You may have been wearing the wrong corset all your life without knowing it.

IT is a very subtle art, is proper corsetry, and many women have gradually lost the grace and buoyancy of youth and taken on the settled, rigid lines of maturity because they have continued to wear a corset ill-suited to their particular needs.

Are you *sure* the corset you are wearing is the right corset for you? Your first

GOSSARD
Front Lacing
CORSET

scientifically designed, skilfully chosen and properly fitted, may very probably mean a total change in the way your dressmaker looks at you—and the way you look at yourself.

Our experienced and capable corsetieres will assume full responsibility for your satisfaction.

WILL LET SEA LIONS REMAIN

(By Associated Press)

PORTLAND, Nov. 17.—To check if possible the destruction of sea lions off the Oregon coast by men working under the direction of the state fish commission, an investigation of the feeding habits of sea lions has been ordered by E. W. Nelson, chief of the bureau of biology, Washington, D. C., according to Ray C. Steele, federal game warden for Oregon and Washington.

The direct purpose of the investigation, according to Steele, is to save if possible the thousands of sea lions off the Oregon coast rocks as part of the wild life of the state. They constitute one of Oregon's natural resources, it is said, and should in time become a tourist attraction.

Killing of the animals has been going on for two or more years under the direction of the state fish commission, it being believed they caused considerable menace to the salmon industry. Their food, according to Steele, was believed to consist principally of salmon.

Two hundred or so sea lions will be killed under Steele's direction at various times during the coming year, and the stomachs will be sent to Washington, D. C., for examination. If it is found that evidences of salmon in the stomachs are wanting, steps will be taken by the bureau of biology to check the slaughter of the sea lions.

Daily Thought.

Oh God, that bread should be so dear, and flesh and blood so cheap! —Thomas Hood.

For Sale

Eight-room house, modern, big lot 85x140, house faces east. The location and arrangement of the house are just right to rent the upstairs room without interfering with the privacy of the ground floor. The price and terms are right.

Four-room, city water, electric lights, close in. Price $800. Terms, $150.00 cash, and balance like rent.

Seven-room house, modern, large lot, 100x100, garage, lawn, trees, shrubbery, good cellar. Price $2800.

Five-room modern home, close in on 5th street. Price, $2,600.00.

Seven-room modern house, four lots, good barn, woodshed. Price $2,250.00.

POLAND'S GRID STARS VICTORS

(By Associated Press)

WARSAW, Nov. 17.—Poland's recent victory over Jugoslavia in their first international association football match has filled Polish sporting circles with pride. Already they foresee the Polish flag run up on the pole at the Olympic games in Paris in 1924, as a token of victory in the football games.

The Polish team went to play at Zagreb minus some of its best members, and the man had to jump into the game immediately upon leaving the train. Yet the Poles won three to one.

The Jugoslavs were prime favorites, having already defeated Swedish, French and Czechoslovakian teams this season.

OXYGEN AIDS

(By Associated Press)

TOKIO, Oct. 15. (By Mail).—A method of transporting live fish long distances has been discovered by Dr. Chiyomatsu Ishikawa, professor of the Tokio Imperial University, by infusing a quantity of oxygen in the water of boxes doubly lined with zinc in order to prevent leakage. The method proved successful and will be again tried with "aya" a kind of trout which it hitherto has been believed impossible to transport alive. It is very important for the Japanese people to obtain fresh fish, one of the national dishes being raw fish.

Island Brings Bride Luck.

A romantic superstition has earned for Norfolk Island, in the Pacific ocean, the nickname of "Honeymoon Island." It is believed that a bride who spends her first month of married life there will be assured of long life, health, wealth and happiness.

Baking Powder—
that's the big thing in successful baking

It determines failure or success in baking, more than any other ingredient.

If you do not *always* have satisfactory bakings, change to Calumet for just one trial.

It is pure; containing only such ingredients as have been officially approved by U. S. Food Authorities.

Within the Calumet factories — the largest and most sanitary on earth—hundreds of skilled workers clad in white are busily engaged in producing the baking powder that is used by millions. Human hands never touch it. Its sale is 2½ times as much as that of any other brand. Pure in the making—pure in the baking.

A pound can of Calumet contains full 16 ounces. Some baking powders come in 12 ounce instead of 16 ounce cans. Be sure you get a pound when you want it.

BEST BY TEST

THESE THREE VITAL FACTS DETERMINE YOUR POWER AND ECONOMY

It's probably wear or inaccurate fit in the piston rings, pistons and pins which is responsible for the loss of power and waste of gas in your car. Power and economy really depend upon three vital units.

All that many motors need to restore their maximum power and economy is McQuay-Norris Piston Rings. There is one to fit every pocketbook, but car owners who think more of permanent economy and satisfaction than of initial cost find that the combination of Leak Proof Rings for power and Superoyl Rings to prevent oil troubles is their best investment. All McQuay-Norris Piston Rings are made of Electric Metal.

If the cylinders of your motor need reboring, you want a set of McQuay-Norris Wainright Pistons and Pins, as well as McQuay-Norris Rings. They are handled by the same repairmen, service stocks and jobbers.

Your motor can be made practically as good as new for a fraction of the cost of a new car if its three vital units are replaced with McQuay-Norris Products. Write us for booklet "To Have and to Hold Power," which explains the whole subject of motor wear and its correction.
