FOR SALE

I have for sale one of the most desirable homes in La Grande. Located on the hill in the west part of town. The lot is large, 30x140, with cement sidewalks and macadamized streets on two sides. The selection and arrangement of lawn, trees and shrubbery truly makes the outside appearance of this home a place of rare beauty. On the north side of the house is a concrete driveway to a large well built garage. The house consists of seven rooms, including three large bedrooms, beautifully veneer enameled, built-in kitchen with a built-in pass pantry between the kitchen and dining room. The dining room is a large, beautiful room with hard wood floor, stained so as to make it light and very pleasant. The front room is what makes this a home and everything that the word "Home" implies, with a large fireplace and the wonderful view of the city and valley that this room commands. If you are interested in owning a real home that is priced right, let me show you this and then you can appreciate and realize its real worth. No information given over the phone regarding this one property.
