OLD FIGHTER STILL ALIVE

(By Associated Press)
SALT LAKE CITY, Feb. 28.—Many of the older followers of boxing will remember Michael Dennis (Dummy) Rowan, who in the '90s was rated a topnotcher and battled some of the best heavyweights of his time despite his handicap of being a deaf mute. "Dummy" Rowan is nearly 48 years old and resides here with his brother, "Silent" Rowan, also an old-time deaf and dumb boxer.

"Dummy" Rowan was born at Gardner, Grundy county, Illinois, April 4, 1875. He started his ring career in 1894 and seven years later at Park City, Utah, stopped "Deafy" Thompson in twenty rounds for the mythical deaf mute heavyweight championship of the world. His last fight was in 1912.

During his twenty years in the ring, Rowan fought with Bob Fitzsimmons, then world's champion, and claims a knockout over Jack Johnson, who afterward won the heavyweight title from Jim Jeffries at Reno.

Rowan's mix with Fitzsimmons took place at Anaconda, Mont., soon after he had started out as a boxer. Anxious to secure the \$100 offered by Fitzsimmons' manager to anybody who could stay four rounds with the champion, "Dummy" accepted and claims he was holding his own when for some unknown reason the fight was stopped in the third round.

"Dummy" says he could not collect the money, nor could he get an explanation as to why the contest was halted.

It was at Waco, Texas, that Rowan knocked out Jack Johnson in five rounds. That was before he of the "golden smile" won the world's championship.

Rowan fought a great many battles in Utah and he met some of the toughest men who ever appeared in this section, including Jim Francis, "Mexican Pete" Everett, Tim Sullivan, Joe Cotton, Jack Conley, and others who were ring idols more than twenty years ago.

The Rowan-Cotton contest took place at Mercer, Utah, on October 15, 1899. It went twenty rounds to a draw and later Cotton fought a twenty-round draw with Jim Jeffries just before Jeffries won the championship from Bob Fitzsimmons.

There are no statues erected to men who thought it best to let well enough alone.

NEW FERRYBOATS
(By Associated Press)
LOS ANGELES, Cal., Feb. 28.—Electric ferryboats with vibration reduced to a minimum are the latest mode for transbay commuters, with completion here of the Havercraft, the San Leandro, for San Francisco-Oakland service. These ferries will have a loaded speed of fifteen miles per hour and be operated by electric turbine engines, with motors powered at 1550 shaft horsepower.

Each ferry will accommodate 3000 passengers and have an electric galley and grill accommodating eighty diners, also complete fire-fighting apparatus, two fire-fighting boats and eight life rafts. Vibration is reduced by independent control of the propellers, permitting lifting of the forward screw while the aft screw is driving.

GRANGE HOLDS BOOSTER MEET

The seating capacity of the hall of the Telocaset grange was taxed to the limit at their meeting on February 24, with very near every member present. Three new members were received. Steps were taken to try to secure the empty road for the Thief Valley project to be built from Telocaset as it would follow an established road to the closest enclosing point and after the project was completed would be an outlet for the farmers of Big Creek and Medical Springs district. The Grange also endorsed the Wolf Creek rural road improvement program. Special arrangements are being made for the entertainment of the Union County Pomona Grange which will meet with Telocaset Grange on March 24. The Grange and the school are going to hold a basket supper on Friday evening, March 2nd, and special invitations are being sent to the other granges to attend. The teachers and the Home Economic class are arranging an excellent program, one number of which will be a vocal solo in Russian. The grange is planning a special program of community improvement a part of which will be the securing of play ground equipment for the school. An excellent paper on this subject was read by the lecturer, M. G. Church.

The program was as follows: "My

Country 'Tis of Thee," by Granger; "Washington's Farewell," Miss Wilson; "Our Flag," L. B. Hyatt; "Boys' Ago," D. H. Shuler; "Roulette," Miss Stratton; Song, "Wild Bird," by the Grange. The making of the Orestis Apple, Mrs. Church.

Mr. and Mrs. J. G. Anson were chosen alternates to the state Grange, Mr. and Mrs. Wilkinson being the delegates. L. B. Hyatt was appointed chairman of the legislative committee and will be assisted by Geo. Akeley and J. G. Anson. The executive committee were instructed to see about securing squirrel poisoning, to take up with the railroad company to see about securing their assistance in getting rid of the squirrels on the right of way and also to secure data in regard to the introduction of squirrels for their infestation. The dinner furnished by the ladies was all that anyone could wish for but several brothers complained of their capacity being limited.

