Stork Arrives—About 9:30 o'clock last evening the stork arrived at the home of Mr. and Mrs. Paul Mabee and presented them with a six and one-quarter pound baby girl. Both mother and daughter are getting along very nicely and the proud father is accepting the congratulations of his many friends with an ever present smile.

Ladies Bazaar—Realizing that there are always numerous demands for the right kind of hand-made articles, suitable for Christmas gifts, the ladies of the Catholic church have been preparing, during the past several weeks, for a one-day sale of practically every kind of fancy articles that they feel will make a person happy to give as well as to receive. The sale, during which it is to be served a hot chicken tamales lunch and supper, will be held on Saturday, December 16th, at the Eagles' hall, next to the Elks' club. According to those in charge it has been the particular aim of the ladies to have articles of only such character, quality and price as will insure a rapid disposal of every piece on hand, and thus prevent the necessity of continuing the sale beyond the one day.

CROSSES HILL TO SEE BABY

Father, Upon Hearing of Newborn Son, Walks Over Mountain to Greet New Arrival.

UNION, Dec. 7.—Mrs. Lola Wigginsworth, wife of Frank Wigginsworth, of Hayton Flat, has been visiting her parents, Mr. and Mrs. Charles Vanorder. While enjoying her visit the stork eventually found her, and left a healthy boy of eight and one-half pounds. Now it is reported, Lola will have to extend her visit after Christmas, Frank, the father, jubilant over the telephone message walked across the mountain to see his little stranger. The only thing to mar the happiness of Lola, the mother, is that she is worrying about the father at home, that he might lose control of himself over his great joy. At any rate, all are doing fine.

The first real snow came at last, about six inches covering the ground. This makes ideal sledding.

The men from Medical Springs were down repairing the telephone line this week.

Thanksgiving day was passed very joyfully by the several families gathered in groups here and there, all eating of the good things usually offered on the well filled tables of the Park. All are thankful more or less in this region, as all seem to thrive very well.

Gay McNair is now living in Union for the winter. His work as a fire tender and warden being at an end, he will spend the winter at ease and comfort.

All is well at the Park and in the vicinity of Collins Creek. Winter has set in and all are prepared for the usual long snow months. Culture is full and the "goose hangs high."

Beginning in 1903 interleague games between American and National league teams have resulted in the Americans winning 187 games and the Nationals 148.

a good reason

for using it is the same old reason of economy. Crescent has more leavening power, so you can use less. A level teaspoon to the cup of flour is enough. You can use more if you wish as Crescent does not cause bitter taste. A good test is to dissolve a teaspoonful in water. You'll find only the natural, slightly salty taste. At all grocers.

ENGLISH COAL IS DECREASING

CITY-Associated Press
LONDON, Dec. 7.—Coal production in England has dropped 124,000,000 tons, or about 40 per cent since 1912. The heads of the coal miners unions declare that the decrease in the production is not due to the lack of supply, but to the fact that the mine owners are closing down entirely or partially as a means of forcing the unions to make concessions in the matter of wages and hours.
