Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

### Health Brings Beauty

A Pretty Skin Follows Good Blood

Washington,—"When I was about fourteen years of age I had an operation for appendicitis and the doctor said it would retard development until I was 18 or 19 years of age, but I heard how good Dr. Pierce's Favorite Prescription was for young girls so I took four bottles of it and came into womanhood within a year. Then I started getting healthy and strong. Before I took Dr. Pierce's medicine I weighed only 72 pounds—now I weigh 107. Later in life I took a breaking-out on my face. I wrote to Dr. Pierce and he advised me to take the 'Golden Medical Discovery'. I took two bottles of it and my skin is as smooth as I could wish for. I would like to tell every sufferer about Dr. Pierce's great medicines."—Miss E. L. Carrell, Box 24.

Write Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for free medical advice or send 10c for trial package of any of his medicines.
