TAIRY MAKES AN AWFULERIOR

HITCHFIELD, Me. Nov. 5.—R. Anderson drowned the kittens, and their mother went in search of substitutes. What's more she found some. They had white stripes down their backs and their tails were a little too bushy, but that didn't worry Tairy.

She annexed them, much to the disgust of their mother. The cat and the "kittens" started for Tairy's home, and the mother followed. When R's house was reached the "kittens" mother made a protest, such as only her kind can.

She shut the cat and the foundlings and opened all the windows, while he got out the camphor bottle.

If Back Hurts Begin on Salts

Flush your Kidneys occasionally if you eat too much meat.

No man or woman who eats lots of meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Too much meat may form uric acid, which clogs the kidney pores so that they sluggishly filter or strain only part of the waste and poisons from the blood. Then you get sick. Rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to activity; also to help neutralize the acids in urine so it no longer causes irritation, thus often ending bladder disorders.

Jad Salts is inexpensive and can not injure; makes a delightful effervescent lithia water drink, which everyone can take now and then to help keep the kidneys clean and the blood pure, thereby often preventing serious kidney complications.
