

FEEDING IS MOST IMPORTANT IN GETTING PROFITS FROM POULTRY

Profits Are Greater When Houses Are Kept in Sanitary Condition.

(Prepared by the United States Department of Agriculture.) Next to good breeding and health, good feeding is most important in getting profitable yields from the poultry flock.

Principal Grains Used. The principal grains fed to poultry are corn, wheat, oats and barley. Corn and wheat are the most popular. Corn is the best and most economical single feed, but is very fattening and should always be used with some other grain.

Methods of feeding differ, but good rule to try to follow is to have empty crops in the morning and never have them quite full until it is time for the chickens to go to roost. For the first feed, grain scattered in the litter in the morning is best, the sooner after the birds leave the roost the better.

Indicates Health of Fowl. The condition of the droppings is a good indication of the hen's health. They should be of enough firmness to hold their shape, but not solid. The normal color is dark, standing off into grayish white.

DO HAVE THE WIFE OF YOUR DREAM? ALL THIS MY DEAR MRS. LUND HAS TO SAY FOR THE LODGE REARBY REPORTS THERE IS LEFT OVER.

News In Brief

Pendleton where he will spend a few days visiting.

at Portland—Mr. and Mrs. J. E. Stiles, of La Grande, left last evening for Portland where they will spend a few days on business trip before returning to their home.

Here from Enterprise—A. Lury, who makes his home in Enterprise, arrived in the city recently on the branch line train, and is here today attending to some business matters. He is stopping at the Foley.

Met with in Portland—From Joseph, Ore., to Portland in 15 hours is the time made by Mrs. P. D. McCully. Accompanied by the Williams county court, Mrs. McCully took the wheel and covered the 275 miles without touching the speed lever or even exceeding 25 miles an hour. It was not the intention originally to push through in a day but when the party had dinner at The Dalles at 5 p. m., it was suggested that they might as well go on to Portland. The only trouble experienced was when reaching Crown Point. A dense fog hung over the Columbia river highway and the spotlight and headlights were almost useless, as the fog swallowed the glare. In this predicament the county judge and two county commissioners got out of the machine and walked ahead, carrying flashlights to see when the road was and Mrs. McCully drove slowly at the heels of the officials. The party also stopped for a night in getting over back out of the ditch. Mrs. McCully says she did not realize what good running time she was making or she could have brought the crowd to the Imperial several hours earlier. The Old Oregon Trail, over the Blue Mountains, at Kautela, is almost completed, there being about a mile more to do, according to the Williams destination. Considering the time of year, the roads the entire distance between Portland and Joseph are in splendid condition—Oregonian.

Pyke to Speak—E. Pyke, Secretary of the M. L. A., will deliver a lecture before the M. L. A. at the Tabernacle to-night at 7 o'clock. All are cordially invited to be present.

Invitation Meeting—There will be a Social given at the Invitation Army ball Monday night at 10 p. m. to the young people and their parents. Any one wishing to be in the Sunday school is cordially invited to attend. This will be free.

City Club Re-Organizes—The Cove Dairy Head Roped club organized in preparation for their 23rd work. They specialize in milking and study of dairy cows. George Mills was elected president and after Daren as leader.

From Union—Dave Stewart, of Union, had formed of La Grande, arrived in town this morning and is spending the day as visiting with his parents Mr. and Mrs. D. H. Stewart.

Prkeley Duo—W. J. Robinson and Jack Stone, of Prkeley, arrived in the city this evening and are spending the day attending to some business matters. While in town they are guests at the Savoy.

Six Men in Town—Ray L. Davidson and Lloyd David, both residents of Helix, arrived in La Grande yesterday and were tonight guests at the Savoy. They are here on business.

From Union—Mrs. S. E. Miller, and children, of Union, motored to La Grande this morning and spent several hours in a city shopping before returning to their home.

Improving Rapidly—Horley Drey, a brakeman on the W., was taken suddenly ill yesterday with acute appendicitis and was at the station by his brother last evening when the train came in, then rushed to the Grande Rondo hospital where an operation took place. Reports received this morning state that his condition is very good and that he is recovering rapidly.

MAN FINDS TUSK IN HIS WOODPILE

CORVALLIS, Nov. 25.—A peculiar "stick" discovered by Curran Turbaine of Corvallis in his basement woodpile, has been identified as part of the tusk of a prohibitive elephant, by Dr. John E. Horner, director of Oregon historical research at the Oregon Agricultural college.

The stick is round, three and a half inches in diameter, 13 inches long, and has been sawed off at both ends, indicating that there are at least two more pieces of the same kind. It was at first mistaken for petrified wood, but on exposure to heat it omitted an odor which clearly proved it was not of vegetable origin but was composed of animal matter—a piece of well preserved ivory.

Elephant remains are quite common in the vicinity of Kiger island, but none so well preserved has hitherto been discovered in that locality. Dr. Horner said, "He is of the opinion that the ivory may have been imported by Indians or others from some other region, and was subsequently mistaken for wood and finally sold for fuel."

Thought for the Day. The fellow who is fired with enthusiasm for his work is seldom fired by his boss.

Nature's Law. Fishes live in the sea, as men do land; the great ones eat up the little ones.—Shakespeare.

THESE THREE VITAL FACTS DETERMINE YOUR POWER AND ECONOMY. It's probably wear or inaccurate fit in the piston rings, pistons and pins which is responsible for the loss of power and waste of gas in your car. Power and economy really depend upon three vital units. All that many motors need to restore their maximum power and economy is MeQuay-Norris Piston Rings. There is one to fit every pocketbook, but car owners who think more of permanent economy and satisfaction than of initial cost find that the combination of Leak Proof Rings for power and Superoyt Rings to prevent oil troubles is their best investment. All MeQuay-Norris Piston Rings are made of Electric Metal. If the cylinders of your motor need regrinding, you want a set of MeQuay-Norris Wainwright Pistons and Pins, as well as MeQuay-Norris Rings. They are handled by the same repairmen, service stocks and jobbers. Your motor can be made practically as good as new for a fraction of the cost of a new car if its three vital units are replaced with MeQuay-Norris Products. Write us for booklet "To Have and to Hold Power," which explains the whole subject of motor wear and its correction. We Can Give Immediate Service. Leighton's Welding & Machine Works. La Grande, Oregon.

Pajamas and Night Shirts. GUARANTEED wear of a Nation famous line of Faultless ones, mercerized cotton, to 20 in \$1.75 to \$9.85. Pajamas in mercerized cotton. Act from for Christmas. CLOTHIERY. ARE WITH A CONSCIENCE.

"Onyx" Hosiery. "Pointex" French & Greene. The Reflection of Perfection. The cleaner of wallpaper and kalsomined walls is here, much cheaper and quicker; cleaning compound for sale.
