

"Few realize," said a jeweler, who was discussing the increasing popularity in stones of the semi-precious varieties, "that the garnet and the carbuncle are one and the same stone. They are varieties of garnets, but the term carbuncle may be applied to any of them. The trade generally understands 'carbuncle' to mean a garnet which has been cut en cabochon—that is with a smooth half round or domed top without almost any faceting. For large garnets this is the favorite cutting. This is almost exclusively used in jewelry for men."

Foot-Ball Notes

Tolly Knapp is playing a snappy game as halfback for the Yale varsity eleven.

Faulkner and Pasche appear to be the real speed boys of the Brown university griders.

George Owsen's clever football work adds another jewel to the crown of Harvard's star athlete.

Paul Landrum, former Dartmouth star, is coaching the wing candidates at the University of Minnesota.

Pittsburgh gossip has it that Coach Glenn Warner has developed another powerful football machine.

Tatts suffered hard luck in its first game of the season when Van French, one of the best backs at Medford, was injured.

Indications point to another prosperous season and a close struggle for the football championship of the Western Conference.

Simmilinger, Holy Cross star, who has been playing at quarter will switch to the position of halfback in future games.

Dartmouth college has a sturdy set of backfield men and a powerful line to make gridiron warfare this season. Manager Glover of the Geneva college eleven declares that the "tramp athlete" or "floater" evil is becoming more of a menace each year.

From the way Centre is piling up points, "Tackle" Charley Moran must have developed another squad of dazzling football artists.

No many college teams relying on the drop kick to give them their additional point after touchdown, will create a demand for proficient blockers of the pigskin.

It will require the best brand of gridiron play to beat the Princeton Tigers this season if Bill Roger's pupils continue to show the pep they have displayed so far.

Freshmen teams are permitted to be absent from college for only two games in a season, according to the new football rules laid down by the Big Three—Harvard, Yale and Princeton.

Jack Is Old Friend.

A plant of much interest found in our spring woods, is the Jack-in-the-pulpit, or Indian turnip, a plant of the arum family to which the well-known calla-lily also belongs. The sheath (the pulpit), which surrounds the central portion is called the spathe, and is really a leaf modified for the protection of flowers.—American Forestry Magazine.
