

ELGIN COUPLE IS MARRIED

ELGIN, Jan. 25.—Coming as a complete surprise to their many friends was the marriage on Friday the 19th, of Edythe Beem and Guy Arnold. They are both well known in Elgin, having lived here all their lives. Mrs. Arnold is the daughter of Mrs. Bert Hill. All their friends are wishing them much joy and a happy future life.

Mrs. Sam Knight and daughter, Rosalyn, left on Monday's train for La Grande to spend several days there on business.

Elgin is enjoying a touch of real winter weather, with snow and frost after its balmy weather of a few weeks past.

Ralph Winters and son, Ralph Jr., spent Sunday at the home of Rev. and Mrs. W. A. Winters. They returned to their home in La Grande that evening.

Mr. and Mrs. Dexter Melroy were Sunday visitors from La Grande at the Chandler home east of town.

Mrs. Sadie McNaughton was a business visitor in La Grande this week.

Little Millicent Mayfield left Sunday morning for her home in Enterprise after a visit to her grandmother and Aunt Jennie Mayfield.

The last reports from Mrs. U. F. Weiss, who underwent an operation last week at Corvallis, are that she is recovering satisfactorily.

Mrs. Elizabeth Galloway has moved out to her farm north of Elgin, where she has been spending most of this winter.

J. W. Morrow of Pendleton has been in Elgin several days this past week on business.

E. C. Gettings came in from La Grande to spend the week-end with his family here.

John Yates, Ellis Young and Jay Johns returned Sunday morning to their work in the woods near Palmer Junction and Vincent.

Bush Bellissime has disposed of his barber shop here and left last week for other points. The shop will be managed now by Clifford McCullough and "Brig" Blumerstein.

Julius and W. F. Hug have been making some repairs to the Hug building, mainly in the repairing of the stairway with new steps.

Mrs. Emery Sewell has been visiting for several days with Mrs. Andrew Tucker of Cricket Flat.

Cricket Flat Grange will hold its regular meeting next Friday night, the 29th. This is the first meeting since the organization has been completed, and several new members are expected to apply for membership. State Deputy W. R. Gehlbach will be in attendance and lend what aid is necessary to get the Grange in good running order.

INDIANS TAKE UP SHAKERISM

(By Associated Press)
HOQUIAM, Wash., Jan. 25.—The Shaker religion, one of the strangest in the land, is now embraced by practically all the native Indian tribes of Washington and some of Oregon and British Columbia. The Shakers are a cult of the Christian religion. It is so called from the violent shaking of its adherents.

The Shaker religion of the Indians is said to be entirely a native growth and in no way associated with other Shaker cults. John Slogum, formerly a wealthy Indian of Mud Bay, Puget Sound, is credited with establishing the new form.

In 1881, so the story goes, Slogum contracted a violent illness. The ablest "medicine men" were called in, but despite their effort he grew worse and apparently died. But then, it is said, he revived and told his family that he had died but had been sent back to earth in order to make his soul more fit for spiritual life. He said he had been commanded to build a church and that a religion would be presented to him.

A small church building was constructed and John Slogum was moved into it to receive his religion. While still very feeble, he got out of bed, went through a certain formality and began to shake. He shook violently for several days, and then his strength returned.

(By Associated Press)
LOS ANGELES, Jan. 25.—Los Angeles Chinese have taken up Amherst's national game and a Chinese club now is leading the Los Angeles City League with eight games won and one lost. Baseball fans say this is an accomplishment as the other seven teams are composed of a number of fast players. Several of the Chinese speak very little English.

Queen of Paris Mannequins

Competition among the famous costumers of Paris for the services of Mlle. Binder, most beautiful of France's mannequins, has sent her salary higher than that of many theatrical stars on the French stage.

EL DORADO IS AGAIN QUEST

Four Men to Leave Los Angeles in Spring in Search of Gold and Adventure on Barren Isle.

(By Associated Press)
LOS ANGELES, Jan. 25.—Gold and adventure among the barren, desolate shores of Montserrat Island, off the Azores coast, will be the object of a quest of four men who will leave here this spring, late to brave the North Pacific in a 35-foot launch. With the backing of snow, the 15th expedition, headed by Ralph Trombrower, of Los Angeles, will begin its long trek to the ice north. They will go by Seattle by rail, and then to Cordova, Alaska, where they will charter the gasoline launch that will carry them to Montserrat Island.

Due to the approach of the Japanese emperor which reveals the rocky shores, the island is a barren, desolate paradise. According to Trombrower, it has stood up such strange life as a lot of rockwood, valued at \$500, a hand carved mast of Spanish design, a ton of coal and a box of coconuts.

Already prepared for the cook in the party is a kitchen range taken from one of the derelicts which is rotting on the shore. Headquarters on the island will be in a cabin built by Trombrower on a previous visit. After an extensive hunting campaign on the island, which is said to abound in brown bears, the expedition will leave for the mainland to explore and hunt in the practically unknown wilderness region near Mt. McKinley. Finally they will go to the Matanuska Glacier.

"Few men have ever heard of the Matanuska Glacier, and fewer still have explored the quicksand country beyond," Trombrower said. "The

STOP CATARRH! OPEN NOSTRILS AND HEAD

Says Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief.

Ah! How good it feels. Your nostrils are open, your head is clear, no more hawking, sniffling, blowing, no more headaches, dizziness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.

PRAIRIE CITY BANK BOUGHT

William Pollman, of Baker, Is One of New Stockholders; Grant County Men Are Interested.

