CONDITIONS FAIRLY GOOD IN THE EAST
(Continued from page 1)
In case we ever establish trade relations with Canada, this would still further help the states of New York, Ohio and Pennsylvania. Moreover, let me add that we do not appreciate our Canadian opportunities. Canada is a wonderful country, and both Canada and the United States are making a great mistake in overlooking each other. The United States should freely purchase raw materials from Canada who should reciprocate by buying manufactured goods of us. The creator expected such reciprocity to take place and both countries are making a great mistake in trying to block the natural flow of commerce.
Ohio is coming along slowly, but surely. Of course, the agricultural interests of Ohio have suffered severely the past two years, but the industries of the state are no diversified that Ohio has not suffered like states further west. There, however, is less activity in Ohio today than in New York or New England. Ohio, however, is a wonderful state and has some wonderful cities. These cities are not only well located and constructed, but they are people with men and women having vision, energy and desire to do something worth while. Hence, I am very optimistic for Ohio in the long run. My vacation in Pennsylvania was not so good. Philadelphia, Pittsburgh, and some of the other cities are doing very well, but there seems to me a spirit throughout in the state to depend more on inherited wealth than upon one's immediate efforts. This is evidenced in the attitude of some of the great corporations and also in the case of the public at large. This attitude was shown when the coal export tax was enacted. Everywhere I was asked about this tax. There seems to be a very strong feeling against it. Business men in Ohio, Illinois and other states said that they considered it the most dangerous piece of legislation enacted since the days of slavery. They claim that if Pennsylvania can put an export tax on coal, then New York can put an export tax on oil, Ohio on brick, Michigan on copper, and all the other states on something or other. This would mean chaos for our commerce and give a blow to American prosperity from which it would take us one or two generations to recover. Personally I believe that the politicians of Pennsylvania have entirely misinterpreted the wishes of the Pennsylvania people. A single state cannot live upon its tariff. Pennsylvania needs the rest of the country more than the rest need Pennsylvania. Any state which attempts to exist by taxing other states will fall as did Athens, Rome and Carthage. However, I am convinced that there is no such disposition in Pennsylvania, as business men elsewhere pretend, but that facts along this line are unargued.
Just one word in closing regarding New Jersey very active. New factories are going up every day and there is a fine spirit among its people. Maryland, of course, never gets very excited. It does not suffer very much from either reckless booms or depressing panics. Personally, I am very fond of all of these states and hate to leave them.

ISLAND CITY COMMUNITY CHURCH—Dr. Quigley of La Grande will preach Sunday morning at 11 o'clock. The Sunday school meets at 10:30. In the afternoon, beginning at 2:30, will be the Epworth League rally for all the leagues of Union county. There will be an evening program beginning at 6:30. Between these two services will be a social hour. Those attending are asked to bring basket lunch, except the warm drink, sugar and cream, which will be furnished by the local committee. There will be discussion upon different phases of Epworth League work, also special music and, in the evening, Mrs. Mosman's illustrated lecture will be one of the leading features. This entire program will be a real treat and something that no one can afford to miss. Hall K. Wallis, pastor.

PRESBYTERIAN CHURCH—The second Sunday in the Lenten season will find us entering our thoughts around Jesus the Christ. Our faith is based upon Jesus Christ and Him crucified and the Lenten thoughts center about the Uplifted Saviour. In the 11 o'clock service Mr. G. L. Dutton will be our soloist, while at the 7:30 hour Mrs. Lynn Wright will render a piano solo assisting the young people's choir in addition to their special number. Sunday school at 9:45 and Christian Endeavor at 6:15. Your highest usefulness to your community and your fellowmen depends upon a proper balance of work and worship. You go to work every other day, so why not go to worship on the Lord's Day? The churches of this city extend an invitation to worship with them and we offer our services with the real message of Easter leading us forward. Let us see you on Sunday.—W. C. Ross, minister.

JAP. GHEI STAR ATHLETE

PLAYING THE GAME
Little Jessie was making a terrible noise while playing with her brother Jimmie, so Mamma called to her: "Gracious, Jessie, who are you shouting in that terrible manner? Why can't you be quiet, like Jimmie?"
"He's got to be quiet, the way we're playing," replied Jessie. "He's mama, coming home from the Elks, and I'm you."

TRY SULPHUR ON AN ECZEMA SKIN
Costs Little and Overcomes Trouble Almost Over Night

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this soothing preparation instantly brings cases from skin eruptions, scabies and itchy skin clear and smooth.
It seldom fails to relieve the torment without delay. Sufferers from skin trouble should obtain a small jar of Mentho-Sulphur from any good druggist and use it like cold cream.

If Back Hurts Begin on Salts
Flush Your Kidneys Occasionally by Drinking Quarts of Good Water

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Too much rich food creates acids which clog the kidney pores so that they sluggishly filter or strain only part of the waste and poisons from the blood. Then you get acid. Rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage, or attended by a sensation of stinging, begin to drink soft water in quantities; also get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then get fine.
This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush clogged kidneys and stimulate them to activity, also to help neutralize the acids in the system so they no longer cause irritation, thus often relieving bladder disorders.
Jad Salts is inexpensive and can not injure; makes a delightful effervescent lithia-water drink, which everyone can take now and then to help keep the kidneys clean and the blood pure, thereby often preventing serious kidney complications. By all means have your physician examine your kidneys at least twice a year.

Military Beau Brummels To Favor Swagger Sticks
WASHINGTON, Feb. 24.—The military dandy is coming back. Drab uniforms of war days are to be superseded by the more pretentious garb, favored by the American Tommy Atkins of pre-war days.
The new summer foggery of the U. S. Marines will be blue coats with brass buttons, white trousers, white belts and white cap covers. Trencher trousers are barred, but the carrying of swagger sticks, will be considered good form by fastidious dressers.
Military tailors announce that the sartorial inventory of the Leathernecks will be the last word in military smartness.

COPPER KETTLE, ANCIENT
(By Associated Press.)
SANTA CLARA, CALIF., Feb. 24.—The ancient and well-worn copper kettle, believed to have been made by the Indians of Santa Clara Mission more than 100 years ago and found recently by workmen excavating for the new science building at the University of Santa Clara, will be placed in the historical museum of the university, according to Rev. Joseph C. Shala, director of the museum and library. Included among the articles in the museum are the contents of the first mission in 1777 and a baptismal record kept by Father Junipero Serra, founder of all the California missions.
