Why Lawyers Are Called Solons. Lawyers are so called because Solon was a famous Athenian law giver. He became archon and improved the condition of debtors, divided the population into four classes, reorganized the boule, the popular assemblage, and the council of Aeropagus.

A Near Guess. "I'm improving in drawing, mother," said the little girl. "Are you, dear? That's good!" "Yes, I drew a cake on my slate and Bennie guessed it was an oyster. He knew it was something to eat, anyway, didn't he?"

Call the Faithful to Prayer. The minarets of Mohammedan mosques are the towers from which the officer whose business it is, issues the muzzin or call to prayer, at which signal all true Mohammedians face toward the East and engage in devotion.

Dissembler. A man may gamble and pick about it a good deal, but the fact remains that deep in his heart he's mighty proud of the wife in the new gown she's insisted on having. —Detroit Free Press.

EASY TO DARKEN YOUR GRAY HAIR

You can Bring Back Color and Lustre with Sage Tea and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. At little cost you can buy at any drug store the ready-to-use preparation improved by the addition of other ingredients called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger.

THEATRES

HIGH FILM STANDARD IN NEW RAY PICTURE

Splendid Type of Comedy Drama in "A Tailor Made Man," Booked Here.

From all advance reports, Charles Ray made a happy choice in selecting "A Tailor Made Man," for his initial United Artists production. Heralded as setting a new and higher standard of screen comedy drama, it comes to the Arcade theatre today.

"A Tailor Made Man" is a significant production in more ways than one. Not only is it the costliest photoplay ever produced by Charles Ray, but it presents him in a new character, a novel environment, and astounding situations. He is said to have made the role of John Paul Bart one of the most colorful and picturesque in the annals of screen drama; and to have outdone himself in point of humor, charm and tenderness.

Although the stage play was one of the salient successes of the last several theatrical seasons, the screen version of "A Tailor Made Man" is said to far surpass it. According to Joseph De Grasse, who directed Mr. Ray in the screen production, the screen art form provides the more appropriate medium.

The philosophy, gaiety and wholesomeness of "A Tailor Made Man" undoubtedly carried a particular appeal to American audiences, patrons of the spoken drama. The same should hold true in the case of the screen interpretation and elaboration.

Supporting Charles Ray in this production are Ethel Grandin, Jacqueline Logan, Thomas Ricketts, Douglas Gerrard, Victor Potei, Thomas Jefferson, Stanton Heck, William Parke, Edyth Chapman, Kate Lester, Frank Butler, Nellie Peck Saunders and others.

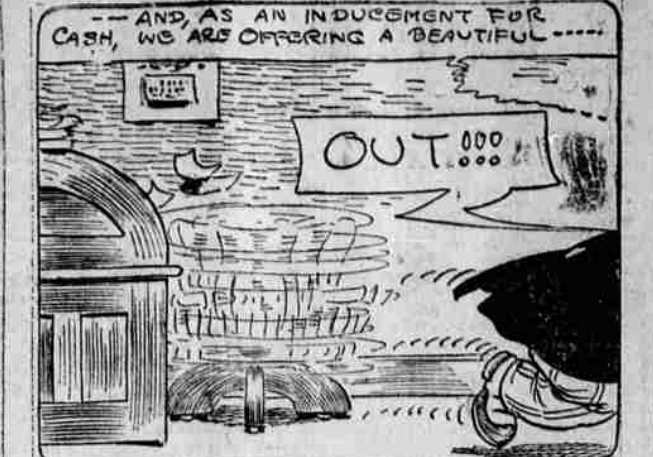

AT SHERRY'S TODAY AND TOMORROW

John Barrymore in Screen Version of "Sherlock Holmes."

Sherlock Holmes is the best known character in fiction of the present generation, if not of all time; his name and fame have been carried over the civilized world until merely to pronounce the name conjures up a vision of a master detective of almost super-human intelligence. In every language the words, Sherlock Holmes, mean a detective of uncanny insight. The stories by Sir Arthur Conan Doyle in which Sherlock Holmes figures have been translated into all languages and have carried his fame into every nook and cranny of the world.

In the realm of the imagination he is a commanding figure, but a figure that has not hitherto been available for the screen. It was inevitable that some day Sherlock Holmes would appear as the hero of a screen story. The immortal detective will be seen at the Sherry theatre in the Goldwyn picture called "Sherlock Holmes." It is an adaptation from the stage play fashioned about Sir Arthur's famous character by William Gillette which that actor used for years on the speaking stage.

AND AS AN INDUCEMENT FOR CASH, WE ARE OFFERING A BEAUTIFUL... HUH! THE IDEA OF A LOON COMING AROUND TO SELL SOMETHING THIS SOON AFTER CHRISTMAS !!!

THE GIRL AND THE TRAMP AT ARCADE TONIGHT JACK SUTHERLAND AND HIS SAXAPHONE BAND AT THE ARCADE SUNDAY

The Arcade theater will present the picturesque laughing show "The Girl and the Tramp" which is making good all along the line.

All the ingredients necessary to the successful comedy it is said to be contained in the piece. The author has taken two characters, a girl and a tramp and has built around them a most amusing series of situations. The plot is one easily understood, but the comedy is fast and furious, and one laugh after another is the result. The management have wisely placed the tickets at the popular prices that prevailed before the war, and as a result the company is playing to packed houses everywhere.

Another thing that tends to make war unpopular is the string of indictments that follow it.

When the Counting Was Done. "Johnny," said his mother, "you've been fighting with that Jackson boy again. Did you count 10 before?" "No, struck him, as I told you to do?" "No, mother," he replied, "but I was told that somebody else counted 10 after he landed on me."—Boston Transcript.

Where thickness of a Hair Equals a Mile

THE hair of a human head averages from two to three thousandths of an inch, and if motor service shop work is based on accuracy so coarse as a "hair's breadth," only poor results can be obtained.

Automobiles may be designed alike, and look the same, yet one, because of precise fits, has more power, speed and less vibration. When pistons and cylinder bores are held to limits of one thousandth plus or minus, it means that often a piston .001 undersize goes into a bore which is .001 oversize; and, in case of a three-inch piston, instead of having a wall clearance of .003 .001 for each inch of piston diameter) it has .005 and becomes an "oil-pumper"—an error of less than an average hair's breadth, yet, the results could have been no worse had it been a "mile."

Avoid errors as broad as a hair and for closely fitted pistons and perfectly ground cylinders have your repairmen bring your cylinder block to us for regrinding and piston assembling.