BAKER, Jan. 25.—Purchase of the First National Bank of Prairie City, by William Pollman of this city, Patsy Daly, Herman Oliver and J. E. Bailey of Grant county was consummated yesterday, according to an announcement made last evening by William Pollman upon his return from Prairie, where he spent the last two days. Patsy Daly is elected president of the new organization, with Herman Oliver as vice-president; D. J. Hushes, cashier and J. E. Bailey, V. C. Belknap, R. R. McHaley as members of the board of directors with other officers. Stock in the institution owned by non-residents was purchased by the new owners, and the entire stock of the bank is now owned by residents of Baker and Grant county. F. W. Peet, for 12 years president of the bank, has disposed of his interests and retired from participation in affairs of the bank.

The First National Bank of Prairie City was incorporated 12 years ago with a capital stock of \$25,000 and it is the plan of the new interest to make the institution the largest and strongest in Grant county.

SAN FRANCISCO, Jan. 24.—Wearing high heels will be barred here, according to new rules just made public by the San Francisco park commissioners.

HOOTLEGGERS DONATE

(By Associated Press)
OAKLAND, Calif., Jan. 25.—Hootleggers are now paying more money into the city treasury than did the licensed saloons preceding prohibition. Fines collected in this city during 1922 for bootlegging amounted to \$4,982; while the saloon licenses in 1919 totalled \$4,500.

CARDS START DIAMOND WORK

(By Associated Press)
STANFORD UNIVERSITY, Calif., Jan. 25.—Forty-five men have reported to Coach Harry Winters for baseball practice here, including Woodward, Keavy, Heckendorf, Livingston and Carter, veterans of last year's varsity.

Eighteen men have already been booked on the 1923 schedule. The University of Southern California is added to the national diamond program for the first time.

COMB SAGE TEA INTO GRAY HAIR

Darkens Beautifully and Restores Its Natural Color and Lustre at Once.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients in a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of mess.

While gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark glossy, soft and luxuriant and you appear years younger.

CALIFORNIA ORE OUTPUT

(By Associated Press)
SAN FRANCISCO, Jan. 25.—California's output of gold, silver, copper, lead and zinc during 1922 was valued at \$21,625,600, an increase of \$473,177 over 1921, according to the United States geological survey estimates.

Gold production was \$14,845,000, a decrease of \$559,822, due, the survey says, to the disastrous fire in the Arroyo mine at Jackson, which also shut off production in the adjoining Kennedy mine, through which work was conducted in trying to reopen the 47 miners entombed in the Arroyo mine.

The government's report states that complaint has been made of the scarcity of first class miners, who seem to have gone into more profitable and less hazardous occupations than underground mining.

Copper production in 1922 was valued at \$3,302,500, an increase of \$1,521,601. This, says the report, was remarkable in view of the low price of the metal and the fact that the Mammoth, Mountain Copper, Penn and Calaveras mines, formerly the largest producers, remained closed.

(By Associated Press)
PAPEETE, Tahiti, Jan. 25.—Explorations on the island of Raiatea, in the Austral group south of Tahiti, have, it is reported here, uncovered a rich deposit of high grade copper ore. Specimens of this ore have been brought to Tahiti. In the past, but several attempts to find the mother lode have been unsuccessful until the present concessionaire of the mining rights in the island undertook and exhaustive exploration of the

mineral resources of the island. Mangano and paint rock were also found.

CAR DRIVERS IGNORE LAW

(By Associated Press)
OAKLAND, Calif., Jan. 25.—It is surprising the few automobiles driven in the traffic office to take charge of things," says the Oakland Tribune, which is conducting an "honor campaign" for automobilists. Each day the Tribune publishes two license

numbers on machines driven by carmen and law-abiding motorists, the holders of which are given theater tickets.

Relics of Ancient Egypt

In the tomb of the first dynasty at Abydos traces of the finest workmanship have been found. Carved bones of a dancer's wand ending in a rarer head and an ivory comb on which over the name of King Zet, is a winged ship.

Advertised Goods Reach You Without Lost Motion

A BIG PART OF THE COST OF LIVING TODAY MAY BE CHARGED TO LOST MOTION, TO SLOW, SLIPSHOD DISTRIBUTION OF GOODS, AND TO OLD-STYLE, WASTFFUL SELLING METHODS.

For example, every year tons of fruits and vegetables rot on the ground, because it doesn't pay to pick them... Discouraged growers plant less the next season, and the supply of food is reduced. Meanwhile, consumers in the cities near by grumble over high prices. Demand and supply are not brought together.

Exchange is lower today than it was ten years ago.

"In the twelve years since the first campaign was launched the consumption of Californian oranges has doubled. The American consumer has been taught by co-operative advertising to eat nearly twice as many oranges as before.

"Had the orange industry remained on the old basis, there would have been no profit in growin goranges. New acreage would not have been planted. Old orchards would most surely have been uprooted and other crops planted."

Advertising, properly done, saves money for the consumer and makes money for the producer by driving out wasteful methods, increasing volume and cutting down the costs of selling and distribution.

Contrast this with the handling of oranges. \$1,000,000 a year is spent for advertising by the co-operative association of the California Fruit Growers. A large sum; yet it is only about one-fifth of a cent per dozen—one-sixtieth of a cent for each orange sold.

And this advertising has kept down the cost of oranges. To quote an official of the Exchange:

"The cost of selling oranges and lemons through the California Fruit Growers'
