GERMICIDE AND DANDRUFF
ERADICATOR

Something reliable in our germi-
cide and dandruff eradicator. We
know you will be thoroughly satis-
fied with this preparation. It stops
dandruff in a short time, generally
in about 10 days. It stops itching of
scalp at once. It will stop falling
of the hair, generally within a
month. We have made and sold this
preparation for many years and has
always been satisfactory to those
having tried it at Silverthorn's,
Wright's Family Drug Store, former-
ly Putman's drug store. 3-7-11

Gasoline—

do you use it in your car?

Gasolines explode in two ways. One kind explodes in-
stantaneously—detonates. It has the effect of a sledge
hammer blow.

It crashes against the piston head, forcing the stroke
by the single impulse.

It limits the compression because of its tendency to ex-
plode prematurely, and thus reduces power and efficiency.

Detonation causes "knocking." You notice it especially
on the hills. It increases vibration thus increasing wear
and tear.

The Prolonged Impulse

The other kind of explosion—the more efficient kind—
you get from Union Gasoline.

It is a prolonged explosion. The impulse is progressive
and sustained—not crashing and instantaneous.

It thrusts the piston throughout the entire stroke.

So Union Gasoline permits increased compression in
your motor, for compression, as authorities agree, is limited
by the tendency of gasoline to detonate. And on maxi-
mum compression is dependent maximum efficiency and
power.

More Power on Hills

Thus Union Non-Detonating Gasoline makes your car a better
hill climber. You find a new "lift." Your car is, in fact, being
pulled up by a steady, sustained impulse rather than by a series of
jerks.

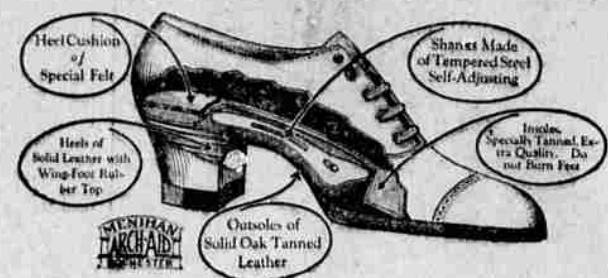

Likewise you have new speed on the level and more snap in the
getaway—both results of high compression.

You enjoy a smoother running car. It has less vibration, for the
power impulses are smooth and constant. It saves wear and tear.
And you obtain more miles per gallon because of increased
efficiency.

Union Gasoline is the product of progressive refining methods.
Its quality is governed by exhaustive tests. It is constantly being
improved by the research of able chemists who are aided by the
very finest equipment for studying refining processes.

Menihan Arch-Aid

MENIHAN'S ARCH-AID SHOES are made over com-
bination lasts, scientifically perfect, assuring snugness of
fit, correct posture and comfortable toe room. People
have come to realize that MENIHAN ARCH-AID SHOES
keep the feet alive and vigorous, helping the entire nerv-
ous system. MENIHAN ARCH-AIDS are health shoes
that have style. Everywhere these shoes are gaining in
popularity because they are built over lasts which are
scientifically perfect, allowing proper foot expansion,
which permits better circulation. The flexible steel shank
automatically adjusts itself with the natural bend of the
foot when walking.

DON'T think that you have to have your shoes made to
order to get the proper fit, for we have these shoes in
Black and Brown. Widths AAAA to E, sizes 2½ to 10.
