"EBB TIDE" STORY OF REGENERATION

Human Drama Ably Presented By
 An All Star Cast.

What more moving human drama
 has ever been recorded than that of
 a man on the ebb tide of life—one
 who suddenly "made a success or
 failure"—who suddenly and unex-
 pectedly, even to himself, rebels
 against the fell, high overwhelming
 poison of life's darkest waters, the
 drug of the ebb tide, and makes a
 soul touching fight to return on the
 new tide to the beach of regeneration?

That is the spectacle, most vividly
 presented, in "Ebb Tide," a new and
 gripping Paramount picture, which
 will be the big feature at the Ar-
 cade Theatre Wednesday and Thurs-
 day. Of course there was strong
 inducement for the regeneration of
 the Oxford scholar, played by James
 Kirkwood. It was love, in the form
 of dainty Lila Lee. It is doubtful
 that you will ever be treated so a
 stranger and more dramatic story
 of regeneration than that on which
 "Ebb Tide" is based.

The picture was directed by Geo.
 Melford and is a worthy production,
 as may readily be judged by the
 fact that with Mr. Kirkwood and
 Miss Lee heading the all star cast
 are George Fawcett, Noah Beery,
 Robert Hutton and Jacqueline Logan
 all seen in dramatic roles.

AT SHERRY'S TODAY AND TOMORROW

Several Alien Lands and Isles Seen in
 "The Man Who Saw Tomorrow."

Picturesque isles of the south seas,
 England, India—all these are embrac-
 ed in the peculiar plot of Thomas
 Meighan's latest Paramount picture,
 "The Man Who Saw Tomorrow,"
 which comes to the Sherry's Theatre
 for two days, beginning today.

And some of the hardest acting that
 the good luck star has ever done is
 included in this story, which deals
 with a problem of divided affection in
 a most unusual manner.

An unusual cast surrounds the
 star, Leatrice Joy who is leading woman
 Eva Novak, June Elvidge, John
 Milner, Laurence Wheat, Theodore
 Roberts, as a trick trader of the south
 Robert Brower—are some of the best
 known names.

Several highly colorful sets in the
 East Indian sequence vie with the
 Indian views for beauty and pictur-
 esqueness. There is also New York
 as well as in fashionable
 England. It is a distinctly romanti-
 c picture with a plot that is among
 the most original of a decade.

JIGGS UPSETS THE BUCKET AT THE ARCADE FRIDAY

Supposing you were a good, peace-
 ful citizen, a loving parent, and a
 loyal family man and found yourself
 unappreciated and intolerably ben-
 eeked in the bargain? What would
 you do? Do you think you would
 upset conventions and kick over the
 traces, or bow to the inevitable and
 "take your medicine calmly and nurse
 your wrongs in the silence of a
 wounded heart? That is the problem
 that long has confronted the famous
 Jiggs Mahoney of "Bringing Up Father"
 fame, whose woes and tribulations
 have earned for him the sym-
 pathy of the populace, yet without
 made him the most beloved charac-
 ter in the world today. Jiggs has
 solved his problem in his own way,
 just how is disclosed in the latest
 musical comedy triumph, "Father on
 His Vacation" which will be seen at
 the Arcade Theatre Friday night.

Those who have been fortunate
 enough to have witnessed this un-
 usual piece of unique stage literature
 claim it is the best of the "Bringing
 Up Father" series up to date and a
 masterpiece of ingeniously certain to
 perpetuate this wonderful institution of
 purely American humor and fun.

The girls' basketball team of the
 Imbler high school have been busy
 recently, preparing to meet the Pir-
 ate in a game which is to be played
 Monday. This will be the first game
 played by either team.

The regular meeting of the Boy
 Scouts was held Wednesday evening.
 The matter of establishing a branch
 organization in Abel was brought up
 for consideration but no definite ac-
 tion was taken.

Where thickness of a Hair Equals a Mile

THE hair of a human head averages from two to three thou-
 sandths of an inch, and if motor service shop work is based
 on accuracy so coarse as a "hair's breadth," only poor results
 can be obtained.

Automobiles may be designed alike, and look the same, yet
 one, because of precise fits, has more power, speed and less vi-
 bration. When pistons and cylinder bores are held to limits of
 one thousandth plus or minus, it means that often a piston .001
 undersize goes into a bore which is .001 oversize; and, in case
 of a three-inch piston, instead of having a wall clearance of .003
 .001 for each inch of piston diameter) it has .006 and becomes an
 "oil-pumper"—an error of less than an average hair's
 breadth, yet, the results could have been no worse had it been
 a "mile."

Avoid errors as broad as a hair and for closely fitted pistons
 and perfectly ground cylinders have your repairmen bring your
 cylinder block to us for regrinding and piston assembling.
