Sherry's Real Danger.

The danger in sherry is not merely that it should be wrong thing, though that is great enough—but that it should become poisonous and lose the hold of testing sherry and thereby into traps, for then it must shake and "smuggle" out.

Sherry is a danger. W. K. Clifford.

Sport Suits for Young Men Better Clothes for Less Money

YOUNG MEN will find Sport Suits, in their deftly developed variation of style lines, in indisputable leadership. The popularity of the model also will be more in evidence among business men who like to "step out a step or two" away from their customary conservatism in dress.

Illustrated here is unquestionably the leader among the styles of Sport Suits. The pictures give both the front and back view. The four patch pockets to button, the straight yoke, the inverted pleat and three-quarter loose belt are all outstanding style-features which give a preference to this model.

In addition to the two and three-button single breasted models, there are double breasted models greatly favored by many; also semi-conservative styles. Choice of wear-resisting cassimeres in blue, grays and browns, club checks, tartan plaids and fancy mixtures. Sizes 33 to 44.

Also single and double breasted, two and three button conservative suits—at the above three popular prices.

HOLDS SCHOOL IN A CHURCH

(By Associated Press.)
MOSCOW, Oct. 1. (By Mail.)—Moscow has become so overcrowded that the soviet government has been making strenuous efforts to relieve the situation by forcing some inhabitants to move to nearby towns. The police plan to rid the city of thousands of men and women who might just as well live elsewhere. A total of 25,000 students have come into the city, attracted by the educational opportunities offered, and there is no place to put them. One of the largest churches in Moscow has been taken over to provide living quarters. The government gives the students a limited ration of black bread. Foreign relief organizations also will join in feeding them.

Holidays in the Jungle.
At the equator in Africa there are only two seasons—wet and dry. The former makes eight months of summer averaging 117 degrees Fahrenheit. During the dry season the thermometer rarely goes below 70.

"Boolegan's" Quaint Home. Naming the dry season "Boolegan" probably means "Smuggle Hat."

SALVATION ARMY PLANNING DRIVE

Grave Says Union County is Requested to Raise \$3,000 for Work of Institution.

(By Salvation Army Press Agent)
Ernest L. Graves, field representative for the Salvation Army, is here to conduct a campaign for the purpose of putting the local branch of the Salvation Army on a sound financial basis for the coming year. According to statements of the Salvation Army representative, heretofore the Salvation Army has been supported by the promiscuous solicitation of funds by its workers and collections from pool rooms and cafes by means of the tambourine. This method consumed a great deal of time and energy on the part of the officers. Many of these officers have received an intensive course of training at the different training schools of the Salvation Army and are thereby qualified for a greater work. For the past four years, in enterprises where the Salvation Army is working, it has been customary to conduct one financial campaign a year, and in this campaign, provide for the needs of the local work for the ensuing year. In submitting the budget for the work of the Salvation Army for Union county for the coming year, Graves has set the sum of \$3,000 as being requisite and necessary for the work that the officers will be called upon to do from time to time. There is at the present time the White Shield Home in the city of Portland, where during the last year they have received 197 girls, several of these girls having gone there from this county.

The formative stage which I feel certain will materially aid the producer. "I would like to say to the people that we are working in Washington and working hard in our attempt to help bring back the safe business and proper American standards of living. Some of us are super-men, but there are some very earnest, capable men in that congress whose entire attention is given many hours each day to the national problems, and I have faith in the future. I believe the clouds will break and that the country will get a firmer footing little by little until this chaotic condition following the world upheaval will vanish and America will be herself again."

TOM MOORE

—in—

"Mr. Barnes of New York"

By Archibald Claverling Gunter

Tom Moore again—the star! Tom with the white golden smile, but in a new kind of part. Here a dashing, happy-go-lucky Yankee, blowing a trail of adventure through the most romantic part of Europe. He'll shake the heart right out of you! And when the third act rolls around and instead of a comedy you see him.

Comedy—"GOOD NIGHT NURSE"
