WHY PEOPLE SUFFER FROM PAINFUL FEET IS TOLD BY DR. SMITH

"Why do so many people suffer today from foot troubles?" This question was asked today of Dr. Smith, of the Bootery.

"Undoubtedly," said Dr. Smith, "the hard pavements have had much to do with producing broken down arches, extreme tiredness, burning sensations, painful heels, corns, calluses and similar foot discomforts. On the other hand poorly fitting shoes have contributed largely to bring about these conditions."

Dr. Smith, who has studied foot anatomy under the direction of Dr. Wm. M. Scholl, the nationally known foot authority, says regardless of the cause, there is a remedy or every foot trouble.

Mr. Smith is now making preparations for his store to participate in what is known as Dr. Scholl's National Demonstration week. This will be held from October 28 to November 4. He explained that thousands of shoe dealers throughout the United States and Canada will make a special effort to relieve foot suffering and see that persons calling at his store are fitted with comfortable, stylish shoes.

In this connection he made the interesting assertion that Dr. Scholl has perfected an appliance for every foot trouble, and that his method of foot correction was scientific, accurate and absolutely dependable. No special shoes were necessary, for with the proper appliance correctly fitted, any shoe, he declared, could be made an anatomical shoe.

"Demonstration Week is going to be a revelation to many people who never dreamed there was such a thing as relief from their foot troubles," said Dr. Smith. "It has been proven that if the bones of the foot are properly supported, as they are with Dr. Scholl's Appliances, in shoes that fit, they gradually resume their normal position and function in a way that not only provides comfort but main-

ains the neat, stylish appearance of the shoe."

Mr. Smith said National Demonstration Week was the time for everybody to be good to their feet.

Masterpiece Born in Suffering.
Tom Hood's famous "Song of the Shirt" was composed in 1844, while he lay in bed suffering from his last illness.

Lane and Mysterious.
There is an mysterious high seven feet high on the Inland of Mesa Verde National park, in Colorado, that has the distinction of being the only one in that country. How it got there, and whether the last of the Indian cliff dwellers had anything to do with its growth there is being investigated by scientists.

The Candidates for GOVERNOR

And Their Official Records

INTRODUCING MR. PIERCE:

When a candidate for public office makes a campaign promising what he will do along certain lines if elected, it is fitting and proper that the voter examine the public records, to ascertain whether or not the official life of the candidate is such as to give evidence of his sincerity. In the present instance, Walter M. Pierce, Democratic candidate for Governor, professes to be the author of lower taxes. His public record is exactly the contrary. Hence, we will first introduce Mr. Pierce.

THE PIERCE TAX RECORD

1. Of the \$5,276,289.00 of State taxes for 1922, which include the millage tax, Mr. Pierce specifically has approved of \$5,564,039.00, or 92 per cent of the total—having introduced bills into the Legislature for a large portion of it, and having voted for the remainder.
2. He voted for 87 per cent of all the tax appropriation bills of the 1917 Legislature, and for all the appropriation bills of the special session of 1921.
3. The State Highway Commission now works without pay. Mr. Pierce introduced a bill to pay them \$12,000.00 a year.
4. He proposed a Bond Issue of \$400,000.00 for the purpose of building a new penitentiary. Governor Olcott, largely with the convict labor, has retained the old penitentiary so that it will be good for another twenty-five years.
5. Mr. Pierce claims he wishes to relieve real estate of some of the burden of taxation, yet he is the author of a constitutional amendment which, had it been submitted by the Legislature and voted for by the people, would have exempted from taxation all monies, notes, credits, and accounts.
6. During his brief career as a State Senator, he has voted for 185 measures which effected salary increases.
7. While in his campaign speeches, he talks about offsetting savings by consolidating commissions, to be in record in the Legislature an voting against every consolidation bill introduced, two of which came from the report of the commission appointed by the Governor to investigate consolidation of bureaus.
8. Not only this, but Mr. Pierce introduced a measure providing for the most elaborate commission any state ever had, outside of Russia. It was a Socialistic scheme, and the bill stated specifically it was "to secure to every citizen of Oregon an opportunity at all times to work for the State." The bill provided a \$5,000 salary for the head of the commission.
9. Of special interest to the voter and coast counties was Mr. Pierce's vote to keep the Oregon-California Highway land grants of the county tax rolls.
10. Mr. Pierce voted against a resolution in regard to a gift from the United States government, motor trucks and other road equipment. Fortunately, he was in the minority, and now road equipment owned by the State as a gift from the United States amounts in value to \$1,570,000.
11. In 1917, 1918 and 1920 Legislatures there were 178 appropriation bills passed, totaling \$10,522,253.00. Of this amount Senator Pierce voted for \$10,075,166.00. Now taxes voted by the people on the tax-rolls of Oregon in 1917 and 1920 amount to \$4,967,913.00. Mr. Pierce voted to submit everyone of these measures.
12. In his mad advertising, Mr. Pierce says: "We saved \$10,000,000.00 in funds for the soldier boys. Senator Smith and I introduced the bill." The only bills voted for soldiers were voted under the bonus measure, and Mr. Pierce was not even a member of the Legislature when the bill was introduced and submitted.

