

PARK HAS TWO FEET OF SNOW

THE PARK, Feb. 2.—A cold wave has struck this locality, the mercury descending to eight above at the "Big Log Cabin" at the Park.

Two feet of snow lies on the level, and the creek is at last looking as if it was real winter—although the indications above points out that the old French saying: "On Candemans day, the winter's neck is broke away" will be true this winter at least.

The death of Mr. W. H. Hutchinson of Union was received with a shock of sadness to all the people of the Park. Mr. Hutchinson was a staunch friend to most of the people here, and it is with great regret that they have to bear the great sorrow of his bereaved family. In looking him the entire county loses one of its best progressive men—but all must realize that the grin reaper is no respecter of persons and strikes at all times and places. It is with the entire community in stating that we give our greatest sympathy to the mourning family.

Daniel Frost and his grandson, Clarr Lansing of Holme, Idaho, who was on a visit to his many friends in the Park and Medical, will return home after he visits some of his relatives and friends over on Big Creek.

A party of timber cruisers came up the Catherine Creek road towards Medical Springs, but found the snow too deep to do any satisfactory work. They returned the next day, postponing the work till spring.

Charles Wood of Union, who had the old Hall ranch leased last year, reports that A. N. Stonedahl of Union has purchased the Hall place, land and timber included in the sale. The deal is an extensive one. The Hall brothers at one time owned some 5000 acres lying between Little Creek, Little Catherine and the main Catherine Creek, the home ranch being 10 miles southeast of Union. Details of the sale were not given.

Joseph Lay is hard at work hauling and cutting wood in the few spare times between tending to his splendid bunch of cattle and horses—besides general improvements on the place. Mr. Lay came to the Park a few years ago a not over-rich man; since that time he has reared a large family and is today handling and owning a large estate with all kinds of machinery and stock. All this country needs is men of this type. We have the country—let us get the right people.

A. J. Vanderventer entertained a number of friends and relatives at his home Sunday. The party consisted of Mr. and Mrs. Clarence Vanderventer, with their children, Elva, Mary, Kenneth and "Little Floyd"; the home of the house, Mrs. H. Liddy Vanderventer, was the amiable hostess and made things pleasant for all who enjoyed the visit till evening. Dan Frost and Clarr Lansing were some of the delighted guests.

Robert A. Hunter of North Powder Mills came down to the dance at Union Saturday evening, returning Sunday. There was a prize awarded for the best dancing couple. Mr. Hunter was not in the competition for the prize, but he was quite a hoper himself, having won prizes in Baker, Enterprise and La Grande. The names of the parties winning the prize at the Union dance was not yet learned at this writing.

Clarence Vanderventer helped some of his neighbors butcher a calf the other day.

Bert Van has about one of the best bunch of cattle in the country, which keeps him busy taking care of in the winter. "Big" Bert has everything in tip-top shape on his ranch and is another man that makes the country fit to live in, by his energetic efforts and his congeniality amongst his neighbors—it has been said of Bert—that he "was one man without an enemy." It was much feared some time last summer that the Park would lose him, as he was speaking of going to South America where he has purchased a track of land there comprising 500 acres.

EGG CENTER BUSY

(By Associated Press)

WINLOCK, Wash., Feb. 2.—This little town, which aspires to become the egg center of the Northwest, shipped 151 carloads of eggs during 1922. Of these, sixty-six carloads were sent to New York City and five to the Philippine Islands. Egg production brought \$205,835 to poultrymen here during 1922.

Improvement of roads and colonization of irrigated lands will be the principal objects toward which the Bend Commercial club will work during the coming year.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

Well-known druggists say it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By repeating the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Hockey Star

E. C. Stout has been playing a sensational game at left wing for Princeton's crack hockey team.

Stops Colds and Coughs

Neglected coughs and colds lead to influenza, la grippe, asthma and bronchitis, and the old method of "letting it run its course" is rapidly giving way to preventative treatment. Three generations of users have testified to the quick relief given by Foley's Honey and Tar from coughs, colds, croup, throat, chest and bronchial trouble. Contains no opiate—ingredients printed on the wrapper. Refuse imitations and substitutes. Adv.

THE NEW HALL of FAME

The glories of the Metropolitan Opera House brought into the home by world-famed Sigrid Onegin whose marvelous contralto is a sensation of the present operatic season.

1922—Soprano at Dallas (My Heart at the Sweet Voice)

Carmen—Chanson Bolero (Opus Song)

A marvel of recording as only Brunswick can achieve. Two selections, note, on the same record. Another of the world's truest reproductions.

Strong Nerves

You can't be healthy, happy or even good when you're nervous and irritable.

Every organ of the body is controlled by the nerves.

When they're out of order you're liable to have a nervous or physical break down.

Dr. Miles' Nervine soothes irritated nerves and gives nature a chance to restore them to their normal functions.

Sold at pre-war prices—**\$1.00 per bottle.**

HINTS GIVEN ON ECONOMY

To stimulate efficiency in use of freight cars and thus increase the supply of cars available to shippers, the Southern Pacific company is co-operating with the Car Service Division of the American Railway Association in providing shippers with suggestions as to loading, unloading and unloading cars. The main point of the circular is brought out in the heading: "Do Not Waste Transportation."

Shippers and receivers of freight are urged to load cars to full carrying capacity, to specify "carloads" when buying other than less car load shipments instead of fixing quantities as governed by tariff minimums and set trade practices, and to un-

load cars promptly.

In loading cars, shippers are asked to load the day cars are placed and to load to cubical or 10 per cent above marked capacity.

In ordering cars, shippers are requested to state size desired, quantities to be loaded, destination and route.

By unloading cars the day received, equipment is released and demurrage charges are avoided. This can be done by taking men from other work temporarily, by employing additional men and by unloading at night and on Sunday. Agents or yardmasters should be notified immediately when unloading is completed.

To prevent delay, bills of lading should contain complete and definite information concerning the shipments. So far as possible unnecessary trade practices, such as permitting inspection on delivery, constant use of order, notify or bank draft consignments, and unnecessary reconsignments, should be avoided.

Foreign cars should be sent to or in the direction of the owning line, while cars owned by the line serving the shipper should be used, as far as possible, in filling orders for delivery to points on that railroad.

Evidence of National Decay.

There is no greater evidence of a general decay of virtue in a nation than a want of zeal in its inhabitants for the good of their country.—Adison.

Money saving CASH UNITED STORES stores

There is a saying that "nothing succeeds like success." Also that "success more often than otherwise, comes from doing some common thing uncommonly well." SKAGGS UNITED STORES exemplify both truths.

Our organization has progressed to the point where, under our economic scheme of buying and distribution, it is our privilege to sell high quality merchandise at lower than prevailing prices, and in so doing offer the consuming public a service, different, tangible and continuous—THE SERVICE OF SAVING.

It is our pleasure also to install into the minds and character of our personnel, and establish and maintain in our stores, that air of cheerful promptness and desire to please so commonly lacking in ordinary stores.
