HEACOCK BRINGS STANGE RADIO

Dr. O. M. Heacock, the oldest radio man west of the Rockies, that is the man who has had longest experience in radio (not oldest in years) arrived in La Grande last evening from his home in Enterprise with the very latest radio equipment which he constructed for the August Stange home.

It is the last move in the mystic machine which reaches into the air and sets the speaker word and the doctor says it has more power than any machine made to his knowledge.

It will be attached to the 100-foot aerial just completed by Mr. Stange and this evening or tomorrow the stock brokers of New York may be heard calling off their board of trade quotations, while a turn of the indicators may bring the tread of the song of the Canadian mounted police as they shamble through the gorges after the festive lawbreaker of that country.

La Grande has been bitten by the radio bug and the entire population is deeply interested in developments. It happens that Dr. Heacock, pioneer radio man and builder of sets, is located at Enterprise close at hand so that La Grande people using the Heacock sets will always have him to rely on in case of trouble.

The objection to installation of radio sets in the past has been that the set was shipped to the city without personal supervision in setting and results have not been good from any angle except the Heacock sets.

During luncheon, directors will meet in closed session for election of officers for ensuing year.

Taking Desperate Chances.

It is true that many contract severe colds and recover from them without taking any precaution, or treatment, and a knowledge of this fact leads others to take their chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality, makes the system less able to withstand each succeeding attack and paves the way for the more serious diseases. Can you afford to take such desperate chances when Chamberlain's Cough Remedy, famous for its cures of bad colds, may be had for a trifle?—Adv.
