

TAX REDUCTION FOR OREGON

Internal Revenue News Bulletin Tells of \$4,399,252.51 Savings for State of Oregon.

PORTLAND, Nov. 6.—According to a special survey of the cancellations and decreases in tax rates provided by the Revenue Act of 1921, completed today by Clyde G. Huntley, collector of Internal Revenue, reductions in federal taxes which are effective for the current year will save Oregon taxpayers the enormous sum of \$4,399,252.51.

"The reduction in taxes for 1922," explained Collector Huntley, "is approximately as follows: Income tax \$1,820,000; transportation tax, \$2,113,479.81; sales and luxury tax, \$465,802.70. Of the \$1,820,000 income tax reduction, \$1,200,000 is distributed among 43,650 taxpayers with incomes of less than \$2,000, and \$620,000 applies to taxpayers on larger incomes, while \$160,000 affects property valuations. The new exemptions allowed under the act for dependents is now \$250.00 and \$400.00, which means an increased exemption for a married couple with one dependent of \$700, or a tax saving of \$28.

"The relief afforded by the decreased taxation affects every Oregon taxpayer who travels, pays freight, sends an express package, buys a Pullman berth, takes a drink of soda water, or who has a taxable income. In other words, the relief extends to all classes. The saving in transportation tax is distributed as follows: Freight, \$1,971,258.81; express, \$4,704.95; passenger, \$1,037,486.05. The saving of \$465,802.70 in the sales and luxury tax is made up of the following items: Wearing apparel, \$208,844.84; perfumes, cosmetics and patent medicines, \$68,595.10; soda fountain, \$188,562.76.

"The saving in transportation tax of \$2,113,479.81 represents only the tax collected by the office in Portland. In addition to that amount all such taxes paid by residents of Oregon to the Southern Pacific, to the Pullman company, and to the several express companies, were paid by those companies in the districts where the head offices are maintained, so it is reasonable to suppose that the actual saving on account of this tax to the people of Oregon aggregates \$2,000,000.

Practically the only so-called luxury tax now remaining is that on admissions to theaters and other places of amusement, and this tax has been in effect since 1917. Even in this tax there has been a considerable saving for the reason that admissions of 10 cents or less are not now taxable. Furthermore, the 1921 act relieves from the payment of this tax the American Legion and associated women's auxiliaries which have heretofore paid the same.

Notwithstanding this state confronts a reduction of more than \$4,000,000 in federal taxes annually. Collector Huntley predicts that the additional revenue in the form of increased incomes assured by the marked expansion in all lines of business in Portland and throughout the state will eventually absorb the \$4,000,000 wiped out by the last revenue act.

TO DARKEN HAIR
APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and lustrant. Just a few applications will give a reflection of your hair is looking, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients. While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and lustrant.

OFFICIAL Election Returns At Rex Hall, Election Night

This is an election when people are deeply interested in the results and, in order to care for the public in a large way, the Official Election Returns will be received by wire and telephone in Rex Hall on election night.

There will be plenty of seats in the balcony and on the floor for those attending and in the early evening as returns are coming in slowly there will be music by a first-class orchestra and those who so desire may dance.

Announcements of every telegraphic report will be made from the balcony as the returns are placed on the chart.

The interest in the two gubernatorial candidates is intense, as is also that in the School Bill, and the returns will be kept coming until the results of the election is known.

Prepare to attend. There will be a nominal admission charged to defray expenses.

ELECTION NIGHT AT THE REX HALL

It Can't Be Done

No engineer, surveying a mountain that was to be climbed or pierced, ever said "it can't be done." The remark is, however, all too common. Money and bank credit cannot do everything, but they make easy the doing of many things otherwise difficult or impossible.

Open a bank account and translate "it can't be done" into "I will do it." A proper bank connection is a first step toward the mastery of business problems.

Three Peaks Out of One.
Remnants of the ice age are particularly interesting in the Rocky Mountain National park, where huge valleys have been plowed out through countless ages, possibly 5,000,000 years ago. Glaciers transformed what was a single mountain mass into three peaks—Long's, Meeker and Lady Washington—as they are known, with Long's rising to an elevation of 14,255 feet, or nearly three miles above sea level.

For Joint Senator

Umatilla, Union and Morrow Counties

Henry J. Taylor

The name of Henry J. Taylor, pioneer farmer of Umatilla County, will be on the Democratic Ticket as the farmer candidate for Joint Senator. Mr. Taylor is a consistent advocate of

Tax Reduction

and says it can be accomplished if we have legislators who will honestly try to do so. He favors the strictest economy in the expenditure of the people's money and liberal support of the Public Schools. He is opposed to the

School Monopoly Bill

for the reason that its adoption will mean the outlay and expenditure of about \$2,000,000 for additional school buildings and equipment, and an annual expense for interest and maintenance of about \$200,000 more, in addition to the already intolerable load of taxes now upon us and for the reason that it would destroy parental authority and deprive the citizens of the constitutional guarantee of religious freedom and of the right to give their children a religious education in addition to the education afforded in the public schools. A vote for Henry J. Taylor is a vote in the interest of every freeman in the Senatorial District and in the State of Oregon.
