Proposed Revolution to Be Nipped Before It Starts, According to Executive of That City.

PORTLAND, Oct. 21.—The police department, augmented by extra squads, continued on guard today against the "invasion" of Industrial Workers of the World, who according to the statement of Mayor Baker, have "selected Portland as the center for the beginning of trouble intended ultimately to assume proportions of revolution."

Over one hundred men were picked up last night and sixty-seven of them were held on vagrancy charges. The American Civil Liberties Union wired Mayor Baker from New York today protesting against the arrests that have been made.

HUNS LEAVING FATHERLAND

Germans Are Leaving Their Father Country in Ever-Increasing Numbers.

HAMBURG, Oct. 1.—(By Mail)—"Wanderlust" is again stirring noticeably in the German breast. During the first half of 1922 there was an increase of 43 per cent over the same period last year in the number of nationals setting out for new residences in foreign lands. But where they have gone the records disclose in part only.

Germans to the number of 11,257 sailed from German and Dutch ports during this period on bookings other than first or second class. The outward trek in the first semester of 1921 totalled 7,592. During the second half of last year there was an exodus of 15,662. Of this year's emigrants nearly 4,000 were women.

Hamburg continues the most favored point of exit, with Bremen second. Of 149 who sailed from Amsterdam up to July, 24 were bound for South America and 47 for New Orleans, Mexico, and Cuba. Last year the first six months saw 2,755 bid the continent goodbye from this port. The unusual decrease being registered as a result of the increasing need for using Dutch harbors following the growing revival of German shipping. Most of the emigrants chose April, May, and June to start on their travels.

Prussia led the individual contributing sources with a total of 5,645, of whom 268 were from Hannover, 313 from Berlin, 322 from the Rhineland, and 112 from Upper Silesia. The next heaviest loser among the states and provinces was Bavaria, whence 1,825 went abroad.

3 IMPORTANT GAMES TODAY

The La Grande-Elgin, Enterprise-Pendleton, Wallowa-Union Games Important; Baker Meets Prairie City.

Three games having a direct bearing on the race for the Eastern Oregon interscholastic championship are being played this afternoon. One other game is also being played but it has not the bearing on the race that the Elgin-La Grande, Pendleton-Enterprise and Union-Wallowa games have.

The most important game of the quintette is at Elgin where La Grande will battle the Elginites to what is hailed as being the "big game" of the season. From their strength it appears as if the winner should make a clean sweep of the remaining games.

Darkhorse to Play.

Wallowa, the darkhorse of the race, who has not yet been in action, will get tested thoroughly by Union, who, while beaten by Baker, is rated as being dangerous. Joseph went to defeat by the Maroon and White 32 to 9 last week at Union.

Enterprise, with a clear plate having won from Imbler and Baker, will play Pendleton, last year's champs, but woefully stamping this season. If Enterprise can down the Round-Up city boys her chance will appear much stronger. If she is defeated then the curtains should fall on both teams.

The fourth game is between Baker and Prairie City at the latter place. Prairie City is said to have a weak team this year and Baker, with a defeat by Enterprise, is practically out of the race. If Prairie City should prove the deponents' provokers and win from Baker by a large score, she would still be out of the race, as neither La Grande or Elgin has games scheduled with her. In reality, Prairie City is geographically out of the question as being a member of the Eastern Oregon association.

The schedule at La Grande at Elgin, Baker at Prairie City, Union at Wallowa, and Pendleton at Enterprise.

One of the uses to which the hospital and sanitarium will be devoted will be to train medical missionaries for work in foreign countries, according to those in charge of the endowment campaign.

The first half ended three to three with each team having booted over a kick for three points. In the last half, still using the same style of play, Oregon dropped another kick over the goal winning the game. Both teams fumbled several times.

MIMNAUGH WILL NOW ON RECORD

Late Lumberman Leaves All of His Property to His Family, According to the Records.

ENTERPRISE, Oct. 21.—By the will of James H. Mimnaugh, which has been filed in the county clerk's office, all his estate is left to his wife and children. The estate has not been appraised, but it is estimated to exceed \$50,000 in value, and is expected to run considerably over that figure.

The first provision of the will names E. T. Garrison executor, who is also bond. Then Mrs. Mimnaugh is named. She received the home in Wallowa and also is to receive from the estate \$200 a month, and more if needed for the education of the three children.

In addition, Mrs. Mimnaugh is to receive one-fourth of "all the real and personal" or property of all kinds left by the lumberman. To his three children he bequeathed the other three-fourths of his property. Mr. Mimnaugh should have college education, and he provided for their maintenance while finishing their schooling. Wide latitude is given in the executor in this respect. With certain qualifications, each of the children is to receive his share of the estate on attaining the age of 21 years.

In closing, Mr. Mimnaugh's will stated:

"It is my wish that the stock I own in the Nibley-Mimnaugh Lumber company be retained by my wife and children. If practical to do so, some other the raising of said administration and trusteeship, but this I leave to their best judgment and the best judgment of said executor and trustee during the time he shall act as such."

This is more a matter of sentiment with me, as I have put in a good many years of my life in building up this business and my opinion is that the big profits made by the company will be made during the last ten years it is engaged in business.

"It is for the people to decide whether the party comes first or whether the nation comes first," he exclaimed. "I stand for the people." Lloyd George asserted and then he called attention to the combination which had achieved victory in the late war stating that it had been brought to an end, not because it had ceased to serve the nation, but because a party was not getting enough out of it. He then launched into vigorous defense of his administration.

War is not a bad test, and I have done a few things in peace."

During his speech the war premier made no reference or suggestion of a new party.