Society

Thursday's meeting of the Neighborhood club was delightful. Unquestionably there is nothing that blends in with the spirit of spring more artistically than the graceful dancing of children. Sallie Siegert and Evelyn May charmed their audience with a quaint rustic dance which gave them an exceptional opportunity to display their youthful grace and budding talent. They appeared in two spirited and captivating ballet dances. Beulah Newlin accompanied at the piano.

Mrs. James McNamee spoke on the characteristics of French music, and six here-effective were illustrated her points in the choice of the musical program.

Everyone enjoyed the singing of "Si in Regneur (Jacques Halevy)" by E. D. Towler whose voice is exceptionally suited to concert singing. Miss Hilda Anthony accompanied at the piano.

Si Meo Ver (Reynolds Hohm) with a melody of sweetness, was sung by Miss Fredericka Schike who has a voice of remarkable warmth. She was accompanied by Mrs. Lynn Wright.

Intriguing to the interest of all was the playing of the fascinating Venetian Barcarolla (Benjamin Godard) by Helen Williams. With the sympathetic mastery of her touch the audience was made to feel the varied emotions of spring which the song brings up.

Last Friday evening Mrs. S. E. Swalberg was pleasantly surprised by a number of new friends and relatives at her home, 2707 North Fourth street, in honor of her birthday anniversary.

The evening was spent in social chat and music, refreshments being served at the close of the evening.

Those present were Mrs. M. K. Metcalf, Mrs. Emma Stringham, Goussiana Stringham, Mrs. and Mrs. Clyde Metcalf, Kenneth Smith, Mrs. S. E. Swalberg, Edith and Beanie Swalberg, Mrs. M. Knight and William Knight.

Women of Moosehead Legion will meet Thursday afternoon at two o'clock for a social meeting at the home of Mrs. Jessie Fisher on the corner of Willow street and Love avenue. The afternoon will be spent at needlework. All members are urged to attend. Mrs. D. Charbonneau will assist Mrs. Fisher as hostess.

After their regular lodge session last evening, the Neighbors of Woodcraft gave a surprise luncheon in honor of Mrs. Carrie Robbs, the occasion being the anniversary of her birthday. A very pleasant evening was enjoyed by all who were present.

Chapter I. P. E. O. will meet for their annual election of officers on Friday afternoon at the home of Mrs. H. S. Brown on O avenue.

JELLY FISH IS IDEAL SOVIET

(By Associated Press)
WASHINGTON, Feb. 28.—Antisocialism started out every form of government and the jelly fish is the only one that has not been a success of the communist creed, U. S. Trevor Kincaid of the University of Washington said in a recent address here.

"The jelly fish of the perfect society," he said, "whose every member works for the common good. The amoeba, the simplest form of animal life, is the perfect individualist."

Prof. Kincaid said ants most closely parallel human society. "The ants have even their own bootleggers," he declared, "and they are the most generous individuals in the world. However, an ant colony knows nothing of universal suffrage. The old world run the government while the new world stays at home and takes things easy."

CURES COLDS

How easy it is to take cold—coughs, sore throats, sitting in a draft, exposure to winds and the unpleasant results soon follow.

But with proper treatment a cold is comparatively easy—

NYAL'S LAXACOLD cures a cold in the shortest time possible.

It acts directly on the mucous membranes, relieves irritation and inflammation and acts as a tonic-laxative.

OIL BOOM TOWN IS BUILT OVERNIGHT

(By Associated Press)
LONG BEACH, Calif., Feb. 28.—Oil booms have an expansive way about them, often creating capitalists overnight. The Signal Hill oil boom here has made office buildings out of bungalows in as short a time.

Gushers in this field happen to break out in the midst of a group of pretentious residences, mostly of the bungalow type. The resultant downpour of petroleum ruined them as residences, but opened up to them a new field of usefulness as office buildings for oil companies.

As a consequence, it would be hard to find an oil field with offices

"The ant is a radical while the bee is a conservative. Bees meet new situations with the old methods and often fail, but ants adapt themselves to new situations and win."