THE APPEAL TO WAR VETERANS.

13. While Mr. Pierce is now making an appeal to the war veterans for their votes, they should not forget that he accepted \$125 per hour for his services as a member of a Draft Exemption Board, although the instructions to draft board members specifically stated that this appointment was intended to cover the cases of members who were not financially able to serve otherwise. Mr. Pierce's property is assessed at \$200,000 and his receipts from the draft board exceeded many soldiers' entire bonus.
14. They should not forget that while voting millions of dollars for appropriations for most everything under the sun, Mr. Pierce voted against an appropriation of only \$300.00 to make Camp Whitehouse fit to receive the Oregon soldiers, on the eve of their entry into the war.
15. They should not forget that in 1918, during the war period, Mr. Pierce made a mud-slinging campaign against Hon. James Whycombe, Oregon's second war Governor.

PIERCE AGAINST CRIMINAL SYNDICALISM ACT.

16. They should not forget that Mr. Pierce is the only senator in Oregon to vote **Against the Bill for a Criminal Syndicalism, Substantive, and I. W. Wism.**
17. They should not forget that Mr. Pierce was absent when the vote was taken upon the "Red Flag Bill," which bill was being sponsored by all patriotic organizations, and being fought by the national element of the State.
18. They should not forget that Mr. Pierce was a member of the committee that met behind closed doors in Portland for the purpose of organizing a Non-Partisan League in Oregon.

PIERCE'S HIGH FINANCE

19. In 1902, by the use of false trustees of the property of near relatives and friends, by false ownership, and by false affidavits, Mr. Pierce made a deal upon the Irrevocable School Fund, and when the rules of the State Land Board planned specifically that not more than \$100,000 of that fund should be loaned in any one individual, Mr. Pierce secured a total loan of \$200,000. In making application to the State Land Board for the loan, each individual swore upon oath that he was the owner in fee simple of the premises offered as security, and had paid cash in the same. Mr. Pierce held this money for 12 years, though the law provides that in any event money loaned in a bond fund cannot be held longer than 10 years. During this time, Mr. Pierce was loaning money at 8 per cent, making a profit of 2 per cent upon the money he held be-

longing to the Irrevocable School Fund. This is a sample of Mr. Pierce's demonstrated interest in the welfare of the small farmer, who needed this cheap money often during that twelve year period, as compared with his present vote-casting tactics.

PIERCE'S ROAD TAX

20. Mr. Pierce proposed a measure (which was defeated) which would levy a tax of a million dollars or more each year to pay the road bonds issued by the State, and which bonds are now cared for by the automobile license and the gasoline tax. Mr. Pierce Proposed to Relieve the Man Who Uses the Road Most From Paying for the Same, and Put the Burden Upon the Home-Owner.

