DEEP VALUES AT THE CORNUCOPIA

It is with considerable satisfaction that the Morning Democrat is able to announce to the mining world additional splendid results in deep development of the mine of Cornucopia, says the Democrat of yesterday.

A few days ago the Democrat recorded the highly important achievement made by the Cornucopia Mining company and now comes the Gold Reef Mining company, owning the Queen of the West and other mines with results that are most encouraging. A few days ago the ledge was hit in the 2000-foot level and at a depth of 1500 feet in a diamond drill hole at an angle of 40 degrees. The width of the ledge and the values in the ore will be determined shortly. A 200-foot upraise will be the next movement.
