GREAT CAST IN

"THE OLD HOMESTEAD"
The picture "all star" has been much abused, but the cast of "The Old Homestead" which comes to the Sherry Theatre next Sunday, Monday, and Tuesday, may truthfully be said to be of that calibre. Theodore Roberts, George Fawcett, T. Roy Barnes, Fritz Ebleway, Harrison Ford, Kathleen O'Connor, James Mason, Ethel Wales and others make up a list that is hard to surpass.

The Paramount picture is based on DeWitt Thompson's famous play in which that celebrated actor appeared for thirty-two years, but is far more extensive in character and presents a great drama with plenty of comedy and a smashing climax.

The story is familiar—how the son of Uncle Josh is falsely accused of theft and goes away to meet with stirring adventure and finally to be restored home to his sweetheart. But there is far more than that to the story. There is adventure, love, human character in abundance, humor that is rich and spontaneous and pathos that is deep and convincing. Tears and laughter abound.

James Crum directed with discretion and sympathy, this great story which was adapted by Doris Poole Shewhan and Frank E. Woods, screen-played by John Josephson and approved by Walter Woods.

The Banner Bill of the Season will be seen at the Arcade Theatre on Sunday.

A versatile array of talent in a program of sparkling novelties headed by the incomparable Max Freedman who has real novelty for your approval consisting of hand and head balancing, and many difficult gymnastic feats on the balancing ladder.

It is really a wonderful exhibition of muscular development and abnormal strength on the part of both. Gene Metcalfe—there is an old saying that "There is nothing new under the sun," but there is and that, Gene Metcalfe, who furnishes the explosive while presenting one of the surprises of the season, so don't fail to catch this one. She is known as the human dynamo. The Tropical Trio come highly recommended for their abundant and many original, artistic dances and instrumental numbers with special scenery and light effects and pretty girls with fifty costumes. Delonch and Carlin have a fast dancing number spiced with witty songs and sayings which gives them a chance to display their truly wonderful abilities as entertainers.

RUSSIA IS OPEN TO EVANGELISM

(By Associated Press)

CHICAGO, Jan. 20.—Soviet Russia is open to a large evangelistic and reform movement in the Russian church and outside of the Russian church, according to Bishop John A. Nuebel of Zurich, Switzerland, who is in charge of the Methodist Episcopal church activities in Russia and who has recently arrived in the United States after extensive traveling and investigation in that country.

Bishop Nuebel tells of a recent interview with the archbishop of Moscow and the whole governing body of the new Russian church. He was asked many questions regarding the American churches in general and Methodism in particular.

The bishop says: "They told me, 'Our aim is to purge the church of the elements of heathenism and lead the church back to the gospel of Jesus Christ, and to rid it of the stonish idea.'"

"I received two documents from these men, one an invitation issued by the governing body of the church to the Methodist Episcopal church to send fraternal messengers to their next conference which will meet in February 1923, in order to advise and guide them in the building up of their church. The second was one inviting the Protestant churches of America to send fraternal messengers to the church of Russia."

"The board of bishops have assigned three of its bishops to attend the conference in Russia and the Protestant Churches of Christ will also send fraternal messengers."

Where thickness of a Hair Equals a Mile

THE hair of a human head averages from two to three thousandths of an inch, and if motor service shop work is based on accuracy so coarse as a "hair's breadth," only poor results can be obtained.

Automobiles may be designed alike, and look the same, yet one, because of precise fits, has more power, speed and less vibration. When pistons and cylinder bores are held to limits of one thousandth plus or minus, it means that often a piston .001 undersize runs into a bore which is .001 oversize; and, in case of a three-inch piston, instead of having a wall clearance of .003 .001 for each inch of piston diameter) it has .005 and becomes an "oil-pumper"—an error of less than an average hair's breadth, yet the results could have been no worse had it been a "mile."

Avoid errors as broad as a hair and for closely fitted pistons and perfectly ground cylinders have your repairsmen bring your cylinder block to us for regrounding and piston assembling.