INTRODUCING MR. OLCOTT

Bob W. Olcott, as Secretary of State, and as Governor, has made a record for economy and business efficiency that should appeal to every tax payer in Oregon. Various measures of economy which he has personally introduced into the State government, or recommended to the Legislature for enactment into laws, have saved the State hundreds of thousands of dollars, and will continue to do so for years to come. The change in the State Census Law saves the State \$10,000.00 a year.

MR. OLCOTT'S RECORD

1. His change in the State Secretary's report has saved many thousands of dollars since he introduced it in 1912.
2. His renovation of the penitentiary saved the State nearly a half million dollars.
3. He secured funds for a new training school building for boys, without a single dollar of additional taxes.
4. He is the author of the Oregon Blue Sky Law, which saves Oregon people millions of dollars annually.
5. He was responsible for stopping of junketing trips by State officials outside the state at State expense.
6. He secured legislation giving workers more adequate compensation, under the Workman's Compensation Act.
7. He secured approval of a plan for industries in the State penitentiary, which is enabling prisoners to help support their own families, thus saving this expense to the State.
8. He secured the passage of a budget law effecting large economies in State government that would not otherwise be accomplished.
9. He inaugurated the movement leading up to the organization of the National Narcotic Control Association.
10. He has scrupulously stood for law enforcement without fear or favor, and has always lived up to the oath he took to uphold and defend the constitution of the United States and of the state of Oregon, and to see that all citizens, without regard to race, color, or creed, received a square deal, and enjoyed the blessings of liberty guaranteed to all by the basic laws of our land.
11. He has been unswervingly consistent for the welfare of his official appointments.
12. He is responsible for a movement to improve farming operations connected with the State institutions so that this year the produce from these State farms brought a return of \$491,611.
13. During his administration, the Co-Operative Marketing Law has been widely extended so as to be of real value to the farmers.
14. He is the originator of the Oregon Blue Book.
15. He has ever been the friend of the executive man, and warmly supported and advocated the Home Measures, and since its adoption, has administered that law in the interests of the executive men with singular honesty and efficiency.
16. Mr. Olcott and the republican legislative candidates favor and are committed to the State Food Program as outlined in the Republican State Platform, which includes the early completion of the **Booster Highway, The Inland-California Highway, the John Day Highway, the Oregon Trail, and the Central Oregon Highway.**
17. No breach of scandal has ever attached to any of Mr. Olcott's official acts, and he has served the people faithfully, conscientiously, and well.

REAL TAX REFORM.

18. Mr. Olcott has appointed a committee to make a thorough study of the work of commissions and bureaus in Oregon with a view to consolidating as many as possible, and abolishing all that are useless. This committee will be ready to make its report at the next session of the Legislature.
19. He is pledged to equalize the tax burden, and with the Republican Legislative candidates, pledged to bring to the assessment roll exact amounts of property, real and personal, now paid therefrom, to cost in the State Tax Department, also placing taxes to effect equal primary assessments; to provide an effective budget system for counties; to provide for water power development; to provide a plan for equitable distribution of the State's outstanding bonded indebtedness, as well as other real tax reforms.
20. Mr. Olcott took the first really constructive step that has been taken in Oregon for that purpose of reducing and equalizing the tax burden by securing from the Legislature permission to appoint a tax investigating committee to make a thorough and exhaustive study of Oregon's tax situation. This investigation has been made and the report is in the course of preparation, and has been submitted to the Legislature. It will contain all the information obtainable in Oregon upon the tax question, and enable the Legislature to proceed in a sane, conservative, constructive manner to tackle the great problem confronting the people of Oregon, which method we believe most appeal to sane, conservative taxpayers as being far preferable, and giving the more promise of securing results that the useless assembly and the non-partisan candidate, of the democratic party, especially in the light of his record as the champion "tax producer" in the state of Oregon.
