ROMAN BACHANNAL BRILLIANTLY DEPICTED IN "MANSLAUGHTER"

In spite of the fact that there were no photographers to record the dress and customs of the masses during the years of decadence of the Roman empire, Cecil B. DeMille has faithfully reproduced a scene of the barbarian invasion of Rome in his latest Paramount picture, "Manslaughter," which is being enthusiastically received all over the country.

The episode alluded to is a brief historical cutback, but it depicts vividly the arrival of Alaric's hordes in the Eternal City.

Leatrice Joy, who is one of the principals of the modern portion of the story, is the hostess at a lavishly beautiful Roman bacchanal which is interrupted by Thomas Meighan in the role of the leader of Goths. Lois Wilson, John Miltern and Casson Ferguson are the other members of the notable cast appearing in this sequence.

A strikingly realistic gladiatorial combat is one of the many interesting features of the bacchanalian entertainment. Although the episode required more than a week to film and kept nearly 1,000 persons employed, it will occupy the screen for only a few minutes. It is used to point a powerful lesson and serves to draw a comparison between ancient Rome and modern America.

The story deals with a young American girl of wealth who is a speed maniac and who is the cause of the death of a motor policeman. The district attorney who prosecutes her, loves her, but he believes that the only way to save her from herself is to punish her. She goes to prison and when he calls upon her, she treats him with contempt. He dissipates and later when the girl is released, she is the means of reforming him. The two are united after many thrilling incidents transpire.

The cast is practically all-star and embraces many of the best known players of the Paramount Stock Company. The picture, which is now playing at the Arcade theatre, is one of the finest Cecil B. DeMille creations and it should prove a record breaker at that house.

AT SHERRY'S TODAY, ZANE GREY'S STORY "GOLDEN DREAMS"

America's most popular novelist, Zane Grey, is contributing the screen's most thrilling Goldwyn's latest group of pictures. Mr. Grey's latest picture, 'Golden Dreams,' based upon his story of the same title and produced by Benjamin B. Hampton, is an absorbing romance, the action of which takes place in a mythical Spanish state known as Chinora where an American mining engineer is delving for silver on the McDonald estate.

Buchanan falls in love with Mercedes McDonald thereby incurring the enmity of her aunt and of the Duke of Othomo and his uncle, Don Felipe. The two latter conspire to make away with him and their various encounters with the American engineer form a series of thrilling climaxes which come to a happy end when his friends, the members of a wandering American circus, loose the caged animals and put to rout the hundreds of natives besieging Buchanan and Mercedes at the inn.

Jean Hersholt, Gus Peterson and C. O. Rush directed the picture under Mr. Hampton's direct supervision and they have kept something happening every minute of the time. The adventurous romance gathers momentum with each foot of film and crashes into as exciting a climax as the screen has reflected in many a month.

The photography is clear and excellent in every way. The exteriors were taken in Mexico and there are many beautiful scenic "shots."

The great cast is headed by Claire Adams and Carl Gantvoort who have appeared together in other Zane Gry picture, notably, "When Romance Rides." Others in the cast are Norris McKay, Mme. Rose Doing, Frank Leigh, Bertram Grassby, Frank Hayes, Walter Perkins, Babe London, Audrey Chapman and Little Mary Jane Irving.

Comedy, "A Ringer for Dad."

"GIRL AND THE TRAMP" MELODRAMA, COMEDY AND VAUDEVILLE

When "The Girl and the Tramp" appears at the Arcade Theatre on Thursday, it is declared that something out of the ordinary will be seen in the way of entertainment on the speaking stage. The play consists of two and a half hours of enjoyment, which includes vaudeville, musical comedy and drama, all blended in one evening's program.

William Durant, "The Musical Chinaman," appears in an oriental setting. Harry Dawsey sings familiar ballads, and the singing and dancing act of James Gordon and Mary Elgin, who have been round the world with their act, is a popular feature, while the singing of the Harmony Quartet often interrupts the action of the play by reason of the many encores demanded.

This company comes highly recommended and the management promises plenty of laughs. The tramp is the central character and around his gratitude toward and courageous rescuing from death of a beautiful young woman, who has befriended him, revolves the plot of the play. The manner in which the tramp risks his life to save the girl and his many other heroic acts provide abundant thrills and the comedy and sentiment is so evenly balanced in the play that smiles and tears are said to run a close race. Pre-war prices prevail and reserved seats are on sale at Glass Drug Store.

ICE SHIPPED FROM POWDER

NORTH POWDER, Jan. 30.—The North Powder M. & M. Co. had a very good ice business the past year. Thirty-eight large size cars were shipped from this point to different towns along the line of the O.-W., from Huntington to Arlington. This year's shipments exceed all previous records except one.

North Powder ice is known statewide and the low price asked for it, is creating a larger demand each year.

Where thickness of a Hair Equals a Mile

THE hair of a human head averages from two to three thousandths of an inch, and if motor service shop work is based on accuracy so coarse as a "hair's breadth," only poor results can be obtained.

Automobiles may be designed alike, and look the same, yet one, because of precise fits, has more power, speed and less vibration. When pistons and cylinder bores are held to limits of one thousandth plus or minus, it means that often a piston .001 undersize goes into a bore which is .001 oversize; and, in case of a three-inch piston, instead of having a wall clearance of .003 .001 for each inch of piston diameter) it has .005 and becomes an "oil-pumper"—an error of less than an average hair's breadth, yet, the results could have been no worse had it been a "mile."

Avoid errors as broad as a hair and for closely fitted pistons and perfectly ground cylinders have your repairmen bring your cylinder block to us for regrinding and piston assembling.
