BIG BOUNTY PAID
(By Associated Press)
OGDEN, Utah, Jan. 12.—Bounty of \$250 was paid by state officials here to W. F. Colvin, rancher, who brought in the pelt of a prairie wolf which when killed weighed 180 pounds. Colvin said he caught the animal in a steel trap on his ranch twenty miles east of Ogden. The trap was baited with a lamb the wolf had killed the night before. Colvin said that during December the wolf had killed twenty of his sheep and for over three years had ravaged cattle and sheep flocks in the vicinity of his ranch.

FACING WILD BULL
SOFT? GUESS AGAIN

Rodolph Valentino in Real Danger in "Blood and Sand." At the Arcade.

Movie acting is certainly a soft job! For instance, all Rodolph Valentino had to do for a solid month was to get out in front of a mean bull and wave a red cape in his face. Easy—sure—but Mr. Valentino wasn't bothered with a tremendous lot of company during the time required for these warm and interesting scenes.

"Blood and Sand," Mr. Valentino's first Paramount starring picture, was adapted by June Mathis from the Vicente Blasco Ibañez story of Spanish life. It is a Fred Niblo production, directed by the maker of "The Three Musketeers."

Scenes in the bull-ring at Madrid with Mr. Valentino as a popular torreador provides many opportunities for sensational dramatic moments. The color and nerve of the famous Spanish sport are shown minus the features that are repellent to American ideas. "Gallardo" is considered to be Valentino's most vivid and colorful characterization since his "Julio" of "The Four Horsemen of the Apocalypse."

SHERRYS—LAST DAY OF HARRY CAREY

All of Harry Carey productions of the past, among which have been some mighty good ones, are excelled by his latest production—his second under the auspices of the Film Booking Office of America. It is called "Good Men and True," is founded on the story of the same name by Eugene Manlove Rhodes and was revealed for the first time at the Sherry Theatre yesterday.

"Good Men and True" gives Harry Carey a role that fits him as snugly as a rubber skull cap fits the head of a bather. It is a part that he can play with far better effect than any other star now on the screen. He is a cowboy, of course, but this time is a candidate for sheriff, backed by the better element of a western town and opposed by a vicious faction that would throw the community open to the forces of evil.

The love interest is furnished by his admiration of the daughter of his chief political backer. The girl is Viola Vale, that always charming brunette who formerly played opposite Wm. S. Hart in his western dramas and won thousands of admirers the country over. The romantic element is one of the outstanding factors that make for the extraordinary success of this latest Harry Carey vehicle.

Also showing "Screen Snap Shots" and "Felix Minds the Baby," comedy.

SHIPPING COMPANIES SEEK SAFETY RULES

LONDON, Dec. 25. (By Mail).—Since the sinking of the steamship Egypt last May, with the loss of over 100 lives, British shipping companies have been endeavoring to work out a system which would prevent confusion in the event of passengers having to take to the boats, and British lines are keenly interested in the experiments in this direction made by the French Messageries Maritime company.

As oil lamps do not give enough light during the confusion occasioned by a shipwreck, and as electric lights are apt to go out when the dynamo is flooded, it is planned to paint all safety arrangements with luminous paint of a new type which will resist climate and weather.

The latest regulations for safety at sea which are generally followed by the leading companies, provides that a passenger liner should have an emergency electric lighting set on the upper deck, where the water cannot get at it until the ship actually goes down.

BAKER WOMEN FINED

BAKER, Jan. 12.—Three women operating lodging houses in Baker were fined \$100 each in police court this morning and given 30 days to leave the city. Each was docketed as "Jane Doe." Their establishments were held disorderly by the new city administration and the movement seems to be in full swing to rid the city of undesirables in a cleanup campaign.

Where thickness of a Hair Equals a Mile

THE hair of a human head averages from two to three thousandths of an inch, and if motor service shop work is based on accuracy so coarse as a "hair's breadth," only poor results can be obtained.

Automobiles may be designed alike, and look the same, yet one, because of precise fits, has more power, speed and less vibration. When pistons and cylinder bores are held to limits of one thousandth plus or minus, it means that often a piston .001 undersize goes into a bore which is .001 oversize and, in case of a three-inch piston, instead of having a wall of bronze of .001 net for each inch of piston diameter, it has .002 and becomes an "oil-pumper" an error of less than an average hair's breadth, yet, the results could have been no worse had it been a "mile."

Avoid errors as broad as a hair and for closely fitted pistons and perfectly ground cylinders have your repairmen bring your cylinder block to us for regrinding and piston assembling.
