**AN OLD RECIPE TO DARKEN HAIR**

Sage, Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy

Almost everyone knows that Sage and Sulphur, properly compounded will bring back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays we simply ask at any drug store for "Woolly's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation today, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. Your dandruff is removed or soft brush with it and do so through your hair, taking out small strands at a time; by morning the gray hair disappears, and after another application or two, your hair becomes luxuriantly dark, thick and glossy and you look years younger.
