SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to
Bring Back Color and
Lustre to Hair

That beautiful, even shade of dark,
glossy hair can only be had by brew-
ing a mixture of Sage Tea and Sul-
phur. Your hair is your charm. It
makes or mars the face. When it
fades, turns gray or streaked, just an
application of two of Sage and Sul-
phur enhances its appearance a hun-
dredfold.

Don't bother to prepare the mixture;
you can get this famous old recipe im-
proved by the addition of other ingre-
dients at a small cost, all ready for use.
It is called Wyeil's Sage and Sulphur
Compound. This can always be de-
pended upon to bring back the natural
color and lustre of your hair.

Everybody uses "Wyeil's" Sage and
Sulphur Compound now because it
darkens so naturally and evenly that
nobody can tell it has been applied.
You simply dampen a sponge or soft
brush with it and draw this through
the hair, taking one small strand at a
time; by morning the gray hair has
disappeared, and after another applica-
tion it becomes beautifully dark and
appears glossy and lustrous.

THEATRES

AT SHERRYS—LAST DAY

Photoplay Makers Re-create His-
tory. George Fitzmaurice Does
This in "To Have and To Hold."

They turn things topsy-turvy,
these photoplay makers. They make
snow in the summertime and rain on
a desert.

And no'w they're even re-creating
history. A lot of logs fixed together
out in the country, a flowing
stream, a colonial governor, two
clergymen, six stern members of a
colonial council, eight elderly men,
80 women, 150 settlers, a few tomah-
awks, half a dozen bottles of prop-
"blood"—and presto!—the historical
attack upon and defense of James-
town, Va., in 1609, found its way to
an eventual reproduction of the
screens of America.

James town of colonial days, is
said to be one of the most interest-
ing features of "To Have and To
Hold," a George Fitzmaurice pro-
duction for Paramount, featuring
Betty Compson and Bert Lytell, and
with Theodore Kosloff and W. J. Fer-
guson in strong roles.

Ouida Berger made the screen
adaptation from the Mary Johnston
romantic novel, which carries an ab-
sorbing story from the profligate
court of King James I of England
through the hardships of the Virgin-
ia colonies to dramatic scenes aboard
a pirate craft and a final denoue-
ment in the same court from whence
started the characters thus caught
in a whirlpool of adventure.
Comedy showing, "Beach Nuts."

JIGGS COMES INTO HIS OWN

The startling announcement that
the proverbial worm has eventually
turned and that one of our most be-
loved characters in stage and story,
Jiggs Mahoney, of international car-
toon fame has finally come into his
own provides a culmination to a
series of long and unfortunate do-
mestic squalls which is to be dis-
closed at the Arcade Theatre Fri-
day night.

From all accounts this latest play,
which is described as the best of
"The Bringing Up Father" cycle
runs the gamut of genuine fun-
niness, bits, original innovations and
a preponderance of stark novelties,
surprises and features certain to
revolutionize this kind of entertain-
ment. The new farce which is in
three acts is entitled, "Father On
His Vacation."

KATHERINE MACDONALD
HAS LIVE ROLE AS INFIDEL
Charles Logue fashioned better
than he imagined when he wrote
"The Infidel" for Katherine Mac-
donald. In some of her previous
screen offerings Miss Macdonald

has not had many opportunities to
prove that, as an actress, she is ca-
pable of almost any demands that
may be made upon her, but in "The
Infidel," which is the First Nation-
al attraction at the Arcade The-
atre today and Tuesday, she has light
comedy moments, strong, sincere,
dramatic scenes that prove her
absolute mastery of the technique
of screen acting, while toward the
end of this thrilling and romantic
story of the South Seas the star
shows that even in melodrama she
is capable of powerful and praise-
compelling historicism.

Katherine Macdonald is seen in
the role of Lola Dainty, a young
girl who has been brought up to hate
ministers, the Gospel of God and
everything of a religious character.
Chance takes her to a South Sea
island, with its missionaries and na-
tive, and in the thrilling experiences
which follow and culminate in a hap-
py romance, Lola undergoes a rev-
olutionary change in her ideals. The
South Sea settings are picturesque
and the story teems with vivid ac-
tion, including a typhoon and an
island uprising, which is quelled by
the U. S. Marines.

An excellent supporting cast ap-
pears with Miss Macdonald, whose
players are Joseph Dowling, Boris
Karloff, Melbourne Macdonald, Oleta
Otis, Charles Smiley, Loyola O'Con-
nor, Barbara Tennant and Charles
Flore.

"The Infidel" reveals fine direc-
tion in the hands of James Young.

There may be a lot of hypocrites in
the churches but there are evi-
dently a great many more outside.

OPEN NOSTRILS! END A COLD OR CATARRH

How To Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or
catarrh disappears. Your clogged nos-
trils will open, the air passages of your
head will clear and you can breathe
freely. No more snuffling, hawking,
mucous discharges, dryness or headache;
no struggling for breath at night.

Get a small bottle of Ely's Cream
Balm from your druggist and apply a
little of this fragrant antiseptic cream
in your nostrils. It penetrates through
every air passage of the head, soothing
and healing the swollen or inflamed mu-
cous membrane, giving you instant re-
lief. Head colds and catarrh yield like
magic. Head colds and catarrh yield like
magic. Don't stay stuffed-up and miser-
able. Relief is sure.

Where thickness of a Hair Equals a Mile

THE hair of a human head averages from two to three thou-
sandths of an inch, and if motor service shop work is based
on accuracy so coarse as a "hair's breadth," only poor results
can be obtained.
Automobiles may be designed alike, and look the same, yet
one, because of precise fit, has more power, speed and less yel-
lowing. When pistons and cylinder bore are held to limits of
one thousandth plus or minus, it means that often a piston .001
undersize goes into a bore which is .001 oversize; and, in case
of a three-inch piston, instead of having a seal clearance of .002
.001 for each inch of piston diameter) it has .005 and becomes
an "oil-pumper"—an error of less than an average hair's
breadth, yet, the results could have been no worse had it been
a "mile."

Avoid errors as broad as a hair and for closely fitted pistons
and perfectly ground cylinders have your repairmen bring your
cylinder block to us for regrinding and piston assembling.
