"ONE WEEK OF LOVE" AT THE ARCADE

"One Week of Love" which comes to the Arcade Theatre today, will be a rare treat for all, but most of a treat to those who have been writing, hearing, and reading the Scribner Pictures Corporation to play Conway Tarrle and Elaine Hammerstein together in one picture. Ever since these two popular players achieved fame and fortune in the world of cinema, Mr. Lewis J. Selznick has been searching for a story in which he might employ their combined talents. At least ten thousand manuscripts passed through his hands before he finally picked Edward J. Montague's "One Week of Love" as the final choice. Mr. Selznick's choice will cause thousands of hearts to flutter with excitement from Portland, Maine, to the other Portland that fronts the Pacific.

Here is a story that employs a kiel in every foot, rising steadily to the champion climax of the last ten years. It is a glorious battle between a Sheik of the Sierras and a Society Queen, the Crude vs. the Effete, and in the end both are winners. You will love the "Sheik of the Sierras" more than any Sheik you ever saw for he is a white man through and through, who speaks with deeds and not with rolling eyes. Who but Conway Tarrle for this part? What other actor in the world could bring the necessary brain and brawn to this hero's role?

As the Society Queen who flows as high over the Western mountains as she does the effete drawing rooms, Elaine Hammerstein is unquestionably at her charming best. A girl who was a moment being guided an airplane as guiding a social career was necessary for the role, an actress who combined red and blue blood, who could dance the latest steps at social functions and stomp with those some didn't feel the most difficult mountain passes. And Mr. Selznick chose, of course, "The Star Without a Failure"—Elaine Hammerstein.

Conway Tarrle and Elaine Hammerstein probably provide one of the most sensational combinations yet provided in pictures.

AT SHERRYS "THE FACE IN THE FOG" Lionel Barrymore and Seena Owen, two of Cosmopolitan's leading players, appeared to advantage in "The Face in the Fog," a Paramount picture which opened at the Sherry Theatre yesterday.

"The Face in the Fog" pictures the flight of the Grand Duchess Tatiana from the Russian Bolsheviks. Bringing crown jewels to America, she is followed and overtaken in New York where the lady Baron Black Dawson (Lionel Barrymore) is providentially enlisted. This situation develops a series of thrilling chases, fights and tricks which keep spectators continually on their toes.

"The Russian" atmosphere in the picture is created and kept true with faithful accuracy. "The Face in the Fog" features a number of favorites. Besides Lionel Barrymore, Seena Owen, and Lowell Sherman are Louis Wolheim, George Nash, Mary McLaren, Macey Harlam, Gustave Von Seyffertitz, Joe King, Tom Black, Marie Burke, Joseph Smiley, and Martin Faust.

Also showing a comedy, "A Man, A Boy, A Dog."

Remember the barn dances when you were a kid? See "The Old Homestead."

COMB SAGE TEA INTO GRAY HAIR Darkens Beautifully and Restores Its Natural Color and Lustre At Once

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients. A large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of muss.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

IF SKIN BREAKS OUT AND ITCHES APPLY SULPHUR

Just the moment you apply Mentho-Sulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place.

Because of its germ-destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness.

You do not have to wait for improvement. It quickly shows. You can get a little jar of Rowles Mentho-Sulphur at any drug store.

LUMBERMEN OPPOSE TAX BAKER, Jan. 17.—The proposed severance tax by which utilized natural resources of the state would be levied, urged by Governor Pierce in his inaugural address and likely to be fought out by the legislature, at Salem this session, was opposed in a resolution unanimously adopted by the Eastern Oregon members of the Western Pine association who were in session here yesterday. The discussion brought out the general opinion that such a revenue producer would be an injustice to one of the largest industries of the state and concern over the popularity of the proposal was evident. The meeting was attended by a representative group from each of the several lumber companies in this district. W. C. Valder of Baker presided at the session. If somebody in the neighborhood is learning to play one, you wonder how anybody discovered that the cor- general opinion that such a revenue net is a musical instrument.

Where thickness of a Hair Equals a Mile THE hair of a human head averages from two to three thousandths of an inch, and if motor service shop work is based on accuracy so coarse as a "hair's breadth," only poor results can be obtained. Automobiles may be designed alike, and look the same, yet one, because of precise fits, has more power, speed and less vibration. When pistons and cylinder bores are held to limits of one thousandth plus or minus, it means that on a piston .001 under-size goes into a bore which is .001 oversize; and, in case of a three-inch piston, instead of having a wall clearance of .003 .001 for each inch of piston diameter) it has .005, and becomes a "oil-pumper"—an error of less than an average hair's breadth, yet, the results could have been no worse had it been a "mile." Avoid errors as broad as a hair and for closely fitted pistons and perfectly ground cylinders have your repairmen bring your cylinder block to us for regrinding and piston assembling.
